LEGION IS AGAIN MAKING UP CHRISTMAS GIFT BOXES

Gift boxes for the American Legion are again being made up for the benefit of the community. The Christmas gift boxes are being made up by the Legion and are being distributed to the needy. The boxes are being made up by the Legion and are being distributed to the needy. The boxes are being made up by the Legion and are being distributed to the needy.

All citizens are urged to purchase gifts suitable for production to hospital patients. The boxes are being made up by the Legion and are being distributed to the needy. The boxes are being made up by the Legion and are being distributed to the needy.

Due to the tremendous task of scheduling all boxes to arrive at the various hospitals prior to Christmas, the final date for acceptance of the gift boxes by the local organizations will be December 10, 1945. We urge that you wrap early and turn your gift boxes in as quickly as possible.

Information from the various hospital authorities make it imperative that certain articles not be included in the gift boxes. The following are the items which are not to be included: candy, food, liquor, civilian apparel, magazines, games, scrap-books and need items.

Desirable gifts for men are: Pens and pencils, cigarette cases and lighters, handkerchiefs, and toilet articles, fishing tackle, writing kits, pipes, leather belts, bow ties, knives, watch straps, and pin sets, books, tennis balls and key cases.

Desirable gifts for women are: Many in fact anything a female hospital patient may use. A certain amount of money should be made up for women.

Each donor is requested to include a card of appreciation, and in order to make the boxes uniform they should cost between one and four dollars. The Legion Auxiliary invite your active participation in this great Christmas party for Michigan patients.

Mrs. Harry Van Moor, local rehabilitation chairman from where it will be properly handled until it reaches the bedside of the patient. You have made happy with a gift box.

Those guys in Detroit aren't the only ones to have their ups and downs. We had an able seat at the theatre Sunday night.

AN IMPORTANT DATE FOR
THOUSANDS OF ARMY VETERANS
NOW IN CIVILIAN LIFE

HIGHLIGHTS OF THE NEW
ENLISTMENT PROGRAM
1. Enlistments for 1, 2 or 3
years. (1-year enlistments permitted
for men with 6 months' service.)
2. Men enlisting receive their
present grades, if they enlist within
30 days after discharge and before
Nov. 1, 1946. The same applies to
men discharged between May 12 and
Nov. 1, 1945, who enlist before
Nov. 21, 1945.
3. An increase in the reenlistment
bonus to \$50 for each year of active
service since the bonus was last paid,
or since last entry into service.
4. 20% extra pay when overseas.
5. Paid furlough, up to 90 days,
depending on length of service, with
furlough travel paid to home and
return, for men now in the Army
who enlist.
6. Mastering-out pay (based
upon length of service) to all men
who are discharged to reenlist.
7. Option to retire at half pay for
the rest of your life after 20 years'
service, or three-quarters pay after
30 years'. (Retirement income in
30 years' service of First Sergeant up
to \$185.25 per month for life. All
previous active federal military ser
vice counts toward retirement.)
8. Bonuses of GI Bill Rights.
9. Family allowances for the
term of enlistment for dependents of
enlisted men who enlist or reenlist before
July 1, 1946.
10. One-half of branch of service and
overseas theater in Air, Ground or
Service Forces on 3-year enlistments.

"BEST JOB IN THE WORLD"
These special privileges are typical
of the new law recently passed by
Congress. Few opportunities for a
lifetime career offer as many attrac
tive advantages.
Can you think of any other job
that would give you good pay, your
travel, 30 days furlough every year,
education and training in any of
nearly 200 fields or trades, and
enable you to retire with a life re
tirement income after 20 years' service?
If not, why not? That's why a
job in the Regular Army has been
called "The Best Job in the World."

FREE ENTERPRISE APPLIED
FOR GOOD OF ALL PEOPLE

WHAT IS THIS free enterprise we
Americans have cherished since the
founding of our government? This
system, that way of life, those who
propose to "make America over"
would supplant with some form of
state socialism.

Free enterprise encourages the
farmer to improve his acre,
conserve his soil, that he may
produce more and better crops.
Old and bad improvement more
wealth is increased, and the
farmer has a more valuable
farm, a more valuable home.

Free enterprise encourages the
carpenter or contractor to build bet
ter and more attractive homes.
Those better homes add to our com
fort and pleasure of living; add to
the community and national wealth,
and increase the national wealth.

Free enterprise encourages those
of executive ability to organize pro
duction concerns in which free
enterprise encourages the people to in
vest. It means more factories, more
jobs, more production of commodi
ties and an increased national
wealth.

can even approach. From it not a
law, but all have profited. Free en
terprise may be defined in many
ways, but to me the most explicit
definition is encouragement of the
accomplishment for the general
good of all America.
The merchant who tells you he
wants your patronage so he may do
a greater volume of business, is not
the one who succeeds. The one who
shows you why it is to your advan
tage to buy at his store is the one
you patronize.

UNCONTROLLED INFLATION
DUE TO PRODUCT SCARCITY
THE VAST and extremely unusual
amount of currency in circulation in
the nation constitutes a smoldering
fire that could easily be fanned into
a flame of uncontrolled inflation. To
prevent that we must have commodi
ties in sufficient quantities to meet
the demand of those with money to
spend. Anything that delays recon
version, and the production of those
peace-time commodities is a grave
threat for all of us.

WHY ALL THE HURRAHING
for, or condemnation of, the
Wagner-Murray, so-called, full-
employment bill, S-2897? It does
not create a single industrial
worker job, though it may cut
down on the government pay
rolls a few thousand of those
now being a lot out. It is merely
congressional voting fraud subter
fuge to what congress has no
man authority to do without, as
it would leave with, such a law.

Unlimited gas is a grave threat to
what is left of those badly worn auto
s. Joy riding was out for so long
because of no gas that the family is
now making up for those long lost
pleasures. They are again going
places, even taking delayed vaca
tion trips to far away points. Worn
tires are putting the price, and it
is quite possible that some vaca
tionists may walk home. With
out tires the auto situation can be
worse than it was without gas.

You can always do this...
If your home has been plunged into gloom by
bulbsnatching (the habit of robbing one light
socket to fill another), you can always take
your chair out in the driveway and read by the
headlights of your car.
But it's a lot simpler to go to the store and buy
enough lamp bulbs to fill all the empty sockets
in your house and have enough left over for a
good supply of spares.

DANGER POINT
The old fable of the last straw that broke the camel's back is too
familiar to need repeating.
But it's worth remembering in connection with your Telephone
Company. Some people may say: "Michigan Bell's doing a lot of
business—taking in a lot of money. Let's tax 'em—cut their rates."
Michigan Bell is handling the biggest volume of business in
history, is taking in more money than ever before. But costs have
gone up faster than income. Higher wages, higher taxes, higher
material costs—and rate reductions—have cut net earnings far
below the pre-war rate, far below the average of other industries.
When earnings become insufficient, you don't notice any im
mediate effect on your telephone service. But, like the camel's
back, there is a danger point—a point beyond which earnings that
are too low will jeopardize the quality of service.
Michigan Bell customers want good service. The telephone
bill is so small an item in their regular expenditures that customers
want really good service even though it might cost a trifle more
than they would need to pay for inferior service.
To again provide telephone service when it is wanted and where
it is wanted, to give the quality of service you want in the future,
Michigan Bell is undertaking a post-war construction program cost
ing \$120,000,000 in the next five years. Money to finance that
program must come from the savings of thrifty people who are willing
to invest in Bell System securities. But, if prospects for future
Telephone Company earnings are unattractive compared with
those of other companies, people will place their savings elsewhere.
The future quality of your telephone service depends on tele
phone rates sufficient to produce earnings attractive to investors.
Too long a continuation of inadequate earnings would weaken our
ability to meet expected post-war telephone needs.

PERFECT GOODBYE
MOROLINE
SAY GOODBYE TO BRONCHITIS

How To Relieve Bronchitis

Creomulsion relieves bronchitis by its action on the mucous membrane of the throat and chest. It soothes and softens the inflamed tissues, loosens the mucus, and helps the lungs to breathe more freely. It is a natural, non-toxic preparation of cod liver oil, and is suitable for all ages.

THE FRONT PORCH: Adam mused, department of justice operative vacationing in the Northampton hills, where he had recently been, and Mrs. Tope, his wife, Inspector Tope, and Mrs. Tope. He thought that the Tope case had been settled at Dewain's Mill, operated by Mrs. Tope. Adam mused, department of justice operative vacationing in the Northampton hills, where he had recently been, and Mrs. Tope, his wife, Inspector Tope, and Mrs. Tope. He thought that the Tope case had been settled at Dewain's Mill, operated by Mrs. Tope.

CHAPTER II
While Tope began to get out the bags, Bee and Mrs. Tope approached the cabin and the girl produced a key. Then, as she tried the knob, she said, in a surprised tone, half to herself, "Why, that's funny! It's unlocked!"

"You see, I had all the furniture built in. It's cheaper than buying. Tope set down the bags, and he saw beds and set along one wall, and a chest of drawers beyond. The beds appeared to promise comfort. The carpenter had built frames to support the springs and stretched these frames down to the floor, so there was no chance for dust and dirt to accumulate underneath. There were windows in front and rear and toward the brook; and a small table and two chairs were ready for the match, and kindling and a crumpled newspaper under them on the clean hearth upon which, clearly, there had never been a fire.

Said Bee Dewain: "I'll never be a detective. It seems stuffy. Would you like a glass?"
"I think so," Mrs. Tope agreed. "It may turn chilly."

Tope crossed to touch a match to the paper under the kindling; but as he stooped down, he noticed something lying on the hearth, and he saw it was a thing of no apparent importance. Another man, even though he saw it, would have discovered in this object no implications at all. It was simply a match which had been lighted and allowed to burn down till only half an inch of unburned wood remained.

Tope's eye was caught by this match, almost completely burned, and he saw two or three more, lying here and there. He had an old habit of noticing unimportant things; so now before he lighted the fire, he searched in the kindling and in the crumpled paper and on the hearth behind and beneath the logs, till he collected eleven matches which had like the first been lighted and burned almost to the ends before they were thrown away.

Bee Dewain was saying: "And supper will be ready at seven o'clock. Now if there's anything else you want—"
"You say we're the first ones to occupy this camp?" Tope asked mildly.
"The very first," Bee assured him. "I do hope you'll be comfortable. I'll turn to the door. When supper's ready we'll ring a bell. You'll be sure to hear it!"

As the girl's steps passed out of hearing, Mrs. Tope said: "Oh, we forgot to give her the message from Adam Bruce."
"I was thinking of something else," Tope confessed; and he asked: "Need anything more out of the car?"
"Not for just one night," he suggested, and she smiled.
"Because a brook runs past the house," Tope said.

"When I see a place that looks funny, I always want to try it out." Instead of using matches, he persisted, in a deep abstraction; and Mrs. Tope looked at him with a discovery new to her in his every day, she remarked, "but you've unsuspected virtues, too! It's time you quit detecting at your time of life, my dear. What are you wondering about now?"

He hesitated, said at last: "Why, these? I've noticed them, but I haven't had time to look at them. I've had lunch with him in Middleford today. He said he'd stop here just yesterday. He sent you his love!"
"Why not?" she protested, amused. "Probably the carpenter threw them there, when they were finishing up the cabin."
"They wouldn't be working at night," he insisted.

"At night?" Of course not! Just they'd be smoking, lighting pipes and things."
"That's all right," Mrs. Tope said. "I'll be in the kitchen door, and Bee will be in the room."

Inspector Tope turned with Mrs. Tope toward their cabin. It was called Cascade. On the stoop, he paused and looked around. Dusk closed then from every view. He made sure of this; and he said in a low tone:
"Go inside, my dear. Talk, turn on the light. Draw the blinds. Read aloud. I'll come soon. I'll be waiting for my report on the report of the girl."

Mrs. Tope was half impatient with this mystery, and half alarmed. She looked at him in a way that obeyed him. She went in, and drew the blinds. Then in sudden haste—she switched on the lights, and found a magazine in her bag and began obediently to read aloud. Alone in the cabin, her voice went monotonously on and on.

WHY ALL THE BURNING FOR, or condemnation of, the Wagner-Murray, so-called, full-employment bill, S. 308? It does not create a single industrial worker job, though it may continue on the government payroll a few thousand of these now facing a lot of it. It is merely by congress voting itself authority to do what congress has as much authority to do without, as it would have with, such a law.

UNCONTROLLED INFLATION DUE TO PRODUCT SCARCITY

THE VAST and extremely unwise amount of government expenditures in the nation constitutes a smoldering fire that could easily be fanned into a full-blown conflagration.

UNLIMITED gas is a grave threat to the life of those who are now auto drivers. Joy riding was out for so long because of no gas that the family is now making up for those long hard hours. They are again going places, even taking delayed vacations. Let me give it to you in order, Adam," he explained. "So I'll get it straight in my own mind."
