Mendelssohn Needs No Other Memorial Than He Left in His Wonder-

Possibly the most famous march ever written is the wedding march from the "Midsummer Night's Dream" by Felix Wednesday and Thursday attending Mendelssohn. Like the overture to his famous work it is a splendid example of Mendelssohn's astonishing musical fertility. The overture is now one hundred years old and is one of the greatest examples of precocity in any art. Although written by a youth of eighteen, it is one of the great classics of the tone art. The march was not written until later, but its glorious eighteen, it is one of the great classics of the tone art. The march was not written until later, but its giorious, burst of exuberant harmony would make it an all-fascinating musical number even though it were not asso-clated with the joyous occasion of mar-Frank Smith and other relatives.

Farmers are hurrying to get their corn ground plowed. Those who know something about farm matters say that great pains were taken in preparing land for oats and that it is likely to result in larger crop. It has been said that farmers are really doing better work than they did a few years ago. We notice that a care be taken in addressing mail, all good many have also been trimming their fruit trees and grape vines.

There was some fear that there would be a frost Saturday night and that fruit might be injured thereby, but the weather fortunately grew warmer and we escaped by a slight margin. Trees are blossoming very full this spring. The cherry trees are eretainly a picture. There are also many peach trees in blossom and we hope for cherry pies and peach shortcakes. Apples, it is said, will be a short crop in some sections, but observers around here say our tetter and speeds up the dispert of mail matter.

Enquiry has been made as to the probability of having the streets office this spring. We suggest that some merchant circulate a paper among the merchants and find out how many will be willing to pay part of the expense, then if a sufficient number favor it, let a committee go before the Council and ask that they pay the bafance of the cost and lay the oil. To have at least Exchange Place oiled would be of great advantage to the yillage. Why Castoria?

YEARS ago Castor Oil, Paregoric, Drops and Soothing Syrups were the remedies in common use for Infants and Children; Castor Oil so nauseating as to be almost impossible and the others all containing Opium in one form or another, but so disguised as to make them pleasant to the taste, yet really to stupify the child and give the appearance of relief from pain.

It required years of research to find a purely vegetable combination that would take the place of these disagreeable, unpleasant and vicious remedies that from habit had become almost universal. This was the inception of, and the reason for, the introduction of Fletcher's Castoria, and for over 30 years it has proven its worth, received the praise of Physicians everywhere and become a household word among mothers.

Fordson TRACTOR

One man with a FORDSON TRACTOR can do more expense than two men can do with horses. This means that you with a FORDSON TRACTOR can actually work and less expense. And this means that your profits will be greater with fewer hours of work.

Besides the FORDSON will take the property power job on the farm. It is light, stert, flexible in control and operation, yet it has power and endurance to spare. You should see the FORDSON at work to appreciate its wonder-ful capabilities. We will gladly give you the proofs if you will get for them, either by a personal-call, phone or post card. HUBER &
