A Guarantee with every Sale we make---Complete Satisfaction or Your Money Back.

YOU WANT LOWER CLOTHING PRICES

We're Giving Them to You now in a Sale That lasts until Saturday Night, Nov. 20th

HE time has come when we are able to lower prices and we're jumping at the opportunity by giving you some of the greatest Clothing values of the season. It's our entire high grade stock that we're making the reduction on -nothing bought especially for a Sale.

THE mention of Hart Schaffner & Marx gives an indication of the kind of clothing we're selling-quality and style in every garment. We've knocked the margin of profit out of everything to meet this readjustment situation of the present in a quick and forceful manner.

— 15 to 33 per Cent.

BOYS' CLOTHES

15 to 33 per Cent.

15 to 33 per Cent.

Furnishing and accessories for men and boys are included in this sale. We have the biggest stock in the country and it's going at great reductions. We're giving here a few ex-· amples of our discounts.

SHIRTS

SHIRTS of madras and silk in the newest styles at a discount of 20 to 25 per Cent.

WORK CLOTHES

example we cite Sheep Lined Coats. They're discounted for this Sale 30 per Cent.

UNDERWEAR

less. Other Heavies, many in sizes up to 54, now liscounted from 20 to 40 per cent.

HATS AND CAPS

KNOX AND HAWES Hats, the finest made, in styles for men and young men. They're certainly bargains at a discount of 25 per cent.

HOSE

HOSE of silk and all wool will be in demand at these prices. We've got them in every kind and description. Discounted 33 per cent.

SWEATERS

SWEATERS in the finest assortment of weights; sizes and colorings that we've seen are marked for our Sale at a discount of 25 per cent.

Don't think that because an article is not given here that it's not on sale at an attractive price. Everything in Clothing for the men, boys and children is marked way down. And remember our guarantee is one of complete satisfaction, or your money back.

1-2 PRICE

What Happens in the Dark?

The farmer receives on an average only about onethird of what the consumer pays for meats, grains; fruits, wool, vegetables and cotton. Somewhere between producer and consumer an enormous toll is added to the cost of farm-grown necessities.

The city consumer, not seeing the profit-taking along the road to him, blames the farmer for high prices. The local farmer, not knowing just what does happen in the dark, is at the mercy of the system. To turn on the light is one purpose of

THE FARM-BUREAU MOVEMENT

Your local farm bureau is an important to join your local farm bureau, tant link in the great American Farm if you are not already a member, and Bureau Federation which is fighting to help fight your own battles. the farmer's market battles for him.

The Federation has no quarrel with honest middlemen or efficient merchants, but it does have with the gonging in betweens, speculators and gamblers.

To help fight your own battles.

Out of wide national experience THE COUNTRY GENTLEMAN advises this.

Its editors and contributors travel 300,000 miles a year to study your problems and to put its shoulder to

The Federation is demanding that the Government hasten to furnish official figures on the cost of producing farm crops so that the public may know and attention be focused on what happens in the dark.

Fordson

Fordson at Work." This book is given free. Call in and get one. If you cannot call, write and we will mail you one without charge. It is not what the Ford Motor Company says about the Fordson Tractor but what the army of users have to say. This book voices the hardest kind of practical experience. It shows in illustration the Fordson tractor at actual work along some ninety different lines of activity. It shows in these illustrations the wonderful versatility and utility of the Fordson Tractor. Shows it to be, beyond all question, the one bit of machinery that is a necessity, not only on the farm but along many lines of commercial business; especially does it show up the Fordson as a valuable servant on the farm. With it the farmer is relieved of the hard work; because he can take advantage of the weather in preparing his seed bed; he can de it at the right time; the same is true when it comes to harvesting. It solves to a great extent the problem of scarcity of labor.

With its wonderful, reliable power it brings to the farm home all the conveniences in the way of running water in the house, electric lights, operation of the washing machine, churning, separating the cream from the milk; it assumes and takes to itself drudgery of farm life both in the field and in the house and it is only a matter of a few years until it will be as universal in its service on the farm as is the farmer himself. It will become a part of farm life; a beneficial part; a profitable part. Get order in, for there's a rush coming.

We Thank Thee, Lord!

"For all thy ministries -For morning mist and gently falling dew; For summer rains, for winter ice and snow: For whispering wind and purifying storm, For the rest clouds that show the tender blue; For the forked flash and long, tumultuous roll-For mighty rains that wash the dim earth clean,

For the sweet promise of the seven-fold bow; For the soft sunshine and the still calm hight For dimpled laughter of soft summer seas; For latticed splenger of the sea-borne moon, For gleaming sands and granite-frontled cliffs; For flying spume and waves that whip the skies;

For rushing gale and for the great, glad calm; For Might so mighty and for Love so true, With equal mind,

We thank thee, Lord!"

humiliating effusion—as a political an-them. Doctor Bushnell thus refers to

Doctor Muhlenbury's production:

"The houn and air that were given

THE DAY OF THANKS

OADED with all the goods the living cost allows, the home boards of the day of thanks will give full winness to the fact that the passing years do not permit to grow faccid the long-established custom of the land. Thanksgiving Day leaves to the day when first observed upon the bleak costs where the Pligrim fathers closed their voyage adventurous. The turkey and the pumpkin pie, transfertes and accessories will all feature as in the days gone by. And amid the futures so redolent of cheer and peace and the severet concord of home, will seet to fathion forth the features dear of the ones who at that board in other years were grouped. Memory that never lays aside attachments of the past will givify the recollections of the ones whose passing meant contraction of the group, but cheer will be no less sincers because the pathon note is struck in token of mortality that time insures. From coast to coast, and the mountains of the nearby range, amid the Rockies lifting high their peaks, where placid lie the meadows by the brock, and in the trook. Southlands and the coast that borders the Pacific, will be found the units of the nation's strength and grace, the circles of the home with sweet content as savor for the simple heartfelt feats. In many places strange and mid the segmes of devolation and of volitude the day and disease will be given thought.

A-SAFE INVESTMENT

One That Combines a Definite Rate of Income With a Share in the Growth of the Business

Investigate the Wildman Rubber Co.

This Company Will Manufacture Automobile Tires and Tubes in Michigan, Where Most of the Motor Cars for the World Are Built

You will not always have this opportunity to se-eure original Preferred and Common Stock in a great tire manufacturing business. You will not always be able to buy first issue stock in an industry that has such promise of rapid growth and substantial profits.

You may not realize what it means to own stock in such a Michigan manufacturing business as The Wildman Rubber Company. Located as it is, in the center of the automobile industry, there is no limit to the market for this company's products. As a holder of Preferred Stock in the Wildman

Company you will be entitled to 7 per cent interest on your investment from the first net earnings of But this 7 per cent is not the limit of the earning possibilities of Preferred Stock, for it shares with the Common Stock in all earnings of the Company up to 10 per cent

up to 10 per cent.

These dividends on the Preferred Stock are cumulative. That means that the dividends are payable from the first day the stock is issued to you.

The Wildman Rubber Company's stock is sold in units of two shares of Preferred Stock with one share of Common Stock. This places you in a position to receive a definite income and also to share in the future growth of the Company and the increase in the rules of its properties. in the value of its properties.

The Common Stock is of course the stock that has the greatest possibilities for increased value, as it shares in all the profits of the Company after the dividends have been paid on the Preferred Stock.

The entire plan of financial organization of this Company has been declared by competent authorities to include every reasonable safeguard to the interests of stockkholders. It will justify your closest investigation and we will be glad to referyou to people whom you know, people who are now shareholders in The Wildman Rubber Company.

Work on the New Factory Will Start Soon

for the new factory ready for the first construction work, which is the building of the foundation for the building and the special concrete foundations for the heavy machinery.

You will soon see how this Company plans to make use of the exceptional facilities afforded by our location at Bay City,

Our 63-acre site is right on the Saginaw river.

Hydro-electric power will run our machinery. Coal
is obtainable from the Bay City mines. The Mich-

igan Central and Grand Trunk railroads run right through our property. We can ship in and out by rail or boat. Within a hundred miles the greatest automobile factories in the world require thousands of tires every day for new cars, to say nothing of the thousands of tires sold to metor car owners.

Wildman Rubber Comppany stock is a good stock to buy and lay away—just take the dividends regularly on the Preferred Stock and hold the Common Stock to profit by the growth of the Company.

Hundreds of Michigan investors are now stockholders in this someony. They bought stock because of their confidence in the nanagement of The Wildman Rubber Company, and because they know the profits that have been made by properly managed tire
