Last Saturday was a stormy day

### Michigan a Vast Swamp

The first surveyors who explored Michigan reported. that the interior was a swamp with only land here and there "fit for cultivation." Today Michigan is one of the wealthiest states in the Union.

When you survey the possibilities of a savings account you will find a field well fitted for cultivation--a producer of wealth.

### THE UNION SAVINGS BANK

"This Farm Bureau thing costs too much," said a Nebraska merchant to several farmers gathered in his store. "County dues are all right, but putting up for a lot of state and national officers is different. You don't know how they'll spend your money."

"Let's see, don't retail merchants have both state and national organizations?" asked one farmer. The merchant colored, but admitted they had. The

farmer asked if he belonged to any of them. "That's my business," sputtered the merchant.

"Yes, and I guess the Farm Bureau is my business." spoke up another farmer. "I hadn't joined it before, but I'm going to now. If a national organization is a good thing for merchants and bankers and manufacturers, -it's a good thing for farmers, too."

This story has its lessons to farmers of it and stay back of it. Take a tip everywhere. There are some 400 national business men's organizations, tional trade organizations—they are loyal. fective work for their membership. The farmer needs a national weekly, Every big business has had a natoo, just as much as the banker needs tional organization except farming. his financial journal. THE COUN-

Food speculators believe in organization for themselves, but not for the farmers. They hope you will quit the Rarm Bureau.

Our advice to you is to stick to the Fram Bureau Federation. It is proceeding steadily and surely. It already has accomplished some fine tion, inspiring editorials, wholesome results. It will accomplish many more if still more farmers get back issues.

ratic leader of the house, died Weda member of the house for 26 year and would have completed his ir sent term in two more days. If ast words were "The question is on he adoption of the conference report," showing that even in the shadow of death he was actively in

Time was some years ago, where utomobiling was new and when one tarted out with one- and two- lung chines that he was not quite sur when and how he was going to ge home. There was evident at that time a disposition on the part-every driver to halt when he foum another in trouble and inquire if he could help out in the difficulty. But times have changed; now the fellow who is on his way whizzes by an lets the other fellow attend to his troubles alone. If one is in trouble at night be has small chance of stopping someone as the hold-ups hav thrown fear into those on the roa until everyone trying to stop anothe is supposed to be after your pocket book or even the car. Many driver are now carrying guns and if the

are persuaded to stop at a signa their gun is carefully trained on th

Sacred Mohammedan Roc report on the Dome of the Rock and will be of great interest to be generally known that this place is the third in sanctity of all the sanctuaries of Islam, and indeed for a short period it actually formed the Kibla toward which all Moslems prostrated

Among the more important religious associations of this rock we may men tion it was here that David and Solomon were called to repentance, and on account of a vision David chose this site for his temple, From this same spot Mohammed ascended to the seventh heaven after his pight journey from Mecca, and lastly it is to be the scene of the Great Judgment. The historical associations are not less striking and such famous names as Omar Abdel-Malek, Saladin and Suleiman are all connected with the rock.

A naturally heated cave has been discovered at Horse Butte, near Bend apparently draws its warmth from a subterranean volcanic source. The discovery was made by C. A. Yarnell and H. D. Elde, local the top of the butte and Brst attrac ed attention when a wave of heat was felt issuing from the mouth. The cin der bottom and rock walls of the tun

nel are unbearably hot to the touch, the heat increasing as far back as could be explored. That the phenomenon is a recent manifestation was indicated by the smoldering of grass and twigs near the opening. To test the natural oven Mr. Yarnell cooked a light breakfast by tarroduring raw articles of food into the aperture and closing the orifice for a few

There is this about the Ford one-ton truck that keeps growing in popularity, namely, the good reports which owners of Ford trucks spread abroad among their friends

of the same truck follow, because "its works do follow it." here is a reason.". Yes, there are many reasons. The Ford one-ton truck was built to serve and satisfy. It carries all the Ford virtues: lightness in weight, simplicity in design, strength in construction, flexibility and durability—besides it has the lowest first cos

fact of its universal economy it is in a class by itself. We will be glad to take your order for one or more Ford trucks and will give you fairly prompt delivery. You will likewise have the assurance of that reliable and economical after-service which is such a valuable factor n the service of Ford cars. Price, truck chassis \$545.00
