

RAIN NEEDED TO QUENCH FIRE.
Ironwood, Mich., May 29.—Forest fires are raging in Vilas county, Wis., and Gogebic county, Mich.; large areas of cut-over land are burning and the spreading flames are threatening valuable timber tracts between LacVieux Desert and Watersmeet. Hot ashes are falling in those towns, several miles from the scenes of the fires.

Expensive Reconstruction Work.
Every year the equivalent of a city of more than 500 buildings is demolished on Manhattan Island, N. Y., and every year a new city of the most imposing type of construction rises to replace the demolished city.

This annual disappearance and re-appearance of a vast city within a city offers an interesting revelation of the tremendous forces which constantly are exerted to provide building facilities for Manhattan. In no other city in the world are such Herculean processes of demolition and re-building at work as there are within the limited confines of this island.

Ex-Congressman Gorman Dead.

Hon. James Gorman died in a sanitarium in Detroit Sunday, following a long illness. Funeral services were held in St. Mary's church in Chelsea, Wednesday at 10 a. m. Mr. Gorman was born in Linden township, Dec. 14, 1849, going to Chelsea 31 years ago. He had been ill about 10 years and last fall was taken to the Detroit sanitarium. Prior to that time he had for years been prominent in politics, being an ardent Democrat. He served in the state legislature and state senate and from 1892 to 1896 was United States congressman from this district. He is survived by a wife and son, Gaibraith of Dexter, and a daughter, Agnes, of Lansing. Mr. Gorman was well known in Manchester.

People were in town Saturday night trading who had come from a considerable distance. The stores were filled with people and the streets with autos. They come early and stay late.

SOCIETIES.

MANCHESTER LODGE No. 148, F. & A. M., meets at Masonic Hall, first Tuesday evening of each month. Visiting brothers invited. Fred H. Blosser, W. M., Ed. E. Root, Secretary.

MANCHESTER MISS WINS CLUB HONORS

Marie Wurster Is County Champion In 31 Garment Working Clubs In Washtenaw County.

The first annual picnic of the Boys' and Girls' Clubs of the county was held on the island in Ann Arbor, Saturday, May 26.

A large delegation went from Manchester and surrounding towns. Parents of many of the members of the club accompanying them.

It was about the first real summer day of the year, and though parents seemed busy with home duties, the girls could not be disappointed, especially after Superintendent A. L. Watt had been here but a few days before and told them of the big time planned. Cars requisitioned and had about the merriest ramble across country they had ever known for there was something doing all the time with the girls practicing their yells and songs.

Arriving at Ann Arbor they found the club members from all over the county assembled and all were given free admission to a movie, and then led by a band many marched down to the river, others going in autos. The lack of proper parking space caused confusion and annoyance, but at last all arrived on the island laden with lunch baskets galore, and after necessary preparations all sat down to a repast that was satisfying indeed.

Rosco Bonisteel extended a very cordial welcome to all and stated that this was the first time that the city merchants had decorated their business places, except for patriotic ceremonies, and thought it a deserved recognition of the work being carried on by the clubs. A. L. Watt, the county club agent, also voiced his appreciation of the assistance given.

Miss Robb and R. A. Turner, state club leaders, said that the picnic was the most auspicious ever undertaken by county club organizations in the state.

Interested attendants were highly interested in the awards announced after the picnic dinner. The industrious workers, who have been working under the leadership of Mrs. A. A. Schoen were specially fortunate and in consequence much credit is given their leader for her tireless efforts during the past two years. The awards were as follows: Second year. Champion Marie Wurster (who also won county champion).

2nd—Della Schaefer, and Adeline Clark.
3rd—Roena Gieske, Frances Seckinger, Eltriede Kayser.
In the junior group, second year awards were as follows:
1st—Arthurine Davidter.
2nd—Fredwig Schoen.
3rd—Ardis Henzie.

The first year club champion was Marie Henzie.
Other members of the club worthy of special mention for excellent standard of work exhibited are Althea Wurster, Verna Clark, Marie Huber, Margaret Lowery.
Irene Huchel of the Fredonia Neighborhood Club of Freedom township, was another from this part of the county gaining a place, she winning 2nd in the first year class.

THE UNWISE FISHERMAN.

From "Old Black Bass," by Albert Benjamin Cunningham.

The fisherman was clever. Nine bass he caught that day, and five of them were from the nest, caught with the clever spring hook. One of the five was guarding 75,000 eggs, and the other four a total of 37,000. All told, he took the protection from 112,000 possible bass; 112,000 possible stock for the waters of the future—impoverishing the lake for the fisherman who should come after him—making obedience to the law a handicap—contributing to the death of a species at its source.

ABODE OF "THUNDER BIRD"

Indian Legend Concerning Tract in the "Bad Lands" Never Visited by White Man.

Half a dozen miles southwest of Seelye, S. D., in the very heart of the Bad lands, is an area of approximately four square miles. No white man's foot has ever rested there so far as can be learned, the Detroit News says. The Indians call the plot "sichi makeche," meaning "bad place." Deep canyons and every attempt to follow their tortuous paths thus far has ended in failure.

Chief Fleming Arrow, a veteran of the frontier days, gives what probably is the Sioux belief. Many years ago the chief said, before the pale face came, here was the place where dwelt the "Thunder Bird" high in the pinnacles of stone. This wall of rock kept out unwelcome visitors, the chief contended, and added that the protected area is rich in food, sunlight and warmth, and has pure, cold streams of running water.

Artistic Ancient Earrings.

Within the last decade has occurred the return of the earring, so long laid aside. Few seen today, however, surpass in taste and delicate finish the Aristocratic of Biote, the daughter of Aristotle, which were found in Chalcis, where the young woman was buried. These ornaments represented doves swinging in golden hoops. The miniature birds were marvelously wrought, the feathers of granulated gold, the wings and breasts enriched with bands of color supplied by inserted gems. Precious stones gleamed like tiny sparks for the eyes. Daintiest of all, the tail feathers were so finely made and curiously adjusted as to move at the slightest motion of the pendant loop, so that whenever the proud wearer should toss or shake her head two attendant doves would seem to balance themselves upon their perches as live birds do in swinging on a bough.

Ancient.
Temple of the Moon, believed to be the oldest building on earth, is uncovered by scientific diggers at Ur on the lower Euphrates river. It was erected about 7,000 years ago, and was used continuously as a church for 4,000 years.

King Tut seems very ancient to us, yet here's a building that was about 4,000 years old when he was born. Discovery of the Temple of the Moon is important. It helps confirm the scientific belief that the first civilization was along the Euphrates. Somewhere in that vicinity probably was the cradle of the human race—though Chinese claim that their authentic history dates back at least 22,000 years.

Mrs. C. E. Kagay made a trip to Jackson Saturday.

MANCHESTER HAS DECORATION DAY

Many Citizens Gather at Oak Grove Cemetery to Honor Those Sleeping There.

Wednesday was just the right kind of a day for Decoration Day—bright, and not too hot. Oak Grove cemetery had been kept in spic-span condition for the occasion and hundreds of people had visited the grounds and vases of beautiful flowers on the graves, making it surely a place of beauty.

The school children had brought loads of wild flowers from the woods and lilac and other blossoms from the yards, which were arranged in baskets by the Young Men's Club rooms Wednesday morning by members of the Relief Corps, G. A. R., and girl Scouts club.

The school had prepared the usual program and when the 1001 people drove to the cemetery, the big school bus set forth for the place where the procession was formed—in front of the Enterprise office.

At the last moment Mat D. Bluser who had charge of the exercises, was informed that the G. I. Scouts and the Boy Scouts wished to join in the parade, so this was the formation:

Welfare Band.
American Legion.
Girl Scouts.
Boy Scouts.
G. A. R.
W. R. C.
School Teachers.
School Children.
Citizens.

The usual arrangement for decorating the graves was carried out. Oak Grove cemetery was divided into six sections, and St. Mary's was one. A member of the G. A. R. had charge of each detail, as follows: Thos. B. Blosser, Thos. J. Farwell, Thos. F. Rushton, Alfred A. Stringham, Geo. B. Sherwood, R. M. Teeter.
Each of these was added to the G. I. Scouts and one girl from the high school to act as decorators, with as many girls to carry baskets of flowers as there were graves to be decorated.

It was a fitting and inspiring sight to see those several marching detachments scattered over the entire grounds and performing the simple but impressive ceremony at the same time, the band occupying a central position playing appropriate music.

This ceremony concluded, all repaired to the vicinity of the public vault and the soldiers' monument to listen to the program of music, songs, recitations and speeches, as well as the regulation exercises of the Grand Army and American Legion. Those who took part in the parade felt inspired when they gazed into the pleasant faces of friends seated on the sloping hillside in close proximity, and all apparently enjoying the splendid program.

The program certainly never had better selected songs nor recited better. Emanuel's quartet sang two appropriate selections, and were heartily applauded. The audience had the first opportunity of listening to a brief but inspiring address by Rev. Marsh of the Row's Corners church.

Dr. Addis Leeson of Ann Arbor was also called on for, for we have found that no occasion of this kind would be complete without hearing his bur former townsboy, who always has a lovely message for old as well as new friends, and a prayer of the soldiers of the Civil War, who are fast passing from our midst.

The American Legion exercises were the last on the program and were very interesting. Rev. Smart closed the end of the program with the benediction at "the end of a perfect day."

As the Raisin river flows through the center of the village, the G. A. R. did not neglect the part of their sacred duty which bids them honor the memory of former members of the U. S. Navy, as well as the military forces, on this occasion. Flowers were scattered on the waters from Exchange Place bridge and they watched as they floated gently at first, then swept swiftly over the dam and floated hither and thither on the widening waters below.

DETROIT AS SEAT OF WORLD MASONRY

City Will Have Finest Temple in World—Great Library Is Now Planned.

Detroit, May 28.—Detroit's new Masonic temple, the finest building of its kind in the world, is to house one of the best Masonic libraries in the country, through arrangements made by the Masonic News, published in Detroit.

The magazine is planning a special library number, the proceeds of which will be devoted to the purchase of books. The forthcoming issue will contain material gathered from the great Masonic libraries of this country and England.

The work of buying rare copies of manuscripts and books began last year. Already 1,000 volumes have been purchased and one agent still is at work in the United States and another in the British Isles.

Prominent Masons here express the hope that the library, during the next few years, will do much to make possible the bringing of the seat of world Masonry to Detroit.

The two largest Masonic libraries of the world, those of the Grand Lodge of England and the Grand Lodge of Iowa, are cooperating with those in charge of the collection of books for the Detroit library.

PYTHIAN SISTERS GO TO QUINCY

Convention Held There Proves Great Pleasure and Satisfaction.

A large company of jolly Pythian Sisters attended a convention at Quincy last Thursday, among whom were Mesdames Marie Scheurer, Anna Davidter, Vera Stambaugh, Ella Kern, Blanche Lowery, Mildred Halsey, Clara Conroy, Emma Burch, Anna Einkorn, Edna Lindbert, Cora Jenter, Ruth Mahrie, Ida Feldkamp, Margaret Dietle, and Misses Leila Blythe, Hilda Kuebler and Edith Dietle.

Messrs. Conroy and Stambaugh accompanied them and drove to Coldwater and Bronson to test that portion of the Chicago pipe, the western section of which is paved.

POPULAR MINISTER GOES TO ENGLAND

Rev. Smart, Who Is Filling Second Year of His Pastorate Here, Is Granted Vacation.

At the quarterly conference which met a few days ago, permission was given Rev. H. Benson Smart, pastor of the M. E. church, for a leave of absence of two months to visit his old home in England. During his absence the pulpit will be supplied by former pastors and others. Rev. and Mrs. Smart and daughter Elsie expect to sail from Montreal June 23rd, and will return by way of New York.

FEW REALLY LOVE PESSIMIST

Truth in Statement That Man With Morning Smile Is Worth His Entire Tribe.

There were optimists in King Tut-Ankh-Amen's time who met the far-off mornings with a smile.

And from all accounts of a statue they found in the king's tomb, the artist caught the inspiration of the smile and preserved it for the long after-centuries.

In one sense, it was the same world then that it is today. They had their joys and sorrows, and smiles and tears contended for the mastery.

There were pessimists then, as now, who saw no good and gracious things in life; who mocked the smiling ones and went frowning to their tombs; who, not having heard of the Cope method, probably answered a cheery morning salutation with "Day by day, in every way, we're getting worse and worse," and who, when golden Opportunity knocked at their sad doors, opened them not, for fear Trouble might walk in and take the best chair at their gloomy firesides.

They never tried to smile away their troubles!

Verifying types of them are with us today, but one optimist, with a morning smile, is worth them all—Atlanta Constitution.

Treasure Sunk in Ocean.

Sunken treasure worth millions lies at the bottom of the Navarino bay on the west coast of Greece. This glittering prospect, long the object of many fortune seekers, has finally found its way into British courts. Many companies have been formed to recover the gold from the land-locked bay of Navarino. None has succeeded. One concern, with \$250,000 capital, was formed in 1913, but the war stopped it. The concession expired in 1920, then was taken over by two London engineers, who now come forward in a suit under an agreement to find money for digging the treasure. The agreement fell through, and one of the litigants has to be content with treasure to the extent of \$250 awarded by the court. The treasure has been resting all corners for nearly one hundred years. It went down in the ships of the Turkish Egyptian fleet, sunk by allied fleets in 1827. Sixty-two ships in all were sunk in this battle. Gold and jewels to the value of 120,000,000 francs sunk, while five other ships went down with \$5,000,000 of plate and specie.

America's Shortage in Oil Supplies.

Although the United States produces about 70 per cent of the world's oil, it already consumes 25 per cent more than it produces. Moreover, American oil fields are becoming exhausted. Our reserves are estimated to be only 9,150,000 barrels, which, at our present rate of consumption, will be exhausted in 20 years. We are using up our reserves 16 times as rapidly as foreign countries. In contrast with our own situation, the world's oil reserves are calculated to last 250 years. Obviously, the attempt on the part of other nations to gain control of these resources threatens our interests.—Prof. R. L. Buell, in Current History Magazine.

How About This?

Peter Brown, the famous New York raconteur, was talking about the newspaper discussion. "Why does a girl close her eyes when a man kisses her?"

"This discussion," said Mr. Brown, "brought out some ingenious solutions, but the real solution was given by no one. It is this:

"A girl closes her eyes when a man kisses her because she has just told him she's the first and in consequence she's ashamed to look him in the face."

Mr. and Mrs. Oscar Hildinger of Ann Arbor were in town Sunday. Oscar has plenty of work over there and they like the city very much.

Brass paper fasteners for school at Enterprise office.

MANCHESTER BOY GAINS PROMOTION

Word Comes From C. W. Case That His Son, Major Roland Case, U. S. Army, Goes to Omaha.

In writing to renew his subscription to the Enterprise, our former townsman C. W. Case writes, briefly, entertainingly and instructively from Ft. Leavenworth, Kan., as follows:

"Realizing that by far the best way for me to keep tab on my home town and my many friends there is through the columns of the Enterprise, I am enclosing check for renewal of my subscription. Kindly continue the Enterprise to Wichita, 146 S. Belmont. I came up here last week for a few days' visit with Roland and family.

Roland will graduate from the military school here about the 15th of June, then will go to Omaha, Neb. The military headquarters for the middle west are located at Omaha and Roland will have charge of the Ordnance department there.

Ft. Leavenworth is certainly at its best right now. The beautiful place. About all the houses and apartments are of brick, the streets and avenues are paved and are lined on both sides with grand old elms, some of them three or four feet in diameter, the tops of which meet over the street. The streets and parks are kept immaculate, the count of the frequent rains the foliage and leaves are certainly beautiful beyond description.

I had the pleasure of seeing a game of polo last Sunday afternoon between a team from Ft. Riley and a team from the officers here, said to be the best polo teams in the United States. The team from Ft. Riley proved to be the better, however, and won the game easily. Never having seen a game of polo before, I was very sporty enough to enjoy it very much. I shall return Wichita in another week.

It was with much sadness that I read of the death of our old friend John Spafard. I note that many of our friends have passed over the river since my leaving Manchester.

Couldn't See the Joke. I was nine and he was ten. I was deeply in love with him. When my birthday arrived, a heavy package also arrived from him. I took off the first wrapping and there was another following and several more. Then came a shoe box. I opened it, and my heart was beating with excitement. But, lo, and behold! there lay a brick, with "greetings" printed on it. This was the beginning and also the end of my first love affair.—Exchange.

Machine Weighs, Counts Hay Bales. After a day's work in baling hay, the owner of a hay press need only look at the recorder of a new automatic weighing and counting machine which Popular Mechanics Magazine describes and illustrates, to know how many bales his machine has turned out and their weight. As the bales come out of the press, they fall upon the device, weigh and count themselves.

Homer Hall has been very sick from hemorrhage of the bowels the past week, but is recovering.

GRINNELL BROS. PIANO SALE

Grinnell Bros. piano sale which was given here in Manchester the past few weeks, came to a successful close Saturday night and the remaining stock has been returned to Ann Arbor.

Mr. Hand, the manager, informs the Enterprise that they sold an even dozen pianos, which he considers a grand success in this place, where practically every home is graced with an instrument. He also said that those who purchased instruments obtained splendid bargains and he is confident they will find enjoyment and satisfaction in owning a popular piano. He expressed his appreciation of the splendid treatment he and his assistant have been accorded by our business men and citizens.

HAD HARD WORK TO STOP IT

North Carolina Mountaineer's Struggle With Ramrod Must Have Been Something Fierce.

Representative Zebulon Weaver, Democrat, of North Carolina, relates this story in the New York Herald: "My district has mountain counties and mountain men and women. The smartest people I know live in the caves of the North Carolina mountains about Asheville. They laugh in their sleeves at folks who describe them as 'greenhorns.'"

"We had a one-armed fisherman in a valley in the Blue Ridge. He was not only good with a hook and line but could outswear anybody in his community. A Presbyterian preacher found him and became a fishing companion. Soon he tamed him and got him to give up cursing. But he was up to other tricks. One fall when the preacher joined him for a fishing frolic the mountaineer told him he came near losing his other hand."

"How was that?" asked the preacher.

"Why, I was trying to get a cartridge out of my old gun and it went off. "The ramrod became fastened in the barrel, and I had hold of it trying to shake it loose when the load was discharged. Of course I had a good grip on the rod, but it lifted me on my tiptoes three times before I could stop it."

Give us rain or oil to lay the dust, say the merchants.
