This smoker says Edgeworth gets better and better

But it doesn't—and no "improvements" are contemplated

To begin with, we had better quote Mr. Whitlock's letter in full. Not in a boastful spirit, but so we can refer back to it farther down in the column.

2344 Acorn Street, St. Louis, Missouri

Larus & Brother Company, Richmond, Va. Gentlemen:

I wish to take this opportunity to tell you what I think of your Edgeworth Plug Slice tobacco.

I have been a pipe smoker for about 15 years and during that time have naturally tried many different brands and blends of tobacco. I could not seem to find an ideal until about six months ago when, at the suggestion of a friend, I tried a pipe of Edgeworth Plug.

I have been a constant user of Edgeworth since and can truthfully say that "day by day in every way Edgeworth is getting better and better."

You have my permission to use this letter in any way you may desire if by so doing it will enable other pipe smokers to find a really cool, enjoyable and perfectly satisfactory man's smoke.

I beg to remain,

Edgeworthly yours,

Al. F. Whitlock.

We are indeed glad Edgeworth has given Mr. Whitlock such unqualified satisfaction, but we feel obliged to side-step his suggestion that "day by day in every way Edgeworth is getting better and better."

Our constant aim is quite to the contrary.

Just as it is, Edgeworth pleases thousands and thousands of pipe smokers throughout the country.

If we should try to "improve" Edgeworth or change it in the least, we might be doing an injustice to the men who have smoked Edgeworth for years and years and who expect to find it always the same good smoking tobacco.

And so we hope Mr. Whitlock will agree with us that, all things considered, it is best for us to go on making more of the same Edgeworth.

To add to our list of friends we are always glad to send free samples to anyone who cares to send us his name and address.

Just drop us a postcard and we will immediately forward to you generous helpings of both Edgeworth Plug Slice and Ready-Rubbed.

For the free samples address Larus & Brother Co., 78 South 21st Street, Richmond, Va. If you will also add the name and address of your tobacco dealer, we shall appreciate your courtesy.

To Retail Tobacco Merchants: If your dealer cannot supply you with Edgeworth, Larus & Brother Company will gladly send you prepaid by parcel post a one- or two-dozen carton of any size of Edgeworth Plug Slice or Ready-Rubbed for the same price you would pay the jobber.

East Lansing—Michigan potatoes, if seed treated, have an advantage over those from other states in combating scab and black scurf, according to Dr. G. H. Coons, plant pathologist at M. A. C., and therefore he recommends that all potato growers in Michigan apply this treatment. "The bulk of Michigan's mammoth potato crop is grown in soils that tend to become acid and on such soils potato scab is not a factor, if treated seed is planted," said Dr. Coons. "But the best of soil will produce a scabby crop if scab-infested seed is planted."

PLOT TO KILL MARSHALL FOCH

POLAND FOILS WOULD-BE ASSASSINS—THIRTY REDS ARRESTED.

HANG LORD CURZON IN EFFIGY

Prepare to Sever Relations—Soviet Representative On Way to Conference.

Paris—Thirty young Russian Reds, from the Ukraine, have been arrested in Poland for a plot to assassinate Marshall Foch with dynamite bombs according to a dispatch from Cracow. Marshal Foch went to Poland to attend the army maneuvers. His visit was seen as a move on the part of France to strengthen her claim upon Poland's good will and to stiffen Polish military resistance to the bolshevik threat on the north and east.

Moscow—Militia workers took over Moscow in a fever of patriotism this week-end.

A great national demonstration against Great Britain brought thousands, granted a holiday by the government, to the capital and mass meetings of Saturday had their aftermath in further demonstrations Sunday.

Many peasants, as distinguished from the workers, who are loyal to a man to the soviet rule, were among the throngs that swept through Moscow streets during the night, and applauded fiery speeches in which the gauntlet to Britain, to imperialism, capitalism and Fascism, and to most of the rest of the world, was thrown down.

Lord Curzon, British foreign secretary, was hanged in effigy.

London—The tense situation created by Great Britain's ultimatum to Russia and a reply, understood to be couched in defiant terms, now on its way here, was discussed by cabinet members in secret conference here Sunday.

Both Russia and Britain are making plans for a possible break in relations.

Leonard Krassin, soviet representative in London, is flying here to wind up his affairs if the trade agreement between this country and Russia is abrogated by Britain.

For the first time in history one views the spectacle of the main party in parliament aligned with a foreign power against Great Britain.

The laborites have sympathized openly with the Russian stand and urged everything possible be done to avert a break that would mean increased unemployment and possible war.

TURKS SCORE DEBT VICTORY

Angora to Settle Foreign Obligations Privately.

Lausanne—Following another sweeping Turkish diplomatic victory on the question of the Ottoman debt, only one important issue—rights of foreigners in Turkey—remains before the Near East peace conference.

If the Allies yield on this issue the Turks will have gained a complete victory in both the old and the present Lausanne conferences.

The Allies gave in on the Ottoman debt question when they agreed to exclude from the treaty the method and amount of payments which Turkey must make to coupon holders. This will force those holding coupons on the Turkish debt to settle privately with the Turkish government, the same as being done now at Angora regarding the English, French and Italian concessions.

The Allies already have granted concessions in the dispute over what rights Turkey will guarantee to foreigners for the protection of life and property. They are now asking what seems to be nothing more than a mere pretense of protection, but the Turks are not willing to grant even this.

There is every reason to believe that the Turks finally will win out even on this last disputed issue thus completing their full diplomatic conquest for the nationalist program. The program on which they stand is:

- 1—Absolute recognition of equal grounds with every nation of Europe.
- 2—Absolute abolition of every form of foreign control or intervention or surveillance within the Turkish boundaries.
- 3—Establishment and maintenance of the Turkish racial majority and supremacy within the Turkish state.

When these assurances have been obtained then the Turks will be ready to join the League of Nations and participate in world affairs on an equality with all Europeans.

MAJ. GEN. HARRY HALE

East Lansing—Major-General Harry C. Hale, commander of the Sixth corps area, reviewed the R. O. T. C. cadet corps at the Michigan Agricultural college here last week. General Hale, formerly commander of the reinforced brigade which recently returned from two years' service in Germany, is making an inspection of all troops in Michigan.

HEROES AWARDED DECORATIONS

Washington—Decorations have been awarded by the United States to heroes of the war, to semi-heroes, to civilian non-combatants and to others in excess of 8,000. When the final returns are in, the total may reach 8,500.

These decorations include medals of honor, commonly known as Congressional medals, distinguished service medals, distinguished service crosses, oak leaf clusters and silver star citations, all issued by the war department, and all supposed to be a reward for gallantry in action or for signal services in the military service of the nation.

In addition to the decorations bestowed by their own government, Americans of one station or another have received a total of 17,787 decorations at the hands of governments associated with the United States in the prosecution of the war, making a grand total of something like 26,000 awards since hostilities ceased.

Among the foreign nations France has been most generous.

OIL WELL—DEATH TOLL IS 16

Use of T. N. T. Urged to Blow Out Huge Funeral Pyre.

Corsicana, Tex.—Thirteen identified bodies, three skeletons smoldering in a grim well pit, and possibly a score of others to be uncovered mark a tally of death, wrought by the explosion of the giant gusher of the J. K. Hughes Development company (McKie number one well).

Three hundred feet of flame, streaking the horizon with leaps and starts, ominously signalize the fire for 50 miles around, reports radiating back here last week.

The huge producer, which came in late Tuesday, flowing 15,000 barrels of pipe line oil, is a veritable funeral pyre. Charred, twisted mangled bodies remain while the well burns, consuming the complete flow and two million feet of gas as when it first ignited.

Dr. Charles E. Munroe, chief explosive chemist of the bureau of mines, suggested Thursday that the safest and easiest way to control the oil well fire would be to blow out the flames with T. N. T.

CHINESE OUTLAWS NEGOTIATE

Promise to Release Prisoners—Will Join Army Later.

Pekin—The Peking government announces that its delegates reached terms at Licheng last Saturday night with the brigands, under which the troops will be withdrawn and the brigands later will be enrolled in the national army. It is added that the brigands have returned to the hills, promising to release some of their captives immediately and to set the others free when the agreement is carried out.

Half of the foreign prisoners, several of them Americans, held captive in Shantung by robbers for more than a week will be released immediately according to promises exacted from the brigands last week.

Others will be released after negotiations, the brigand chiefs promised Roy Anderson, mediator, who first went into the hills to negotiate with them.

Besides money the brigands want a guarantee that they will not be arrested.

MacMillan was leading the animal over a small bridge when it made a sudden plunge into the creek, dragging MacMillan after it. The cow died in a short time from its injuries. MacMillan is suffering from contusions to the arms and body, caused by trying to save the animal.

Clue to Cyclops Disaster Found.
Atlantic City—The fate of the Cyclops, U. S. Navy collier, which disappeared mysteriously in March, 1913, was recalled here when Miss Dorothy Walker, a Pittsburgh girl, found a bottle on the beach containing a message, which may have come from one of the ship's crew of 300 men. "Cyclops wrecked at sea," the message read. It was signed "H." and written on a memorandum sheet. The paper was yellowed with age.

Cohens Ahead of Smiths.
New York—The Smiths and Cohens had their annual popularity contest this week, the occasion being the distribution of the New York City Directory for 1923. Out of the 1,200,000 names of the directory, which covers Manhattan and The Bronx, nearly 6,500 are allotted to the Cohens and 6,000 and approximately 5,800 to the Smiths and Smyths. But although in the aggregate the Cohens and their kin the Cohns widen their lead over the Smiths and Smyths.

Harrisburg—Among a number of other bills generally known as "old friends," the Pennsylvania legislature has one that never fails to appear. It is a measure to license all barbers in the state. The bill, which was defeated by the usual majority this year, contained a provision that before a barber can qualify for a license he must have served as a janitor or apprentice for three years or attended a barber college for that length of time. Rep. Ogie insisted that the bill did not go far enough.

Milwaukee, Wisconsin—"I feel that I ought to let you know about my case. I was ailing and could barely do my housework and washing I was so run-down, just from having one child. I took a lot of medicines and had doctors. Then I gave them all up and took Lydia E. Pinkham's Vegetable Compound and I feel wonderfully good now. They are sincere expressions of gratitude. For nearly fifty years Lydia E. Pinkham's Vegetable Compound has been so praised by women.
