

ACTION

In this practical world of ours, it is the thing done that counts, and not what is said about it. Action, far more than words, makes an impression.

It is natural, knowing the value of our service, that we should talk about it and bring out the many ways we can be of assistance.

But we never forget that our record depends not upon our words but upon our daily and hourly activities in behalf of our patrons.

All our facilities are at YOUR disposal.

THURSDAY, AUGUST 4, 1921.

There will be an auto tourist and community assembly at Fruit Ridge, on auto trip and visit with friends in the morning, starting at 7:30 a. m. and ending at 1:30 p. m. Dr. F. A. Perry will preach on "God as Reflected in Nature." Other preachers will talk and there will be music and community singing. Monday morning a farm forestry program will be opened, in which many prominent men and women will take part. A basket picnic will take place at noon and at 2:30 p. m. Dr. C. C. Cook, master of the State Grange, will preside, and Dr. J. J. Lowell, master of the National Grange, and other prominent men will speak.

In all the hold-ups and robberies reported it is seldom mentioned that anyone has been enough to thwart the designs of the bandits. We read the account of the attempt of the notorious "Tommy" O'Connor of Chicago to "hold up" a passenger train at the skirts of St. Paul last week Monday night, when A. B. Legg a negro Pullman porter, although unarmed, knocked a gun from O'Connor's hand and kicked him from the train. Other railway employees then seized the man and turned him over to the officers.

Mention in the Enterprise a few weeks ago that the place where Gen. Frank B. Rowley, noted Indian fighter, was born, near the center of Manchester, had been discovered. The neighborhood was visited by the general, and that he said he would like to see something placed there to designate the spot, and he would be willing to contribute \$1000. This has attracted the attention of some of our subscribers, readers, and general readers, who may influence him to bear whereby the worthy scheme may be accomplished. It is not every day that a man of such distinction and birthplace of so distinguished a man.

There were whole armies of dogs in this neighborhood, which they howl and bark all night, so that we can't sleep, an irate citizen of Detroit wrote to the collector of internal revenue. "I am notifying you because the most of them have paid no tax. You are good enough at skinning a dog, being sure that you can take the hide off a dog." Collector Grogan sorrowfully admitted his inability to do so and turned the complaint over to the police department, the dog tax being outside his jurisdiction.

Extravagance, reckless extravagance in Washington and in every capital city in the land, is bringing upon the people a prodigious increase in taxes. The late tax commission, knowing what demands the legislature has upon the people, has recommended appropriations, has recommended an increase of 50 per cent in state property taxes and has recommended that the bills will have to be paid. "Those who do not mind the death of their country matter blame the commission instead of the men they send to the legislature."

Enrico Caruso world-famous tenor, died at Naples, Italy, Tuesday. The last word received by the press was that Caruso was improving and the announcement of his death a shock to the people. He was ill when he sailed from New York last May.

Large quantities of farm products, eggs, honey, etc., shipped by rail and express are wanted because of improper packing, and claims paid by the shipping companies have been enormous. Shippers are now cautioned against using second-hand fillers. We have seen packages sent even by parcel post that it is doubtful if they got through without breakage.

Some tourists think the scenery at "Falls" bridge in the State. The bridge is a long, low, hill with its graceful curves and the winding river at the bottom adding to the attractions of the spot. This is a landmark known to the old-timers as "the great bend of the Raisin," and farms in that section were among the first located before Michigan became a state.
