ABOUT FORD CARS-SOLID LOGIC.

w the beginning. That fact made it "The Uni versal Car." It has always lead in lowest firs

Runabout, Touring Car, Coupe, Sedan, Truck and Fordson Tractor we have them all and will make a Simplicity has ever marked the designing and build-

ing of Ford cars, trucks nd tractors. Henry Ford and his engineers have always striven for simplicity with strength. The success of the Model "T" Ford car and a great part of the Ford Motor Company's success has come from an early understanding and appreciation of that principle in motor car construction. The fewer the parts in a car, the fewer the parts to go wrong. When that simple truth is carried out in producing a car, as itis in the Ford cars, trucks and tractors, the result is bound to be a simplicity of design and building that means simplicity, durability and economy of operation.

This simplicity of construction proves itself in the ease with which Ford cars, trucks and tractors are driven.
Four million five hundred Ford cars in daily service proves every claim we make.

More than ever we are sure the Ford car is your necessity—let's have your order today.

# PRINCESS APRONS

75c and 98c

HESE cunning Aprons will delight you. Made of percale in colors, plaids, stripes and tiny figures in pink, blue, green, in fact in all colors; some piped with bands of the same color, others trimmed with rick-rack, these Aprons are dainty enough for any occasion and yet they cover your dress completely and are very practical, A large bib gives added protection and the spron-ties with long strings. For more practical work there are blue and white and brown and white checks. These aprons are decided bargsins. The \$1.0 values are selling for 75c and the \$1.50 values for 98c. You cant help but be delighted with them.

WILL TEST WATER-DIVINING new Jerusalems in America. 1 am of the opinion that you agree with me."

French Government to Try Plan in Ef The government of France has de

The government of France has decided to test the value of water-divinging in its African colonies, and an impressively expert committee comprising geologists and surveyors, as well as diviners, has been appointed to apply the magic root to the Sahara. Since Moses first struck water from the rock the question of divining has been a school Tuesday eventing at the high most one and the world is no less good attendages. in ancient days. The "dowser" had a great vogue in England in the seventeenth and eighteenth centuries, especially in Cornwall, where numerous learned works attest his prowess in finding metals under the earth. But even latterly "dowsing" for water has been attended with such success that selence has had to explain the drooping of the forked hazel twig in the "dowser" hands by such theories as Taylor Gage, with Mrs. Arthur Free.

"dowser's hands by such theories as that "certain people possess a supernormal perceptive faculty," and that the twisting of the branch indicated a "michtal disturbance in the dowser which is beyond the scope of conscious perception." We can well imagine that whether the twig or the man be the agent in the matter the French government will be well rewarded for their experiment in dowsing on a large scale if an axtra oesis or two be added to the Sahara. Falling that, the world will doubtless come yet to the more complete and imaginative plan, which is from time to time been moored of tipping the water of the Mediter.

I take the standard of the man he the agent in the matter the French government will be well rewarded for their large mount. The program committee for the next meeting was announced as Messrs. Gottlieb Jacob, F. H. Blosser and Philip Henzie.

Taylor Gage, with Mrs. Arthur Free man as accompanist, which also brought forth appliause for a second number.

The report of the secretary reasurer showed acquisition of several new members during the pest month. President Mrs. Whitlark announced a special child's welfare meeting in the near future and appointed Miss from times to the world will doubtless come yet to the more complete and imaginative plan, which

complete and imaginative plan, which this from time to time been moved of the plan to time been moved of the plan to time been moved of the plan to time been moved or the plan to the great desert by means of a canal.—Manchester Guardian.

Stacking Cereals

One year's harvest of our cereals would fill a canyon 100 feet wide, five miles long and two-thirds of a mile deep.

The Scientific American estimates that this harvest of a single season in the fill this harvest of a single season in the fill this harvest of a single season in the time to be the total publis of all ages whose recreation hourse are under supervision of a director, and argued that the many publis get that little out of recess or recreation hourse are under supervision of a director, and argued that times as high as the Woolworth building in New York: Or it would four the whole of Central park to a depth of 100 feet.

If this crop of cereals were to fall appon Manhatian Island like rain at the rate of a million bushels a day starting insured the year 1330.

### In a Gambler's Market

A clerk's error, adding three ciphers to a thousandbushel selling order, caused wheat to fall 814 points on the Chicago Board of Trade last October. It didn't change the world's wheat supply by a single grain or affect actual wheat needs by so much as a crust of bread, but every farmer whose wheat was marketed that day lost money as a result.

A short time before, the market was sent tumbling by a false casion announcing that France had a big harvest ci .....at.

When a clerical error or baseless rumor can rob the farmer of millions, some remedy MUST be found. A practical remedy is knowl- will find THE COUNTRY GEN-

believe that while we are right in the cold grip of winter, snowed under, crusted over with ice or shivering because of the chilly winds direct from the Arctic circle, that out there in Seattle, Washington, they are haifing the approach of spring because pussy, willows are sprouting. Toses are blooming and lawns are green. But such is the announce ment in the Seattle Times, sent us by Ed. Nisite. However the paper says that, it is not often they pussy willows are out on New Year's day.

Mr. and Mrs. George Heimerdinger and daughter of Clinton visited Mr. and Mrs. Charles Kalmbach, Sunday, mitted suicide Sunday, using a revolver. He was 72 years of age and was probably discouraged because he had suffered three strokes of parallers was probably discouraged because he had suffered three strokes of parallers was probably discouraged because he had suffered three strokes of parallers was probably discouraged because he had suffered three strokes of parallers was probably discouraged because he had been in pretty good health.
