A-SAFE INVESTMENT

One That Combines a Definite Rate of Income With a Share in the Growth of the Business

Investigate the Wildman Rubber Co.

This Company Will Manufacture Automobile Tires and Tubes in Michigan, Where Most of the Motor Cars for the World Are Built

You will not always have this opportunity to se-eure original Preferred and Common Stock in a great tire manufacturing business. You will not always be able to buy first issue stock in an industry that has such promise of rapid growth and substantial profits.

You may not realize what it means to own stock in such a Michigan manufacturing business as The Wildman Rubber Company. Located as it is, in the center of the automobile industry, there is no limit to the market for this company's products. As a holder of Preferred Stock in the Wildman

Company you will be entitled to 7 per cent interest on your investment from the first net earnings of But this 7 per cent is not the limit of the earning possibilities of Preferred Stock, for it shares with the Common Stock in all earnings of the Company up to 10 per cent

up to 10 per cent.

These dividends on the Preferred Stock are cumulative. That means that the dividends are payable from the first day the stock is issued to you.

The Wildman Rubber Company's stock is sold in units of two shares of Preferred Stock with one share of Common Stock. This places you in a position to receive a definite income and also to share in the future growth of the Company and the increase in the rules of its properties. in the value of its properties.

The Common Stock is of course the stock that has the greatest possibilities for increased value, as it shares in all the profits of the Company after the dividends have been paid on the Preferred Stock.

The entire plan of financial organization of this Company has been declared by competent authorities to include every reasonable safeguard to the interests of stockkholders. It will justify your closest investigation and we will be glad to referyou to people whom you know, people who are now shareholders in The Wildman Rubber Company.

Work on the New Factory Will Start Soon

for the new factory ready for the first construction work, which is the building of the foundation for the building and the special concrete foundations for the heavy machinery.

You will soon see how this Company plans to make use of the exceptional facilities afforded by our location at Bay City,

Our 63-acre site is right on the Saginaw river.

Hydro-electric power will run our machinery. Coal
is obtainable from the Bay City mines. The Mich-

igan Central and Grand Trunk railroads run right through our property. We can ship in and out by rail or boat. Within a hundred miles the greatest automobile factories in the world require thousands of tires every day for new cars, to say nothing of the thousands of tires sold to metor car owners.

Wildman Rubber Comppany stock is a good stock to buy and lay away—just take the dividends regularly on the Preferred Stock and hold the Common Stock to profit by the growth of the Company.

Hundreds of Michigan investors are now stockholders in this someony. They bought stock because of their confidence in the nanagement of The Wildman Rubber Company, and because they know the profits that have been made by properly managed tire

Book Bldg., Detroit, Mich. Without obligating me, you may send me completenformation about your company.

You Can Still Get Initial Stock in This Company at Par

at Bay City Will Be the "Last Word" in Manufacturing Equipment and Methods for the **Economical Manufacture of Tires**

me you place yourself in position to receive dividends right from it

The Executives of this company are well known as successful men in the rubber and tire industry. Mr. W. W. Wildman, President of the company, was for years, president and manager of one of the markedly successful tire manufacturing companies in Ohio. He has gathered about him an organization of expert tire men whose business records in Michigan have earned for them the confidence of all who know them.

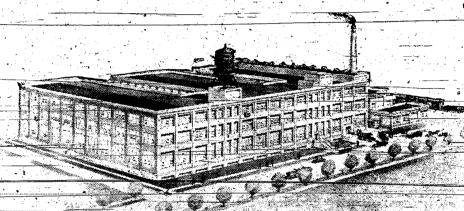

The Wildman Rubber Cò.

The Wildman Rubber Company Book Bldg., Detroit, Mich.

Construction Work is Started On the Great Tire Factory The Wildman Rubber Co.

started on October 12. We have sixty-three acres located on the Sagiraw River with the best facilities to be found anywhere in Michigan. Our first factory building on this site will be 386 feet by 178 feet and three stories high. Our new factory will be erected under the personal supervision of Mr. Barnard L. Green, president of the Osbern Engineering

onstruction work on our great new tire factory at Bay City was

The Wildman Rubber Company's Great Tire Factory

We are less than one hundred miles from the greatest automebile factories in the world. Tens of thousands of new tires are required by these factories every day. This means a market right at our door beside the great country-wide and world-wide market. In becoming a stockholder in The Wildman Rubber Company at this

time you receive your stock certificate. Dividends on Wildman Rubber Company Preferred Stock are cumulative. The rate is 7 per cent, but the Naturally the opportunity for the greatest increase in value lies in the Common Stock, as it shares in all increment of assets and earnings.

The authorized capital of this company is \$10,000,000. Preferred stock and 100,000 shares of Common stock (no par value). Preferred Stock has a par value of \$100 per share.

If you have looked into this company and its prospects for a great business, there is no doubt that you want to have an interest in it. The only question you can have in mind is how much of an interest are you in position to secure—how much stock you want to own.

The Successful Investor is the One Who Secures Initial Stock in a New Company and Benefits from its Growth Through Proper Management

Every safeguard is afforded to the investors in The Wildman Rubber Company. The more carefully you investigate into the personnel, finances, and what the company has already done toward the completion of its great plant, the more convinced you will be that The Wildman Rubber Company offers you one of the greatest opportunities that has ever come to Michael investors.

Find out what an investment of a reasonable amount will secure for you.

Machine work is always more precise than handwork. The special tools and machines in our garage are the same as those being used and recommended because of their precise and time-saving qualities, by the Ford Motor Company. Our modern and up-to-the-minute equipment makes it possible for us to do any work on your car, truck or Fordson tractor from a minor adjustment to a complete- overhaul. The promptness withwhich we do the work is a by-product of these speciallydesigned machines; and we charge only the reasonable Ford prices for your work.

It your Ford car isn't running at top-notch efficiency, oring it here to Ford headquarters—that's to us. One of our Ford mechanics will adjust or repair it for you with as little delay as possible. Keep your car in good condition. It is the most economical way

FRED WIDMAYER, Manchester

Somewhere in the dark between farmer and consumer somebody is adding a whacking big uncarned increase to food and clothing prices. Honest retailers and wholesalers are powerless to prevent it. But—if the searchlight could be turned on these little-understood, in-between transactions, factors like wasted labor, unequal distribution and reckless speculation would stand out in bold relief. To cure these evils, the light method is advocated by your
