Vote "NO"

School Amendment

Michigan's property owners paid last year an aggregate of over One Hundred Millions for taxes.

The Budget now being prepared by Commissionel Foote shows a demand for more State Taxes than last year's total by several millions of dollars.

The dumping of the Private School Papils of Detroit alone on to its Public Schools would cost that city Twenty Eight Millions for new buildings and Three and a Quarter Millions a year for

The same cause would increase the School Taxes of Grand Rapids

The Direct Taxes of every district would be increased, with no increase in Primary School Fund money.

The total amount of new money to be raised by taxes for Educational Purposes in Michigan if the Private and Parochial Schools are closed by law, in addition to sums already annually expended, is estimated at Forty-Five Million Dollars for Buildings and Seven and a Quarter Millions Annually for Teachers and Going Expense.

The Educators of Michigan unanimously agree that it would take ten years to provide the school facilities which would be demanded if the Private School Pupils have to be educated at Public Expense

Vote "NO" on the School Amendment

To Amend Article 13 of the Co

The International Livestock Expo-

The International Livestock Expoition will be held at the Union Stock
Yards, Chicago, Nov. 27 to Dec. 4.
The chief mission of this exposition is to stimulate the production of more and better livestock and to establish a sound agricultural basis, and a sound agricultural basis, and first a now universally conceded that our farmers must prosper if the life of the get maximum results at a minimum cost. More livestock on the farms means more productive lands, better homes, a happler and more satisfying country life and greatly increased prosperity for all those dependent upon agricultural communities for their existence. Some of the more progressive of our farmer readers have attended the exposition. The wather was a rather light increased prosperity for all those dependent upon agricultural communities for their existence. Some of the more progressive of our farmer readers have attended the exposition. The wather was not at all cold until times and including the middle of the forenoon when the change was rapid and by noon there was quite the tang of winter in the graders have attended the exposition and the flakes meters of the more progressive of our farmer readers have attended the exposition and table form.

It was good to see the women turn out early election morning and go to the sum of the women turn out early election morning and go to the farm out early election morning and go to the sting, but," in a whisper. "I can fix you up with a little Old Crow." The Swede shook his head. "I no want to fly," he answered, "I yoost want to yump around a vhile."

After a most remarkable fall the bear, ill temper and uncoutiness; the built straightforwardness; the built straightforwardness; the built straightforwardness; the built straightforwardness; the folly increased prosperity for all those dependent upon agricultural communities for their existence. Some of the middle of the forenoon when the change was rapid and by noon there was quite the exposure the middle of the forenoon in the past and white?

Blue Moon

A Tale of the Flatwoods

Synopsis - Never having known Maish river. Pearlimiter the only name he has learns from her a part of the story of her sad life. He meets a young girl whom he mentally christens the Wilda Rose. She cludes him before he can make her acquaintence. A vacant cabin on the shore has attracted the attention of the alling woman, and they move into it. Their first meal is interrupted by the Man-functure Fancy-Vest. Pearlimiter strikes, him. Gunplay threatens. The mother dramatically drives the intruder; away. She says he is the "Other Man," whom she has not seen for 20 years. They find a red mask dropped by the Other Man. That night Pearlimiter finds the Blue Moon, a great freshwater pearl. His mother dies without revealing his farther wan. Dearlimiter had the Cher Man meet in the village. ing his mother's funeral expenses. He two weeks wasted

lem. Somehow, his bean plant that grew and grew and grew and his ladder that couldn't grow, bring home to us our own perplexing problems.

Like Jack's bean stalk, the costs of operating an efficient telephone system in Michigan have grown and grown and, too, just like Jack's ladder, the rates with which we must meet this growth have done little more than stand still.

Jack and your telephone company must have larger ladders.
