Popular Feature in Other Sections of the United Now Put in a People of This Section.

Preliminary work has been done by the state to secure donations of the lake region of Lenawee county, on the Detroit-Chicago trunk line highway, a tract of land and buildings which can be transformed into a suitable public park.

Such a park would be of great value to the public, not alone the traveling public but to people in the east and west one stops at many beautiful rest stations along principal highways, all of which are located at most favorable points for viewing the scenery of that section of the country.

Next Tuesday, Nov. 2nd, will be general election day. Those entitled to vote have been posted throughout the state.

PAINTED IN FIVE MINUTES

London Newspaper Tells of Meritous Pictures Made Quickly by Traveling Artist.

While great painters have spent weeks—perhaps months—on a simple sketch, a young artist is turning out delightful views of the sea and country in five minutes.

They were pictures to be proud of, too, painted with taste and an eye for the color.

There is no doubt that there will be a great demand for "rapid" artists in the near future, when we get some of those promised houses built, and an uncertainty in the economic future.

Vote "NO" on the School Amendment

Michigan's property owners paid last year an aggregate of over One Hundred Millions for taxes.

The Budget now being prepared by Commissioner Foote shows a demand for more State Taxes than last year's total by several millions of dollars.

The dumping of the Private School Pupils of Detroit alone on to its Public Schools would cost that city Twenty-Eight Millions for new buildings and Three and a Quarter Millions a year for maintenance.

The same cause would increase the School Taxes of Grand Rapids by Fifty Per Cent.

The Direct Taxes of every district would be increased, with no increase in Primary School Fund money.

The total amount of new money to be raised by taxes for Educational Purposes in Michigan if the Private and Paucial Schools are closed by law, in addition to sums already annually expended, is estimated at Forty-Five Million Dollars for Buildings and Seven and a Quarter Millions Annually for Teachers and Going Expense.

The Educators of Michigan unanimously agree that it would take ten years to provide the school facilities which would be demanded if the Private School Pupils have to be educated at Public Expense.
