Paint Creates Prosperity The "run-down" house (there is one near you) s fast going to ruin merely because the owner unwisely neglects to keep it protected with paint. It costs more not to paint than to paint. Paint saves the surface and protects the building from sun, rain, frost and varying weather conditions that bring destruction. Prosperity demands the protection of all ex-posed surface with good paint.

ACME QUALITY HOUSE PAINT gives lasting protection and beauty. It costs less because it takes less and lasts longer. Call at cur store and let us show you color samples and assist you in selecting the proper color combinations that will make your house appear to the best advantage. -

Aids Electrical Welder. Ordinarily an electric welder must remove his helmet that he may better see the finer details of his work. The main improvement which a new helm has over the old masks is the mounting of the window, so that the protective screen can be raised with the left h of the worker and he can obtain a be ter view of the work, yet the scree falls back into place when he is ready to go ahead with the welding. This creen or window is made of chemically prepared glass to protect the ey from ultra-violet rays

Better Than Alarm Clock. Instead of leaving word at a hote desk for an early morning call, ther is now a new call system which en ables guests to call themselves at an desired hour. A system of electri clocks is the newest hotel installation The guest simply sets an indicator a night, somewhat similar to an alar the desired time. The clocks have 1 minous dials and hands so that t time can be read in the dark.
