As Santa Claus and Visit Prisoners' Families on Christmas. Mrs. Maud Ballington Booth, call

ed"The Little Mother" by the Voluneers of America, visited Jackson prison Sunday noon and while 1,500 men were seated at the dinner tables cording to the News she said: "You have left at home your wives without support and kiddies-without father to protect them. As I look long tables I see more to eat than I have seen in your home for your wives and children to eat. You have good care and plenty to eat. You have no cause to com-plain. The burden bearers are at

nothing but prison work and have helped 50,000 boys secure par-oles before their terms expired. Your past you never can rectify, never re-Every seat has been sold for the Every seat has been be downcast. Bruce has vivid but baffing recol-lections of his childhood in an or-phanage, before his adoption by Newton Duncan, with the girl Lin-da. At his destination, Trail's End the fact leaks out that "Old-Elmin has end word down to the settle

as they were, those ancient, eternal seif." CHAPTER III-Continued.

"And why have you been so long

when Dave's chief asked questions The telling me?" When Dave's chief asked questions In this tone, answers always came mouth that they blurred and ran to-where I could see you. Anyway, there where I could see you. Anyway, there the could see you. Anyway doone the could see you. Anyway there the could see was not have filled up to the series of the might-I say might-have kicking about somewhere in his belongings the very document we've all of us worrying about for twenty years." Simon cursed—a single, fiery "But we are yelling befor we're hurt. It isn't worth a cussword. Like as not, this Wegan will never take the trouble to hunt him up. And if he does well, it's nothing to worry about, either. There is one back door that has been opened many times to let his people go through, and it may

easily be opened again.' Dave's eyes filled with admiration. Then he turned and gazed out throughthe window. Against the eastern sky, already wan and pale from the encroaching dawn, the long ridge of a mountain stood in vivid and startling silhouette. The edge of it was curiously jagged with many little upright points.

points. There was only one person who would have been greatly amazed by that outline of the ridge; and ther years and distance had obscured her long ago. This was a teacher at an or-phanage in a distant city, who once had taken a crude drawing from the the bit Here was the original

## **VOTERS, ATTENTION!** THREE CONSTITUTIONAL AMENDMENTS TO BE SUBMITTED AT FALL ELECTION

Voters Are Urged to Become Informed on Provisions of Each

At the coming November election three constitutional amendments will be sub mitted to the voters of Michigan. The one of most vital interest to voters as a whol is the amendment which would open the way for income tax legislation, and reads as follows:

"The legislature shall provide by law a uniform rule

of taxation, except on property paying specific taxes, and the taxes shall be levied on such property as shall be prescribed by law. Provision may be made by law for a tax of not to exceed four per centum upon or with respect to the net gains, profits and incomes from whatever source derived, which tax may be graduated and progressive and which may provide for reasonable exemptions. For the purpose of such tax, property and persons, firms and corporations, upon which said tax may operate may be classified. Provided, that the legislature shall provide by law a uniform rule of taxation for such property as shall be assessed by the state board of assessors, and the rate of taxation on such property shall be the rate which the state board of assessors shall ascertain and determine is the average rate levied upon other property upon which ad valorem taxes are asses

ed for state, county, township and municipal purposes," The amendment, which is to Section 3 of Article 10 of the constitution. does not make it mandatory upon the legislature to enact an income tax law, but simply opens the way for such legislation, should it be deemed necessary to meet the fina cial needs of the state.

It has been the contention of those backing the amendment, which constitute a majority members of the last legislature, that the exemptions under the law should be about the same as those contained in the federal income law, and that accordingly, the burden of the tax will rest upon those of incomes in excess of \$1,000, and upon the larger corporations of the state

The backers of the income tax in the last legislature intimated that should the state enact an income tax law, as provided by the amendment, they would stand for a repeal of the eorporation franchise fee law, which is netting the state about \$6. 00.000 in revenue this year.

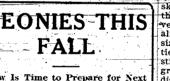

The other two amendments to be submitted are: One providing for the granting of right to municipalities to acquire land and property in excess of that needed for parks, boulevards, streets, etc., and issue bonds for the payment of same; and an amendment to provide for the incorporation of ports and port districts with power to engage in work of internal improvements in connection therewith. The amendment which would provide for the incorporation of ports and port districts is

fathered by Detroit, but also has the backing of such Michigan port cities as Benton Harbor, Bay City, Muskegon, Holland, and others. Should the amendment pass, it would permit municipalities to incorporate ports and port districts, and to sell bonds for the improvement of such ports. Under the wording of the amendment, the question of a bond issue would be submitted to the district included in the creation of the port district, and no bonds could be sold holding on property without the district. This amendment would open the way for municipal piers and warehou the general improvement of Michigan harbors on the Great Lake

The third amendment, which would provide for excess condemnation of land, is also backet by the city of Detroit. It would provide for the acquiring of land along boulevards, or adjoining parks, to be beautified, or which might become a part of the improvement in the future. Under the present provisions, condemnation proceedings may be followed to acquire only the necessary land needed for any specific public improvement. This amendment is of particular interest to all cities in the state, as it would greatly broaden the powers of the city commission, city councils, and board of education in acquiring more land than is needed for contemplated public improvements-
