SCHOOL DISTRICT'S ANNUAL MEETING

Old Officers Re-elected—Meeting Was Harmonious—Nothing of Vital Importance.

The annual meeting of school district No. 2, Manchester, was held at the high school building Monday with only a fair attendance, there being fewer ladies present than last year.

Meeting was called to order by President Hoffer and following reading minutes of last meeting, Secretary Leeson read his report, as follows:

First, I wish to announce that we were present.

TOURISTS HOME FROM LONG TRIP

Drive Auto Over Both Peninsulas of State and Through Wilds of Dominion of Canada.

Mr. and Mrs. A. J. Waters returned Monday evening from a 1500-mile auto trip. They first drove to Frankfort where they took the car ferry for Manitowish.

They then drove to Escanaba where they visited Herbert Rusk and wife, then drove to Sault Ste. Marie and crossed there into Canada, drove east and south around Georgian bay to Toronto, thence to Windsor, Detroit and back to home, sweet home.

They passed through a lot of yet very new country with heavy forests and rough roads, 40 miles from nowhere.

No communication with the civilized world and only an occasional post office and tavern. But after getting onto good roads where their Buick could make some speed their troubles began, with blowouts, stripped gears, etc. It is surely a trip to take once.

While everybody knows that alcohol can be cheaply produced on every farm and is produced in many homes throughout the land, there appears to be no way by which the stuff can be used to provide power for automobiles or farm machinery.

Years ago we heard that an effort was being made by chemists and engineers to perfect an engine to be operated by alcohol instead of gasoline, but those efforts apparently have come to naught.

It is claimed that the supply of gasoline will be exhausted before many years; others claim that though the price has lately been reduced, it will before long be raised again, because of the apparent lack of production.

Who will be the first to discover something to take its place.

The experts at the agricultural college warn fruit growers that grape black rot is all set to infect the Michigan crop this year, and they think many face heavy losses if rainy weather occurs in the latter part of this month.

Many of the automobile accidents are caused by drivers who are under the influence of alcohol.

WELL-KNOWN CITIZEN DEAD

Elmer Troz of Sharon claims that his neighbor, Charles Walker, threatened him with a gun, and he had him arrested. The hearing will take place before Justice Hoffer, at Manchester, on the 25th.

Frank Lowery and family spent Saturday night and Sunday with the Blosser and Vele families at San Bernardino cottage, Wampler lake, enjoying a potluck dinner, etc., in honor of Mr. Lowery's birthday. All enjoyed the occasion, which also gave the children an opportunity for boating and bathing.

Mr. and Mrs. Ed. Logan have moved to their new residence on their farm south of town, after a brief sojourn in the village. Unlike some of the farmers who move into town, Mr. Logan built a very attractive and up-to-date home here, which is a great improvement to that part of the village, and before returning to the farm he provided himself and wife with a cozy, modern home there.

Wm. Sibat's auto is sporting new hood, fender, lamps, radiator, etc., as the result of giving John Bertke's horse a ride one night two weeks ago. Will was driving home from a fishing trip over in Freedom and when returning the young horse, which was evidently feeding along the roadside, jumped onto the car before Will saw him.

The first Will knew the beast lay across the hood kicking vigorously at fenders and lamps. Luckily his feet were toward the front of the car, else the occupants might have suffered. The car was stopped at once and the horse scrambled off and ran down the road, seemingly none the worse for his experience.

When one scatters a feeding of corn to a chicken would it be reasonable to expect that chicken to get fat and grow because of that one feeding? Yet many, so-called, business men expect fat returns from one advertisement. Is that reasonable?

Mrs. Carrie Burtless and daughter, Miss Hazel, who returned last Friday night on an auto trip and visit with relatives at Milwaukee, say that they enjoyed themselves though the weather was extremely hot.

In honor of their sisters Mary and Fanny of Red Lodge, Mont., to which a number of friends were invited, and all seemed to enjoy again meeting old school girl friends, as well as partaking of refreshments.

Mrs. Blanch Stark-Hall of Dayton, Ohio, has gone to Malta, Montana, to visit her sister, Mrs. McDowell, and husband and they expect to make an auto trip to Yellowstone Park.

Frank A. Lehr, one of Adrian's oldest business men, died Tuesday morning, aged 58 years. He was a brother of our townsman, W. H. Lehr.

L. Whitney Watkins and two other members of the state board of agriculture have been selected to choose a successor to Frank S. Kettle, president of the agricultural college.

Two serious auto accidents on the Jackson Pike have been reported this week. One near the HAZEL farm in Norvell and another between Napoleon and Jackson.

The capacity of a street car is the limit to which it can be crowded. In Jackson it has been shown that increase in fare did not increase the revenue and when a low fare was charged patronage did not increase.

Following the annual reports of the two retiring directors, Dr. Kapp and Dr. Sator were elected to succeed them. The speaker and speaker of the vacant lot west of the grounds was discussed with the result that the ground gave status and approval would receive attention. It was also proposed that a sidewalk be built along the east side of the grounds for convenience in parking cars, thus avoiding destruction of the grounds. Assurance was given that the matter would be taken up by the board.

Fordson

170,000 Now in Use

Built with over strength in every part built to withstand the constant strain of heavy duty; tested out under every condition of farm and field work, and put to actual test by 170,000 owners during the past three years—the Fordson Tractor has lived up to every claim made for it.

No matter what the farm task—whether plowing, disking, harrowing, threshing, baling, hay, grinding feed, pumping water, sawing wood, pulling stumps, filling silos, or any of the many other jobs around the farm, the Fordson will not only do it, but do it better, faster and at less expense.

There are so many different time and money saving ways in which the Fordson can be used that you owe it to yourself to get the facts. Come in and see the Fordson, or write or phone for the information.

CREAM PRODUCERS

Do a few cents difference in price paid you for a pound of butter-fat make any difference? Are you satisfied that a few cents be deducted from the actual market value of every pound of butter-fat you sell, to pay the expense of operating some needless cream station? Are not those few cents just as good to you as they are to some middleman?

Did you ever stop to estimate the number of dollars you foolishly give to middlemen in the course of a year for doing something which you can do as easily yourself? If you had these dollars in a lump sum at the end of the year, do you realize what you might do with them? Think it over. And while you are thinking, send a can of cream to us. We pay all transportation charges, mail check and return empty can same day cream is received.
