Mustache for Scott

The venerable Jim Scott of the Sar Francisco Seals is so proud of his age that this season he has grown a mus with gray, as are the hairs on Scott's head and the grayer the better Scott likes it. Meanwhile he continues to be a wizard on the hill for the Seals, old and gray as he is.

#### More Accuracy in Golf

by Follow-Through Shot The beginner at golf is told often about the follow-through, which means the completion of the stroke, even after the ball has been hit.

The correct follow-through is the end of the correct stroke. James Braid. one of the greatest players in the his tory of the game, says that it gives more distance and, of course, accuracy. And in golf accuracy is the big idea. Distance, attached to accuracy, is unbeatable.

#### Golf Pastime Requires

#### Jones in Hall of Fame

Bobby Jones, third sacker for the Detroit club, in a game against Chicago on April 30, accepted 11 chances in a nine-inning contest. This is not a record of total chances, but Bobby, when he handled nine assists perfectly, equaled the American league record in this respect, and his name will be in line with those of Terry Turner, Oscar Vitt and Buck Weaver, all of whom share in the honor. The best record in this line is held by Jerry Denny of old-time fame. On May 29, 1890, Jerry had 11 assists in a nine-inning game, and accepted them with ease and grace.

#### TY COBB REFUSES TO HEED TIME SUMMONS

#### Georgia Peach Not Yet in Bench Manager Class.

Tyrus Raymond Cobb, variously known as "the Peerless One" and "the Georgia Peach," is not yet in the bench manager class, despite his thirty-seven years and the thinning hairs on his head. Frequent predictions, first heard when he succeeded Hughie Jennings as manager of the Detroit Tigers two years ago, that he was through as a player, have failed of furtillment.

It is a different Cobb who guides the destinies of the 1923 Tigers from the player who flashed along the major eague horizon in 1905, gaining in brilliancy and renown until in 1911 he be .420 batter. The speed that gave Cobb a new major league record for stolen bases in 1915, with a total of 98, is wanting, but in its place has come craftiness, and because he had so much speed to lose, he still is a great outfielder, still a dangerous man on the paths.

At bat, he is the same "Peach." His eye seems as clear as in his earlier days when he was the bugbear of all pitchers in the league. He continues to meet the hall squarely and his faculty of driving the ball out of reach of the fielders seems greater, if anything; this year than ever.

From the start of this season he has ad the Tigers among the league leaders. Close fellowers of the game have seen in Detroit the principal men ace to the New York Yankees in this season's race. Cobb's heavy artillery is conceded to be the equal of the New York club's "murderers' row," and his pitching staff, considered the princlpal weakness of the club, has shown surprisingly well during the first month, the veteran Dauss especially appearing near the peak of his form. Some critics see Cobb may direct his club from the pench soon, in the acquisition of two slugging recruits. Fothergill and Manush, both of whom-have been used effectively this year, but Cobb smiles and continues to take his stand in cen-

A little neglect may breed great mischief. For want of a nail the shoe was lost, for want of the shoe the horse was lost, for want of the horse the rider was lost, being overtalen and slain by the enemy. All for want of a horseshoe nail.—Benjamin Franklin.

#### SEASONABLE SUGGESTIONS

To give variety and elegance to in-

than a wellstocked shelf of jams, jellies and preserves. This is the time of the year when we fillthe shelf. The following are a fer suggestions in re-

gard to the use of them: Any pudding like rice, bread, leftover cake or plain custard, is richer and more tasty when dotted with bits of jam or telly.

Milk toast is delicious served with blackberry or loganberry jam or jelly. A firm jelly may be cut into squares to use in fruit salads, or to decorate

cake frosting or ice cream. Jelly roll, jelly tarts, jelly dough-nuts and jelly omelet are all easy to produce.

Jams and jellies are good to serve on waffles or griddle cakes; piled with butter and jelly between, they may be cut like pie and served as desserts.

Rhubarb jelly is particularly good with ham. Grape, current, mint and pineapple jelly are served with meats. When serving game, a spoonful of urrant jelly added to the gravy makes delicious sauce.

Tiny baking powder biscuits, opened and spread with butter, then: vith jam or jelly, make a tasty hot sandwich.

Crush strawberries and mix with equal parts of sugar, stirring until the sugar is entirely dissolved, then can in tight cans and keep in a cool place. These may be used in winter for strawberry shortcake. If too sweet add a little vinegar.

Use rhubarb with various fruitstwo parts of rhubarb to one of fruit such as strawberry, pineapple or raspberry, will make a delicious jam, with not only the flavor of the fruit, but with the increase in bulk which the rhubarb gives.

Concentrate all your thoughts upon the work at hand. The sun's rays do not burn until they are brought to a focus.—Alex Balt.—

SUGGESTIONS AND RECIPES Necessity being the mother of in-

sweet milk to slice of ham for baking, used a cupful of buttermilk, Of course it curdled, but when the baking was over the am was delictously flavored and ten-

der. Potatoes were added and baked with the ham and the result was a puffy, brown, well-seasoned potato.

Small dainty sandwiches spread with butter, marmalade and grated cheese and placed in the broiling oven to become brown on each side, are delicious for either tea time or a late

Jungle Stew.-Seak one cunful of ing boil them in water to cover, adding salt when nearly cooked. Put a chonned: when the onion is brown add the beans with one-fourth of a can of tomatoes and one-fourth of a cupful of elbow macaroni. Simmer until the macaroni is done, season well and

Dutch Pot Pie.-Cut into dice a halfnound of smoked ham, fry slowly until well-heated through, then add six potatces sliced and three onlons, also add them to a kettle with three pints of boiling water. Cover with biscuits cut into squares and boli 20 minutes well covered. Parsley may be added if desired. Prepare the biscuit as usual, with either baking powder or sods and sour milk. A delicious his cuit (another discovery by necessity) made with buttermilk and baking powder is especially delicious as dump-

Queen of Bread Pudding.-Take one the yolks of two eggs, one cupful of sugar, a tablespoonful of melted butter and one-half of a lemon to ful or less of powdered sugar. Beat the white of the eggs very stiff; add two tablespoonfuls of powdered sugar: cover the pudding with a layer of the sugar and lemon fuice, then cover with the meringue and bake until brown Serve with cream if desired. This may be served hot or cold.

Salsify Soup.—Scrape twelve good-sized roots of salsify and throw them nt once into cold water. Cut into this slices, cover with one quart of water and cook gently for an hour until ten der. Add one quart of milk, two teaper and two tablespoonfuls of butter cut into bits. Turn into a tureen and serve with ovster crackers. For a more pronounced oyster flavor and a few pieces of soaked, shredded cod

## The KITCHEN Separate Blouses for Summer Wear

style orders to cleave to the onepiece dress, observes a fashion writer in the New York Times, she had to be a great deal more subtle about making one dress look like two. Indeed, of dressing.

Now the blouse of today is so perfected and beautified that it is almost out of the blouse class—that is, as we used to conceive the blouse. It is a the area of a whole dress. There are graceful thing of lovely lines, and Its design so blends itself with the skirt

Variation of Peasant Blouse, Made of White Silk, Smocked With Various Colors of Silk Threads. Also Simple Little Fold of Printed Chiffon Which Makes Sort of Fichu Tied in Back.

skirt being separate. You buy a new blouse under the new regime and behold, you have a new dress! After a while you see that that same blouse would take on a totally different aspect if it were to have a brand-new skirt to accompany it; and so it goes quite indefinitely until after a while you find yourself the proud possessor of a wardrobe the extent of which you had never anticipated.

You can at once see the economy of this scheme. Each separate expenditure amounts to nothing when compared to the outlay involved for a whole new gown or suit. And by the tion of blouses and skirts that in the

aggregate produces a worthy array.

It's surprising, too, how many different sorts of figures can wear these enerate waists and skirts to advanthoughtfully arranged, they have the that are left for the arms to go through combination conform to the demands

terested in the strictly summer things. move easily about their business.

woman who must dress on nothing a the skirts one has are all right—that year. She is given, once again, the they need only thinner, gauzler privilege of combining separate skirts blouses to make them complete for with separate blouses, and once this summer weather. And, again, how becomes her privilege in a fashionable satisfying to realize that will a black way then all sorts of combinations of silk skirt will last one indefinitely economy, plus beauty, immediately be- without cleaning, the blcuses can be come possible. While she had her refreshed regularly, giving one that sense of cleanliness which is all a part of the bargain in the sort of

The printed silk blouses of conre

are holding the right of way. And why it was not possible to nearly so great not? They have proved themselve degree as it is with this later mode more than satisfactory, and the brightness for which they are remarkable are so often more becoming and beautiful waist takes up rather than spread over all sorts of combinations of colors, suiting the most particular tastes. that there is no feeling of walst and those that are combined of a color and white-blue and white, black and white, red and white, or violet and white-are the ones which carry with them the coolest effects and impressions. They are the ones that almost make you feel cool when you look at them, and cer tainly leave that impression on all be-

holders. Most of these bleuses are made rather long of waist, and about the hips they are either provided with wide belt or are left to drape naturally to the figure, being tied on either side, with sashes or streamers emerging from and being part of the material that makes up the blouse. It is this hip line which is the most important thing about the blouse of today. If that is right, then the success of the costume as a whole is practically assured, but you must know that just at this poin lies the greatest danger of mak ing a mistake. It is here that you must spend your attention when you are suiting your figure to the mod ern style, and once you have accomplished that adjustment with artistry you are free to go ahead with assurance that the rest of the design will turn out well.

Needs Wide, Tight Belt. Now, for the girl whose hips are small, there is no question about the finish at the lowered waistline. She must have a wide, tight belt by all means so that, while giving her blouse a nice detail, she can at the same time show off her gracefully outlined figure. That is what the present style does for her. But as she grows wider at this point of her anatomy, then must she attend to the placing of the drapery in less conspicuous folds. And, to reduce the effect of the width of the line at the hips, it is always wise not to contrast too much they are of the same color or, at least of the same tone, then the line is not so clearly interrupted, and the costume as a whole, has a greater chance of a

gracefulness of effect.
Some of the girls, for their little sports blouses, are wearing those that are perfectly straight and that end in a short bobbed line across the hips, with no belt and no gathering in at that point. They are made of anything from white linen to white and with all the vast array of ratines and solidly woven fabrics in between. They are really fascinating with their emjudicious placing of \$5 here and \$10 broldered monograms and their plainly there, you can accumulate a collection finished edges. Some-have hemstliching at the seams and edges to give them an inconspicuous but important finish.

As yet the sleeves of these blouses tage. If they are well composed, and point of no sleeves at all, the slits those days than they do now in this tops of the arms. And when the of one's figure, and the restriction of sleeves are short they most certainly one's business or social activities. one's business or social activities.

Just now, of course, we are most into them than will allow the arms to

#### Plaited Blouses Have Call

Plaited blouses are all the rage, types of shirt waist and are worn for some of them seem to be just plaited strictly sport occasions with strictly straight pleces of material that are sport skirts. Then there are the little nut together at the shoulder lines, eaving the successions of plaitings to made in all sorts of new and interest fall as they will. This makes the blouse. Very often they have no sleeves at all, but the generous width necessary for the handling of the plaits falls softly over the arms in lieu of sleeves and with a most attractive air, especially for warm weath-

er clothes. Plaited blouses with plain skirts are good, while on the other hand plaited skirts with plain blouses make quite an excellent combination.

The knitted silk materials are being made into the most interesting sorts of blouses. The material, to begin with, is very heavy and lustrous. Then, it is woven often in tapestry effects, which look like a whole area of em-These blouses are as new as can be, and very much to be desired are, for instance, the little sleeveless jackets which fit over the more usual sary.

jacquette coats which, for summer, are ing cotton materials that can easily take the place of blouses while, all the time, they look enough of a cross between a coat and a blouse to be taken for either by those who do no draw fine lines of distinction when analyzing clothes.

The variety of combinations of colors is perhaps the chief charm of these waist and skirt combinations, for you can have such vivid touches of color in this way that your love of color is peculiarly well satisfied, while no one would think of accusing you of being too gaudy in your dressing. Your skirt, for instance, may be dark, your blouse of a vivid hue and then you can have a soft little black silk cape a mere wraith of a thing to over the gay color and to sub-

#### Sport Frocks Are Embroidered at Ends

Sport sashes for summer sport wear staple types at present emphasized in are of satin ribbon from seven to ten the market. Color range takes care of inches wide and age embroidered at dark and high shades embracing a taiends in oriental designs, Japanese, lored and a most party-like appear Indian and Egyptian being especially favored. Whatever the design, it is carried out most effectively with very narrow-plain or plisse-ribbon. The plisse ribbon is particularly adapted to the stamped design as it is decorative in itself and gives the effect of shirring without having to be shirred.

It is not generally known that ribbons can be cravanetted and that cravanette shops may be found in most towns of any size where the operation of making ribbons waterproof is performed on piece ribbon. For the woman who wants to appear well but sensibly dressed on rainy days the ribbon which has been cravanetted will prove smart and economical.

Hand embroidery and lace are naving a larger development in the sheer voile dresses designed for more formal which make you look exactly as it wear. Irish and filet combined with you'd been paddling about in a tub of solid and open-work embroidery are

Gay Colors Return. Colored cotton bedspreads are returning to favor. The gayly colored coverlet of olden days has its counterpart in the new season's produc-Very brilliant patterns are seen on the bedspreads of cretonne which are now appearing in the shops. Masses of grape-colored flowers, walllowers and orange tinted foliage make a striking design on hand-block printed cretonne to be used as a bed overlet.

#### Gold Stockings

London is getting all excited about some new stockings of gold tissue which make you look' exactly as if gold paint.

#### He found it in Valparaiso

#### Then he headed north and • found it up near the "jumping-off place"

No matter what part of the world you may find yourself in, few things make you feel more at home than to walk into a store and discover your favorite smoking tobacco for sale.

You get a great thrill from seeing your home newspaper in a strange land and an even greater thrill on meeting someone from the old home town. But tobacco certainly comes next in the order of importance in away-from-home thrills.

With your favorite tobacco in your favorite pipe, life is worth living in almost any corner of the globe.

This thought was inspired by the following interesting letter from Mr. W. E. Bromley, an Edgeworth smoker from Fort Wayne, Ind.:

Larus & Brother Co. Richmond, Va.

Gentlemen: In some of your advertisements from time to time I have noticed letters from different users of Edgeworth Smoking Tobacco and I wondered if anyone ever had a more varied experience than I have had.

when in Valparaiso, South America, I could get it; and when I was as far sorth as a map could well go without going to the "jumping-off piace," I could get Edgeworth Ready-Rubbed.

I have an old briar that I have had for ton years and it never had a crumb of any but Edgeworth in it.

.If that isn't going some, "you tell me."

Yours truly, (Signed) W. E. Bromley.

If Mr. Bromley makes frequent skips from continent to continent, his record of keeping all tobacco but Edgeworth out of his briar is indeed

noteworthy. Although Edgeworth does reach the far corners of the earth, there must be times when the supply runs low in Zanzibar and other remote districts.

But as a rule Edgeworth smokers, wherever they are, generally manage to find a way to get Edgeworth, for they don't feel as if they are really smoking unless the tobaccoomes from a literal comes from a literal co EXTRA (I)
HIGH GRADE
READYRIBBED comes from a lit
