The country roads had become quite smooth the farmers say, before the rain came on Tuesday. Many of the roads had been scraped. Now they will have to go over them again.

The U. of M. asked for an appropriation of \$7,277,000 but the legislaturec ut it down \$2,000,000, giving the universit \$3,147,000 for the present year and \$1,930,000 next year.

Sparks from a chimney are believed to have set fire to a house in which Mr. and Mrs. Irving Klumpp twist a corner of the sofa cushion, or were living in Chelsea, Saturday swing one foot in listless motion, or morning. The roof was burned and the interior of the house damaged. As the folks intended to move out their goods were packed and readily removed, but were somewhat injured by water.

FINDS IT HARD TO KEEP QUIET

According to Critic, the Ordinary American Knows Little About Sitting at His Ease.

The ability to sit quiet is not too common among Americans. For some talk if they pluck at the upholstered arm of the chair in which they sit, or swing one foot in listless motion, or play with a pencil or a paper cutter or some other object. Fldgeting is a disagreeable habit; the other person finds his attention becoming more and more fixed upon the repetition of meaningless mechanical and more and more distracted from

other matters.

Because fidgeting raises in this way a barrier to easy social intercourse, it handleaps the person who fidgets. More over, it expresses lack of polse and self-control. Restfulness is of the essence of dignity. The person who has not trained himself to sit and talk without any undue nervous move ments of the fingers and feet has not really achieved complete mastery over his fingers and feet. A good rule to observe with regard to those members is to use them when they ought to be used and at all other-times to insist upon their being quiet.-Youth's Com-

"Biggest Air Post." Le Bourget, near Paris, is now dignified with the title of largest and most important airport in the world. less than 4,812 passenger and freight airplanes were used in the various services during 1922.

In 1920 the number of passengers carried was 10,215; in 1922 the number had almost doubled—19,974. An average of 65 passengers daily took their places in air expresses for destinations all over Europe. A total of 463 tons of express were carried in 1922—an augmentation of 385 per cent over 1920. Compared with 1919, when the port was opened, the increase is of 2,200 per cent. Postal packets augmented to the extent of 143 per cent during the year.

"America is ahead of Europe in brain and nerve surgery and the American surgeons work with remarkable skill and precision." Thus speaks Einar head physician of the Mario hospital in Stockholm, and one of Sweden's best known surgeons, upon returning from a three months' trip to the United States, where he had visited leading hospitals and observed the work of the most eminent surgeons.

While in America Doctor Key lectured at a medical congress arrange by the American College of Surgeons in Boston. He visited large clinics in New York, Chicago, Philadelphia, Buffalo, Cleveland, Baltimore, Syracuse and other places. He declares that American hospitals have better laboratory facilities than those in Europe. while he finds the Swedish hospitals, as a rule are brighter and more cheerful than those of America.

The Church Cow.

A Presbyterian church in North Carolina has just bought a cow! The church carries on a large work in the "poor ection" of the tewn, where many children need pure, fresh milk, but are not able to secure it. The church hires children at very reasonable rates. The cow gives about four gallons a day, which is sufficient for seven families These families usually have enough small boys to herd the cow on the public commons and to see that each family gets its share. The experiment is so successful that the money secured for the hire of the cow is being laid aside for the purchase of another cow.

Geo. Nisle and family are ex-pected home from Florida next week.

The spring-like weather this week and improved roads has brought a number of early visitors who came to look over their property.

The ice has broken away in the lake and ther have been many ducks in the open spaces. Though the law forbids spring shooting, gunners have potted them when the birds were close to shope were close to shore.

Our townspeople Mr. and Mrs. F. P. Maginn must begin to think they are pursued by the fire fiend, as their house was discovered on fire again a few days ago. This time a spark from the chimney set fire to the roof, buring a spot about two by four feet. Repairs have not yet been made since the fire some weeks ago that nearly destroyed their home. A new roof, will be necessary and the severe weather has kept the carpenters waiting for favorable weather. If rain does not threaten, work will be begun any day now.

Mrs. Dowling was entertained at an Easter dinner at the home of Mrs. Carrie Mahrle, Sunday, by her neighbors Mesdames Carrie and Kate Mahrle, Parmelia Jackson and Mrs. Braun. She was the recipient of a usefal gift as a memento of the occasion. She expects to go to Wayne or Dearborn, where her husband is working for Ford.

The Oak Grove Cemetery Association presented Julius Galloway with \$50. It will be remembered that he was badly injured last fall while working at the cemetery, and is still unable to work.

What to Eat and Why A Natural Supply of Vitamin

The word "Vitamin" is new, but the thing itself is as old as the human race. It is the energizing, witalizing, growth producing element in the right food. Its absence is a serious fault of the wrong food. When the food is right, there is no need to go to the drug store for Vitamin.

Grape-Nuts, the famous readytoeat cereal, supplies the natural Vitamin from the wheat, and a further supply is included in the cream or milk with which Grape-Nuts is eaten.

Grape-Nuts is delightfully crisp and appetizing, with a flavor which happilly suggests the wholesome, health-building goodness which the food centains. Smart Spring Coats

The Spring Season brings many occasions for a tailored wrap in the jaunty sports or utility style. Such a coat, fashioned from a tweed or novelty weave, will prove exceedingly useful for wear all summer long when motoring, camping, or vacationing. The mannish tailoring of such wraps makes them very popular. For the Spring Anniversary Sale the Ready-to-Wear Section is offering a group of new Spring Coats at the very special price of \$25.00.
