The telephone company has adopted a new system of discharging operators without notice and we understand that the operators have also adopted a like system. It is a poor rule that will not work both ways.

Most of the country roads were well graveled late in the fall and during the wet weather the first of the month they were badly cut up by vehicles, and now that the ground is frozen hard the roads in many places are very rough.

It seems likely that work on the Lausing-Toledo road will be pushed along this season. But whether any work will be done in this section or not the lausand and left was closed. We learn that the new proprietor, a Detroit man decided to run the house himself; that he in the fall and during the wet weather the first of the office, and put a soft drink bar in its place. Other changes were contemplated, but it is alleged that J. Fred Schaible, who, has a morty cape on the proposed changes, so the party concluded not to come here, and the house is closed. Mr. Molette did a fine business while he was here, had his rooms full most of the \*Zoe Herman\*\* Robert Shafer

EDISON HAR SHALL

One of those tales which appeal to the quality in man and woman that finds stories of human contest with the wild forces of nature so enthralling. Possessing a high degree of literary merit it is being hailed as the modern classic of its type.

"The Voice of the Pack' is clean, fine, rave, bold, primitive; and has a wonderfully haunting quality in the repeated wolf-note." The New York Times says:

"The Voice of the Pack contains an intimate and detailed knowledge of the Oregon woods that make a the novel fascinating. The story in the main is a woodman idyl, rich in poetic fancy, and throbbing with a reverent love for a nature which is unspeakably wonderful both in its majesty and in its all-pervading hospitality."

The Chicago Daily News says: "Taken all around. The Voice of the Pack is the best of the stories about wild life that has come out in many, many moons."

Hitherto the farmer has woven the power of his own nuscles with those of the ox, the mule, and the horse, in. the development of agriculture. Practical machinery for farming has come to him slowly. Where the value of machinery in labor saving, in profit-making, in usefulness, in comforts, in luxuries, has in the past been largely confined to the towns and cities, it is now open to the farmer who is beyond all question the very bone and sinew of civilization. Civilization grows upon the land, therefore the land is Father and Mother and Sustainer to the human race, and those who till the soil, who plow, sow and reap, are surely the essentials in the human existence. Therefore Machine Power on the Farm is of the utmost importance and the Fordson Tractor comes to the farmer as the best, we believe, piece of machinery that has yet been devised for his use.

We want you to read the book "The Fordson at. Work." It is free for the asking. Call in and get one Drop us a card and we will mail you one without charge. This booklet is along the line of the usual Ford way ofgiving the testimony of users, those who have tried out and who know the real value of the Fordson Tractor. This book shows the Fordson at work in some ninety different lines of activity and to the farmer it presents the most valuable evidence of an all-around serviceable, economical, labor-saving, and money-saving machine that has ever been placed upon the market. We can only get so many each month, so leave your order now.

business men of the village and those who are willing and able to give more than passing attention to the work. We all know that serving the village in any capacity has heep a thankies job, but somebody has to do it and it should be done by men or women capable of obtaining the best results.

Rat Heroes.

We frequently hear people compain that there is nothing going on in small towns, and they have to go to the cities for entertainment. That certainly does not, apply to Marchester, for there is something doing here all the time. Every night there are from one to three functions, socials, lodges, and meetings of one kind or another.

From Parls comes the news that the sutherities are making war on rats. But the despinatory are making a mode the French a good turn, according to Colonel Repington's history of the war. He says: "On the parapets of the front trenches are what look like window flower baxes. They contain chemical materials for making a smoke socials, lodges, and meetings of one comes. All the rats in the trenches

One million, five hundred thousand farmers are united

This force that is created by 1,500—MAN began to support the movement, 000 determined farmers is making. Its aid has been continued because itself felt. It is speaking with too powerful a voice to be ignored, too well informed to be dismissed. Congress, capital, labor are having to listen to the farmer at last because the farmer has found a means of making himself heard. The Farm Bureau Federation has given him that means.

Fall in line! Join the Farm Bucket has enlisted under the Farm Bureau banner. Its objective is a secure and prosperous farming industry. Help it to guarantee that for you and the six million other farmers of this country.

MAN began to support the movement, the movement is aid has been continued because the editor believes in the soundness, the integrity and the wisdom of Farm Bureau policies and leadership. THE COUNTRY GENTLEMAN always is ready to support and encourage every move that is helpful to farming. That is the purpose of this big national weekly—to make farm life more livable and profitable. It does this through the medium of informative articles, inspiring editorials and practical suggestions.

You need THE COUNTRY GENTLEMAN in your business, in your home life. And it costs only \$1.00 a year—less than two cents for each of the fifty-two big issues. You can
