U. S. INDEPENDENT IN NEAR EAST ROW

Government Assumes No Responsibility But Insists Its Rights Be Guarded. Wants Minorities Protected. Note Shows Concern for Humanitarian Rights and Educational and Religious Institutions.
Paris - The reply of the American government to the invitation of the Allied powers that America participate in the peace conference at Lausanne for settlement of Near Eastern questions was presented to Premier Poincaré Monday evening by the American ambassador, Myron T. Herrick. The substance of the reply was made public.
After pointing out that the principal purpose of the proposed conference will be the drawing up of a treaty of peace with Turkey and dealing with problems resulting from the state of belligerency between the Allied powers, Turkey and Greece, the reply says: "The United States does not desire to participate in the final peace negotiations or assume responsibility for the political and territorial adjustments which may be effected, for the reason that it is neither at war with Turkey nor party to the armistice of 1918."
The United States government, however, does not desire to have the impression that United States interests are less entitled to consideration than those of any other power; neither is it desirous of relinquishing rights enjoyed in common with other powers to the United States.
