The Strength of the Pines

THE KILLER'S CHARGE TOO LATE

The bear reared up, enarling with wrath, but for a moment it dared not charge. The sudden appearance of the girl and the horse held him momentarily at bay. The girl swung to the ground in one leap, fired again, thrust her arm through the loop of the bridle rein, then knelt at Bruce's side. The white blade that she carried in her left hand slashed at his bonds.

The horse, plunging, seemed to jerk her body back and forth, and endless seconds seemed to go by before the last of the thongs was severed. In reality the whole rescue was unbelievably swift. The man helped her all he could. "Up-up into the saddle," she once more the pistol cracked. Then the horse broke and ra-

in a frenzy of terror. Bruce was full in the saddle by then, and even at the first leap his arm swept out to the girl on the ground beside him. He swung her towards him, and at the same time her young strength been put to a greater test than when she pulled hereelf up to a position of security.

The Killer's charge had come a few seconds too late.

Here you have them—the hero, the heroine and the great grizzly which dominates more than one scene in "The Strength of the Pines." For this stirring story is a tale of the Oregon wilderness, where nature makes civilized man look small. But to the right kind of man nature gives strength from her strength. By the girl's cabin stands a great entinel pine. And from the army of pines at its back comes the strength that gives this city man the power to win at long odds from the ev This is Edison Marshall's second novel. He's a native of Oregon was a newspaper man by his short stories. In 1921 he won the first prize of the Society of Arts and Sciences of New York with a story, "The Heart of Little Shikara." His first book was "The Voice of the Pack," which was published in 1920 and is still selling. Read "The

VICTORIES OF PEACE EQUAL THOSE OF WAR

Whether the task is the construction of a colossal harbor improvement project, or the administration of a newly acquired insular possession, the Department of War is always prepared to bring to the task a high degree of skill and masterful judgment. How "peace hath her victories no less renowned than war" for the military department of the nation is interestingly described and illustrated in one of an instructive series of articles on Our Govern-ment now being distributed exclusively by this Institution.

We shall be pleased to see that you receive the com-plete series, if you will send us your name and

Don't Fail to Read the Wonderful Story-

The Strength of The Pines

Edison Marshall

Illustrations by

Irwin Myers...

As a story that mingles adventure, nature study and romance, it is undeniably of the front rank. MR. MARSHALL knows the wild places and knows the ways of the wild creatures that range them-and he knows how

Like "The Voice of the Pack," his former successful novel, it contains an intimate and detailed knowledge of the Oregon woods that is fascinating.

Aside from being a strong story of romance and adventure, it has the characteristics of a woodland idyl, rich in poetic fancy, and throbbing with a reverent love for a nature which is unspeakably wonderful, both in its majesty and in its all-pervading hospitality.

last. The time was autumn and the when they start up a flight they can begin to fill their pitchers, measuring And Barbara understood, ages rested in their villages unsust the amount by the number of steps "Poor Erskine," she whispered and pecting and unafraid, and Clark fell taken. I watched them many times her tears came. Her father leaned upon them like a whirlwind. Taken with great interest and delight."

Children Cry For Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food. A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your ailing child anything but a medicine especially prepared for Infants and Children? Don't be deceived. Make a mental note of this:- It is important, Mothers, that you should remember that to function well, the digestive organs of vour Baby must receive special care. No Baby is so abnormal that

The Wonderful Story

The Strength Of The Pines

Edison Marshall a Irwin Myers

As a story that mingles adventure, nature study and romance, it is undeniably of the front rank. Mr. Marshall knows the wild places and knows the ways of the wild creatures that range them-

Like "The Voice of the Pack," his former successful novel, it contains an intimate and detailed knowledge of the Oregon woods that is fascinating. Aside from being a strong story of romance and adventure, it has the characteristics of a woodland idyl, rich in poetic fancy and throbbing with a reverent love for a nature which is unspeakably wonderful, both in its majesty and in its all-pervading hospitality.

a Janey strain brings \$4.50 a dozen.

The Narcissus Poetax has the free growth of the Poeticus, with flowers produced in clusters, and is very lovely. Among named varieties, the Elvira and Triumph have white petals, while the Irene has petals—of soft primrose yellow.

The jonguils, a smaller flowering type, are especially fragrant. Half a dozen of them can be grown in a five-inch pot, for bloom from Janu-

ary to April, and are medium in Prof. N. A. Harvey of the Ypsi ary to April, and are medium in price.

The medium Trumpsts include some of the most beautiful forms.
The crocus is one of the most admired as well as the most easily grown of all the builts. Crocuses can be cultivated in soil, fiber or in water and pebbles. For succession of bloom, planting should be started early in October, and six or eight bulbs set in a group. The named giant varieties are low in price and are to be preferred to the others for indoor blooming. They come in all the choice shades.

The fresias, while perhaps not so well known, are highly desirable for their delicate form and lovely coloring, as well as their delightful perfume. They should be started in the early fall, and can be had in succession of bloom from January to Jüne. The bulbs are small and quite a number can be set in one pot.

Any kind of old receptacle can be
