

The auto headlight law passed by the last legislature, required all cars to be equipped with lights that would throw rays not more than 42 inches from the ground at a distance of 75 feet ahead of the car and that would throw light at least seven feet to the side of the road. This law was repealed at the special session Tuesday.

BUSINESS MAN TAKES BRIDE

Ceremony Follows Greek Custom—Second Marriage Among Greek Residents This Year.

Amid a large circle of their countrymen and friends, Harry A. Johnson and Miss Penelope Perros of Saline were united in marriage at Arbeiter-hall last Thursday afternoon by services in conformity to the orthodox Greek church, Fr. Ptredeas of Detroit officiating. Elaborate preparations had been made for the event and many invitations were issued to out-of-town friends and relatives, as well as many of Harry's local friends, and the spacious hall was necessary for the accommodation of the gathering. The elaborate and impressive Greek service, though not understood by local people, was none the less interesting, and the dancing and banquet which followed was entered into with a zest that showed the enjoyment of all. Mr. Johnson is well known as proprietor of the City restaurant, which he opened about two years ago and which he has made the best of its kind in town

DASTARDLY CRIME SOUTH OF SALINE

Farmer and Hired Man Shot in Cold Blood—Thought to Be Work of Robbers.

George Burg, a wealthy farmer who lived south of Saline, and his hired man, Henry Folmer, were shot and killed while shearing sheep in the barn, just before noon last Friday—supposedly by hold-up men. Mr. Burg's sister, who was at the house, rang the farm bell to call Burg and Folmer to dinner and as they did not respond she went to the barn and found both dead. She says that five or six men came to the place about 10:30 in an auto and asked for a pail to get water for the well near the barn. About three-quarters of an hour later the man returned explaining that they had left a robe at the barn, and proceeded in that direction. She thought nothing of the incident until her brother failed to come to dinner. It appears that in a property settlement recently Burg received \$7,000 and the men may have come to rob him, when he and the hired man put up such a scamp that they shot them, then became frightened. Both men were shot in the back of the head. Sheriff Pack and deputies were notified and combed the highways for a clue. Tony Spano, Salvatore Mocerri, Patsy Mercuri, Peter and Joseph Orlando and Tony Flaga of Detroit were arrested. Empty cartridge shells were found in the automobile the men were driving. When taken before Miss Burg, she failed to identify any of them as the man she saw before the shooting. The affair has caused much excitement, as Burg and Folmer were well known.

WIND WRECKS BARN IN BRIDGEWATER

Severity of Storm Surprised Even Victims—Rebuilding Will Begin at Once.

The heavy rain storm which passed through this section last Thursday afternoon, while not being particularly destructive in or near the village, blew down trees eastward from the Watkins farms and in Bridgewater developed into a tornado which leveled trees in the orchard opposite Wm. Gadd's house and tore down large barns belonging to Geo. Girbach and Henry L. Palmer. In the former barn the horses and cattle were extricated from the ruins, one cow being killed. Mr. Palmer's fine barn was a wreck but there was no loss of animals. The severe wind storm seemed not

All In a Day's Work

His gun held ready, his eyes glancing about eagerly, a man as hunter's garb moved silently through a North Michigan swamp. Suddenly the beat of flapping wings sounded. Quickly raising gun to shoulder, he fired. "A miss!" he growled disappointedly as the duck rose high into the air and disappeared from view. But—had the duck hunter missed?

Called from his bed that night (it was raining) one of the repair men went out to investigate the trouble. Following the toll lead, he drove more than a score of miles in the darkness and rain and tramped additional miles through a swamp. Using a flashlight, he finally found the source of the trouble—an insulator that had been shot off.

Interruptions in telephone service, we repeat, may be due to a thousand and one causes. The foregoing is a statement of an actual incident. A thousand similar stories could be written. The point is just this: Through all such difficulties, night and day, regardless of weather conditions, the people of the Telephone Company are doing their duty to the public by being constantly on the job to keep service up to its high standard.

In a telephone booth in a hotel 30 miles distant that same evening, a brisk, alert-looking business man put in a call for Detroit. Ordinarily, ten minutes would suffice for the connection. The business man waited. Finally, with the explanation that the delay was due to poor transmission, the operator announced that Detroit was on the line. The operator then immediately notified the Repair Department of line trouble.

FORD PLANT BUILDS 108,962 CARS IN JUNE Demand Exceeds Output As Ford Breaks All Previous Records

During the month of June, the Ford Motor Company, through its Detroit factories and 22 Assembly Plants throughout the country, reached the production of 108,962 Ford cars and trucks, setting up a new high record for one month.

Production of Ford cars and trucks has been steadily increasing since early spring, and shows substantial gains over the same period last year.

One reason cited by Ford officials for the unprecedented increase in Ford cars is the present tendency toward economy. Many of those who have added to the long list of buyers might have afforded larger and more costly cars than the Ford, but it is the fact that prospective motor car buyers are investigating all of the costs incident to motoring much more carefully than at any period during the past five years.

The estimated output of the Ford factories for July calls for 109,000 cars and trucks, or a production of 4,600 a day for 25 days. Since the assembling of cars is being handled during an eight-hour work day only, the hourly output will be 545 cars. In other words, one Ford car or truck leaves the assembly line every 6 1/2 seconds.

The Bros. of Manchester have finished stocking the cottage of Seth Hoagland and Charles Burke, and they look for...

R. Elmer Clark of Detroit visited the Bloomer and Niele families and his two daughters Vera and Adaline, at San Bernard cottage from Saturday until Tuesday.

Mr. and Mrs. Carl Lebr, who are occupying a cottage at Stony Lake, find it most quiet and have frequent visitors here, where they meet many friends.

Wampler was never noted for the number of launches owned here, but outboard-motors have become very popular of late and their "put-put" has been heard most of an hour.

Cottage owners near Willow Grove are being visited by a party of four, who are here for a few days. They are from the city and are being well cared for.

We're wondering when the new road to the westward will be started. Everyone who drives that way is anxiously looking for it as a deplorable condition. It should be started this summer, so that it would be reasonably possible, even if a new road is to be built.

The Niele and Schmidt families had a reunion at the Bernard cottage on Sunday. It was a jolly party, over 60 members coming from various points in the vicinity. The picnic was a success and was very enjoyable.

The ladies aid society gave an ice cream social at the town hall Saturday evening, for which Mr. and Mrs. Leo Palmer and sons furnished music which was greatly enjoyed.

IRON CREEK.
Mrs. Annie B. Smith of Jackson visited relatives here over Sunday.

Miss Eleanor Kirk of Jackson came last week to spend a few days at the home of her parents.

Miss Lenora Perkins and friend of Jackson were guests at the home of Mr. and Mrs. Byron Tompkins over Sunday.

New Prices on Titan and International Tractors

Now Lowest Ever Quoted

EFFECTIVE immediately, we make another big reduction in the prices of Titan and International tractors. These reductions wipe out all former advances and place **Titan and International tractors at the lowest prices at which they have ever been sold.**

International 8-16	Titan 10-20
\$900	\$900

This price is about one-fourth less than the price at which the 8-16 sold prior to March of this year. The new figure is the lowest at which it was ever sold. The new price includes all the necessary equipment—plow, fenders, governor, belt pulley—features which must be paid for extra on some tractors.

This is the lowest price ever quoted on the Titan, considering the equipment now included (formerly sold extra). Up to March of this year the price was \$1,200—today it is \$900. At this figure the Titan 3-plow tractor is the best value in the farm power field.

The International 15-30 has been reduced to \$1,750—lower than it has ever been before. The man who needs a 4-plow tractor cannot find a better investment than the 15-30 at this price. (All prices f. o. b. Chicago.)

Considering quality, power, equipment, and the service which follows every machine, **Titan and International tractors at these new low prices are unquestionably the best buy in the tractor market.**

As these prices have been made regardless of manufacturing costs, we do not guarantee to maintain them.

These prices certainly justify the immediate purchase of a tractor. Put it at the horse-killing work of hot weather plowing, and your fall and winter belt work.

See our tractor dealer for full information on deliveries and terms.

CRY FOR BREAD

Pathetic Appeal That Has Rang Through All Ages.

Seemingly No Portion of the World's Harvest Has Got to Some Time Recorded Famine.

"Give us bread—give us bread," is the appeal heard from many lands. The cry of hunger is a world-old story, declares a communication to the National Geographic Society by the International Committee of the Red Cross, which has been circulating in the East and transporting it to the capital, all of which was done with great dispatch.

"From the time of Augustine, throughout the days of the empire, Rome seldom suffered from famine, a striking contrast to the frequency of this affliction in the days of the infant republic, but there is evidence to prove that it was checked in the time of Tiberius (or Trajan), which held sway over Egypt nearly two thousand years before the time of Abraham.

"A period greater than that which stretches between the Crucifixion and the present day elapsed after the famine of Tiberius' reign, before Joseph arrived to hold sway over this same land of Egypt. As the chief administrator for one of the Egyptian Pharaohs, he prepared for seven long years to provide for the famine which was to come.

"While backward seasons were contributing factors, the responsibility for the two great famines of Henry III's reign is to be laid at the door of the government itself. In the first of these (1233) 20,000 persons are said to have died in London alone. The suffering in 1247-1250 was even worse.

"Treat has been a land of many woes, and not the least of these have been the famines which from time to time have taken such heavy toll of the island's manhood. As early as 963-964 an intolerable famine visited the country, and persons are said to have sold their children in order to get money with which to buy food; on several occasions, however, cannibalism has been driven to 'cannibalism'.

Prince Albert is a revelation in a makin's cigarette. My, but how that delightful flavor makes a dent! And, how it does answer that harking! Prince Albert rolls easy and stays put because it is crimped out. And, say—oh, go on and get the papers or a pipe! Do it right now!

CHARLES ZUEBLIN TO LECTURE HERE

Will Deliver One of the Great Addresses Which Have Made Him a Nationality Known.

"Wiser Than Solomon" will be the lecture subject of Charles Zueblin, eminent publicist, at the coming Regatta-Chautauque at the evening of August 1st.

Mr. Zueblin is a practical idealist, presenting a clear, straight-forward, unadorned message, tempered with keen humor and a most human philosophy. He is a scholar of the finest type.

Miss Edith Kapp, teacher in an east side Detroit school, agreed to teach during the summer vacation, but she was unable to do so because of the sudden death of her mother. Her father, who was a well-known physician, died on the 10th of July. She is now in the hospital, and is expected to be discharged in a few days.

Miss Winnifred White left Tuesday for Parma where she will join Mr. and Mrs. Warren Rogers and a party of friends on an auto trip through northern Michigan. They plan to be gone about two weeks.

Mr. Leslie and wife, tenant of San High's farm in Mason, drove up here Saturday afternoon and reported to him that the window that wrecked the Palmer and Carbach barn in Bridge-water, wrecked his also.

R. H. Matteson and sister Josephine of Richmond, Ohio, visited at Ben Matteson's from Thursday until Sunday. On Friday Mrs. Matteson accompanied them and all drove to Milan for a visit with Mrs. Harold Dillop.

CHARLES ZUEBLIN.

Type an earnest student of great problems who has kept in the mid-current of life and has never allowed himself to be isolated from his fellows and their problems.

Mr. Zueblin's philosophy of life is unerringly democratic. He believes absolutely in the masses of the people, unorganized and inarticulate, but potentially mighty. He is never negative or destructive, always positive, constructive, creative.

Mr. Zueblin speaks with electric energy, with rapid precision and with a potent power that is refreshing to all who hear.
