Is Making Auto Tour Into the New England Section.

igan Rosen rye is being shipped to Denmark, Germany, and other counries which originally bought this The following story of the trip type of rye from the Riga district of Russia being taken by Editor Blosser of the According to Prof. Cox of the M. Enterprise, in company with Mr. and A. C. farm crops department, there will apparently be a strong demand for American export rye for some Mrs. B. F. Burtless of Lansing, it is hoped will be interesting to our read-It is not likely that Russia can make a quirk recovery agriculturally and Michigan farmers can feel fairly certain that the price to autoist-readers contemplating a tour into the country gone over. has written his family as follows: After landing from the boat at Buffalo, without waste of time we left for Lockport, where we drove about the city quite a hit as I was able to show Fred and Margaret points of interest kept in mind since my residence here when a young man. We took dinner here, then drove to Rochester, touching canal-ports occasionally, but never a barge nor canal boat did we see on the famous Erie. There are worlds of famous Erie, There are worlds of apples, peaches, pears, quinces and grapes in the well-tended orchards along the drive we have taken and farmers are shipping, and there are w days ago without saying much cout his destination nor the period barrels in the orchards in which to barrels in the orchards in which to pack more. There are acres and acres of tomatoes and beans how being farvested. Peaches sell along the road for \$2.75 to \$3.00 a bushel big luscious ones. The roads the road for \$2.75 to \$3.00 a busnel

—big luscious ones. The roads
throughout are concrete, crushed
stone with gravel dressing, brick, and
gravel zarvia. We made no detours, united in marriage to Miss Alma, Moser of that city. Miss Moser is a charming young lady who has teen teacher in the gublic schools of the gravel karvia. We m and drove 170 miles. teacher in the nublic schools of the Ohio city for a few years. Roy needs no introduction. He was born and reared here and is one of the boys who still thinks the old town is a pretty fine place. As a member of the firm of Blythe Bros, he has been instrumental in building a successful garage business. His many friends will welcome the coming of his bride into village circles. Mr. and Mrs. Blythe are expected home

At Rochester we stopped to see the city and a few friends, then drove on to Oswego. The country is very much like at home, though it is, of course, much older. Some course, much older. Some of the hills resemble the Irish hills in Cambridge. There is scarcely a road that has been what we term "graded." There very few cuts and I can't recall any fill of consequence. They don't mind hills here, but go straight up them or curve around, need ding to the triginal survey of acciding to the riginal survey of 100 years ago. It suggests that we are wasting heaps of money in use-

EAST AND WEST DO NOT UNITE.

Orientals and Occidentals never should attempt to mix in matters of education, impration should be restricted both ways, and intermarriage never should be considered, in the opinion of Prof. Yoshi S. Kuno, head of the oriental languages department of the university of Cathernia at Berkeley.

A Japanese himself, Professor Kuno presents the problem of the relations of the Asiatics with Americans from an angle of vision, very new to men of his race. The following statement was given by the professor to a represental statement was given by the professor to a represental statement was given by the professor to a represental statement was given by the professor to a represental statement was given by the professor to a represental statement was given by the professor to a represental statement was given by the professor to a represental statement was given by the professor to a represental statement was given by the professor to a represental statement was given by the professor to a represental statement was given by the professor to a representation of the relations of the Asiatics with Americans from an angle of vision, very new to men of his statement was given by the professor to a representation of the relations of the statement was given by the professor to a representation of the relations of the relations of the statement was given by the professor to a representation of the relations of the relations of the statement was given by the professor to a representation of the relations of the relation

which he kindly loaned, and it has given by the professor to a representative of The Christian Science Monitor:

The East and the West should be kept forever separate and distinct, and the Pacific ocean should be a boundry between them. Permanent immigration from either side should be most strongly the content of the summer than the summer than the sum of the summer than the sum of the sum of

after a drive of 179 miles. We found the farmers' principal occupation is dairying, though they attempt to do general farming. Corn is the principal crop raised and much of it is still standing, as green as in July. Many farmers are building silos, and some are filling them. There are

ANNOUNCEMENT

September 2nd, 1921

Mr. Edsel B. Ford, President, of the Ford Motor Company, makes the

"We are making another reduction in the prices of Ford cars and the Ford truck, effective today. The new prices average \$70.00 under former prices, and are the lowest at which Ford cars and trucks have ever been sold. List prices, F. O. B. Detroit are now as follows:

\$295 \$345 **\$** 50 RUNABOUT -325 370 TOURING CAL 495 TRUCK 695 **660** 760 This is the third price cut during the past twelve months. On Sep-

tember 22, 1920, the price of the Ford touring car was reduced from \$575 to \$440; June 7th to \$415, and now to \$335making total reductions in this type of \$220, or 38 per cent. The same proportionate reductions have been made in all other types. One year ago the price of the Ford sedan was \$975; today it lists at \$660 with the same equipment. "We are taking advantage of every known economy in the manufacture

of our products in order that we may give them to the public at the lowest possible price, and by doing that, we feel that we are doing the one big thing that will help this country into more presperous times. People are interested in prices, and are buying when prices are right. "The production of Ford cars and trucks for August again broke all previous high records with the total reaching 117,696. This is the fourth

onsecutive month in which our output has gone over the hundred thousand mark, the total for the four months being 463,074 which has gone a long way in making possible the present reductions. June this year, with an output of 117,247 was the previous record month.

"One noteworthy feature of our sales is the increased demand for Ford trucks and cars for salesmen. This class of commercial business has been gradually increasing the past sixty days and we interpret it as a very good sign of improvement in general business.

"No reduction has been made in the price of the Fordson tractor, and

Go over these new prices! See how little it costs to become the owner of a Ford car or a Ford truck. Can you really afford to do without one

thought would rest the nerves and enliven the spirits of the employees were tried nightly with gratifying results. He was careful to explai that no rigaz" was played miftll the fag end of the night, as he "did not want the men juggling and tossing about letters and parcels."

The two young men, shown in the photograph, in experimenting, found that it was not necessary to have antennae high up in the air, but found that the wires stretched around the top of the car were successful. Four parallel copper wires run grounded the set to the auto's engine as is done in air planes. In their experiments they were constantly in touch with their home provided they were in the five-mile limit.

aging the highways. porcelain with gasoline or hard grease

Some More Truths.

WOULD you use a steam shovel to move a pebble? Certainly not. Implements are built according to the work they have to do.

Would you use a grown-up's remedy for your baby's ills? Certainly not Remedies are prepared according to the work THEY have to do.

All this is preliminary to reminding you that Fletcher's Castoria was sought out, found and is prepared solely as a remedy for Infants and Children. And let this be a warning against Substitutes, Counterfeits and the Just-as-good stuff that may be all right for you in all your strength, but dangerous for the little babe.

All the mother-love that lies within your heart cries out to you: Be true to Baby. And being true to Baby you will keep in the house remedies specially prepared for babies as you would a baby's food, hairbrush, toothbrush or sponge.

Fletcher's Castoria is perfectly safe to use. It is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. Children cry for Fletcher's Castoria, and mothers recommend it because they have found it a comfort to children and a mother's friend.

If you love your baby, you know how sweet it is to be able to help baby when trouble comes. You cannot always call upon a doctor. But doctors have nothing but good to say of Fletcher's Castoria, beause they know that it can only do good — that it can't do any harm and they wouldn't want you to use for baby a remedy that you would use for yourself.

GENUINE CASTORIA ALWAYS

Perfectly Safe.

As to Luck.

Albert's delightful flavor, there's its freedom from bite and parch which is cut out by our exclusive patented process! Certainly - you smoke P. A. from sun up till you slip between the sheets without a comeback. Prince Albert is the tobac-

And, besides Prince

co that revolutionized pipe smoking. If you never could smoke a pipe — forget it! You can—AND YOU WILL -if you use Prince Albert for packing! It's a smoke revelation in a jimmy pipe or a cigarette!
