This book is not what the Ford Motor Company has say about the Fordson Tractor, but what the tens of thousands of users have to say. Get the book! It is yours for the asking. Kep in mind the fact that behind ' every Fordson Tractor are all the resources of the great Ford Motor Company, likewise that reliable "Ford After-Service" which assures the kkeeping of the Tractor in working order every day in the yar. Rmember also that the Fordson Tractor, like the Ford car, is simplicity itself in design and contruction; easy to understand and easy o operate. Come n and let us tell you more about it. It is more important to the farmer today than anything else.

The Age of Machine Power on the farm is no longer a matter of speculation; it is here—an established fact. It is the latest advanced step civilization has taken. It comes to the farmer with the full promise to lift the great durden of drudgery and wearisome, wearing-out toil from the muscle of man and carrying them with much more profit by power of machinery, with the result that larger production, more comfort and greater wealth will come to the farm homes wherever the rordson is employed.

AD and solemn are the last hours of the dying year. Only a few months ago a New Year was given unto us fresh and pure from God's great storehouse of time. It has spent its life upon the earth, and its footprints will never be effaced. The departing year has brought to us God's numberless blessings: It has seen progress in many noble deeds done, and it has seen progress in many depart. The passing of snother year must emphasize to every thoughtful person the swift flight of time. Fooking backward over the past years of our time. It may be the institute of the sing of the dawn of time the happenings of New Year's day have been said to foretell the happenings of New Year's day have
