## The Light Cure

You can catch more bugs in light than in darkness. Somewhere in the dark between farmer and consumer somebody is adding a whopping big unearned increase to food and clothing prices. Honest retailers and wholesalers are powerless to prevent it.

## COUNTY FARM BUREAU

By farm cost accounting, Farm Bureaus will ascertain actual production costs as a means of selling at prices fair to both producers and consumers. By knowledge of world markets, Farm Bureaus will avoid overproduction of one crop and underproduction of another, with resulting market glut and scarcity.

That Universal Ford After-Service. The most reliable after-service which is ever being furnished to the owners of Ford cars is the constant use and service of their cars.

Our skilled Ford mechanics know how to adjust or repair Ford products so that they will serve to the maximum of their efficiency. They understand the Ford mechanism thoroughly, and can make adjustments or replacements quicker than other repairmen who lack Ford training.

There is a standardized way for making every repair and adjustment on a Ford car. It is the quickest, surest way; and in all their work our mechanics follow the methods recommended by the Ford Service School at the Ford factory.

When you require service we are at your immediate command.
