#### IN THESE UNITED STATES

#### Badger Is Known as the 'Co-Op' Town of Iowa

By E. L. KIRKPATRICK
WNU Features.

It's as easy to say as "Buster has the mumps." In fact "Co-operative" should be either the first or last name of the little town of Badger, Iowa, (population of less than 400 in 1940). The first co-operative program in this center of Lutheran background was the stock and grain association, started almost 40 years ago.

Although this organization met@ with difficulties and opposition durwith difficulties and opposition during the first few years, it survived by realizing its advantages of cooperation as a community builder.

By 1914, the association had been Dentist After reorganized as a Farmers Grain Elevator company which has operated efficiently and successfully SUMNER. WASH.—Most

ated efficiently and successfully ever since.

Another venture of long standing is the Co-Operative Telephone company which has been going for more than a quarter century, and then a petroleum co-operative organization in 1930 with a capital of \$6,000. The latter firm does hundreds of thousands of dollars worth of business annually, since it deals in farm machinery as well as petroleum products.

chinery as well as petroleum products.

A Co-Operative Bank.

Another similar development is the co-op credit union started in 1939 "out of necessity, to provide the Badger community with needed banking services." Although opposed by the banking interests of Iowa at the outset, this group persisted wisely, although slowly, until the bank which it operates is one of the safest and most stable in Iowa, according to the state bank exampler.

SECRECY PREVAILS

#### Ships Regrouped for Second Atomic Test By WALTER A. SHEAD

HONOLULU, OPERATIONS CROSSROADS - With much attendant secrecy the target fleet in Bikini lagoon has been regrouped for the second atom bomb test scheduled for July 25. Although most of the correspondents have returned the States, several made application to remain in Bikini during the interim so they could cover the arrangements being made for the second test. This request was refused by the navy, however, and all newspaper men were ordered to proceed to Kwajalein, where they were either transported

mmediately by air to the States or to Honolulu, or were housed aboard the press ship Appalachian. In the meantime the Appalachian made a leisurely trip to Pearl Har-

bor where she underwent some mi-nor repairs, and now is proceeding back to Bikini, where she is sched-uled to arrive on B-Day minus 1, or Nearest Center.
It has been announced that ships It has been announced that ships nearest the bulls-eye of the second test will include the battleship Arkansas, the heavy cruiser Pensacola, the Jap battleship Nagato, the aircraft carrier Saratoga, the destroyer Mayrant, the submarine Pilotfish, the transport Fallow and a tank landing ship.

It may be that the Pilotfish will be nearest the bomb burst, which, as has been announced, will be an underwater detonation. Other ships of the target

be absorbed by the water and that, although there is danger of light ships capsizing, the larger ships will merely roll with the water and their eavier underwater armor will not e damaged. They predict the

eavily armored ships will not suf-

neavity armored ships will not still fer as much underwater damage as could be indicted with a torpedo. This is all in the realm of specula-tion, however, and the navy remains mum about its own expectations. In discussions aboard the Ap palachian among scientists and off-the-record comment by na val officers, there is some rea

house agriculture committee recently called on President Trumax
to plug for the Flannagan - Hope
farm research bill. However, not
much plugging was necessary.
Anderson opened the White House
meeting by combinating the impor-

busy." However, the educators had no trouble seeing Gregory's boss, President Truman. Further. Tru-man's callers were definitely as-sured that steps would be taken to provide schools, colleges and uni-

versities with more war surplus.

They informed the President that approximately 2,000,000 American youths would seek education next fall in colleges alone. Of these, about \$70,000 will be World War II vets. Unless schools are given a "fair and reasonable" access to war surplus goods — laboratory, classroom, cafeteria and kitchen facilities, electronics equipment, visual aids and other items — a great many of the students cannot be accommodated.

"Education cannot afford to go versities with more war surplus.

France agrees to discuss, at the same time, internationalizing the vital Ruhr basin.

willingness to go along.

aimed at finding new uses for farm products and improving marketing.
"The bill already has been called to my attention," the President said immediately. "I have looked into it and I am in favor of appropriating whatever money is necessary."

A primary aim of the bill is to do way with such marketing bottlenecks as caused large acreages of cabbage and lettuce to be plowe under recently in North Carolina.

TRUMAN'S VETO differ as to whether President Trú-man was right in vetoing the price control bill, but he personally has not changed his mind a bit. When e arrived on Capitol Hill for the toosevelt memorial service, Tru-Mosevelt memorial service. Tru-man was greeted by his old friend, Kenneth Romney, sergeant-at-arms of the house. As they shook hands the Fresident quipped: "I didn't know whether you folks

that OPA oill. And your veto message hit the nail right on the head. You did the right thing, in my opinion." "I couldn't do anything else," replied the President with chin-se

EQUIPPING U. S. SCHOOLS When a committee representing the leading national educational organizations tried to see War Assets Chief Lt. Gen. Edmund B. Gregory about getting surplus equipment for American schools, it received two brush-offs. Once Gregory had been "called out": another time he was "too busy." However, the educators had

"Education cannot afford to go nto the commercial market for what we need — and need drasticalot have the money," asserted one

This which are not badly stained can be polished well with brown paper that has been moistened in vine and the French have now started to weld western Germany has not economic unit. The move may end up by uniting into one anti-Russian sector, with the rest of Germany under the hammer and sickle.

The morning beach stroll and baby-tending chere are easily combined by this paps at Nag's Head, N. C. He took the baby's auto seat suff of the ear and histed it non his shoulders. The idea was copied from packs brought to America by war brides.

The war department has in the rest of Germany under the hammer and sickle.

156,000 Telephones Installed

in Michigan in 6 Months...

But 100,000 families are still waiting

As the second half of 1946 gets under way, there are still 100,000 families waiting for telephones. Of these, 49,000 have placed their orders filled at the earliest possible

\* Long Esstance lines and critichboards seeding Michigan resort areas are extra busy this summer. On calls to and from those areas, you'll get better service by avoiding the rush hours—10 A.M. to noon and 7 to 9 P.M. Keeping calls brief will help too.

MICHIGAN BELL TELEPHONE COMPANY

200 exchanges to give service to everyone who has ordered a telephone.

for service received before January 1, 1946, can be filled by the end of the year. In some areas, of course, we expect to com-

plete many orders received this year, but it may be late 1947 before we can return to a "ready-to-serve" basis everywhere.

Meanwhile, we are loading our present

equipment far beyond its normal capac-ity, to shorten the wait for as many folks

as possible. This may affect the quality of service for the time being. But normal

service will return as we install the needed

lines and equipment.

We now hope that most of the orders

Severe shortages of lead, copper and other materials which go into telephone equipment have upset our time-table for clear-

Even so, during the first half of this year, Michigan Bell

Installed new telephones at the fastest rate in its history — an average of 26,000 per month.

But also received new orders at the fastest rate is history—an average of 27,000 appli-cations per mosts.

Added 340,000 miles of wire and installed enough additional central office switching equipment to serve 50,000 new customers.

Cleared waiting lists in 27 Michigan Bell exchanges.

their orders since the first of the year.

ing up waiting lists.

#### ... And WE WERE ALL SET TO DO A BIG JOB ON RURAL LINES

Yep, if it were not for those "circumstances beyond our control" which you have been reading about in the papers, maybe by now we would have the materials and manpower to extend our service to you folks who have asked for it.

Of course, we are building lines but our progress is nowhere near the goal we had set. Poles, transformers, wire and almost every other item entering into a line construction job are still mighty hard to get. We know you understand but we want to thank you for the patience you have shown and to assure you that we are doing out best to rush our rural extension program toward completion.

Jimmy Durante at Yale Jimmy Durante was a guest at

Yale commencement exercises other day. The Yale classic feethe other day. The vale classic res-tivities coincided with the opening of Jimmy's latest movie "Two Sis-ters From Boston" in the college town. Both Yale and the picture people made the most of it. No re-sult was announced officially, but say Yale lost another \_\*\_

Believe it or not, the class of 1911
adopted Durante. And in one of the
class continues "The Schneuze"
paraded in the traditional commenocement parade, did his stuff at
the annual ball game and was photographed being welcomed by Pres.
Charies Seymour of Yalo and Mrs.
Revment, a distinction has record-Seymour, a distinction not record-ed by the photographers in the case

Proving that by the scale of cockayed values existing in this screw-ball age there is no limit to how far a radio celebrify and Hellywood NANCY

BEEN HINTING FOR

star may go. News that Jimmy Durante would be a Yale commencement figure drew out greater crowds than any commencement in years and there are those who insist that the closing line of the famous old Yale theme song was rendered "For God, for Country and for the Schnozzle."

"I never realized them Yale souts was even watchin' me," said Jimmy. "I admit I never stopped Harvard or Yale, but on the other hand I kept Notre Dame

---\*---"I was always a Yale man at heart, even if my soul belonged to the University of Hard Knocks and my body to good old Crossley Ratings. Blue is my favorite color and I'll see that it gets a break in television.

"I was cut out to be a college man, but in my youth I could never get much practice in punting and drop kicking on account of them low coilings in Greenwich village nighteries. My first words as a baby were 'Boola Boola.' I was christened James but my folks called Fills for chert and I was abortne Elihu for short. And I was short-

"Yale was in my blood. I could feel it thumping there, but not getting nowhere. Maybe it was on account of the good blocking by Har-vard and Princeton.

"I wanted the higher education but I was particular. I said it's Yale or nuthin' with me. Yale lost that one too!"

CAN YOU REMEMBER-Away back when you took it in the right spirit if somebody offered you a dollar? \_\*\_

Love and Flagpoles America must be getting back to
