HILLSDALE FAIR OPENS ON SUNDAY

The gates to the 50th annual Hillsdale County Fair in Hillsdale swung open Sunday, Sept. 22, with a religious program sponsored by the Hillsdale County Council of Churches.

Harry B. Kelley, fair secretary, announces that everything is in readiness for what may readily be the largest and most successful in the long line of Hillsdale fairs. All exhibit and concession spaces were taken weeks ago. Higher purses for the athletic events, more premiums for livestock displays and additional allotment for entertainment assure patrons of the best in attractions.

Nothing has been left undone to make the fair pleasant and comfortable. Through cooperation of the Michigan state health department and Dr. Moech and his Hillsdale county health department the grounds will be sprayed with DDT to clear away insects. Dust has been reduced to a minimum with seal coating applied to the black-topped roads and paths within the fairgrounds.

A new fence and gate have been erected at the north end of the grandstand, a new and enlarged free auto stand and the stage in the Women's Congress building redecorated besides the painting of many of the fair buildings.

SOME HIT AND SOME MISS

Last Thursday night about nine o'clock Albert's gas pump was removed from its station in front of the garage by one of the younger motorists about town who lost control of his car when he hit a bump in the middle of Duncan street, while coming from the south on Adrian street at too great a rate of speed to control the car. A little later that evening the flasher on the crossing near Hill's Coal yard was sabotaged by another motorist who was doing 30 miles an hour when he hit it. Several people who reside near the school have been wondering how long before some of the younger set were going to crack up. Then too, we have submitted the no parking signs set on their sturdy iron posts on the cross walks, and also the cars that are usually parked in front of them.

Monday evening after Council meeting we were talking to the Village President and wondered out loud when the long pending problem of a traffic enforcement officer in the village would be settled, but he stated that he couldn't see anything about conditions. We asked when we were to have some sort of traffic officer, but he said that all that was available was a part time deputy which was not satisfactory to the Council. The sheriff's department had promised to send over a cruiser on Wednesday and Saturday night. Joe Stahl won't bother anyone on either days. During this conversation we noted that said Village President's car was standing in the street some 40 feet from the curb in the intersection with the lights out, but he stated that it is a private vehicle.

But the fact remains, as it has for some time that only provisions has saved some innocent person or persons from becoming the victim of what could be called negligence on the part of the village, but if procedure runs true to form, nothing will be done until after something happens that makes action imperative.

BE SURE TO VOTE ON AMENDMENTS

With two important amendments to the state constitution and a \$270 million veterans' bonus plus the election of state and congressional and a United States senator, coming up Nov. 5 for a ballot showdown, thousands of Michigan citizens in cities, villages and townships of less than 5,000 population may lose their right to vote on these issues.

"Why? There's no dictatorship in Michigan" you reply.

Vouchsafed for by Secretary of State Herman H. Dignam, the statement still stands. All citizens now residing in cities, villages and townships of less than 5,000 population must re-register by October 15 with the town clerk.

If any citizen fails to re-register by Oct. 15—the last day—he cannot vote on Nov. 5.

"Act 291 of the Public Acts of 1945 provides for permanent registration in all townships, cities and villages regardless of population," states Secretary of State Dignam.

Permanent registration of electors is now mandatory in all election precincts in Michigan. In 1931 the state legislature amended the election law to require permanent registration of voters in all townships and cities having a population of 5,000 or more. The 1945 legislature extended this provision to governmental units of less than 5,000 population.

Failure to vote within a period of two years will automatically cancel registration unless application for continuation is made within 30 days from receipt of notice from the clerk.

Education Views of Michigan's two party nominees for governor Murray D. VanWagner and Kim Sigler—were solicited recently by the Michigan Education Association.

Ballot proposal No. 2 at the Nov. 5 election would divert one-half of the state sales tax to local governments and would "freeze" into the state constitution a formula for state aid to public schools. Based upon the 1945 tax collections school state aid would be increased from \$60,000,000 to \$100,000,000 a year.

Van Wagner's statement to the M. E. A. whose membership comprises school teachers points out the "crux of the entire issue" is the "restricted narrow local tax base" of the 15-mil tax limitation which was put into the state constitution in 1932.

"Enabling legislation is needed for broadening of local tax base, both to give the municipalities badly needed funds, and to encourage democratic self-government at the local level."

It is the opinion of Van Wagner that "sales tax funds, subject to fluctuations in amounts from year to year and subject to demands of other governmental agencies, provide no firm or lasting base for a constructive and progressive school aid program."

"Consolidation of small, inefficient school districts is one of the most crying needs in any overall solution to our school problem," states Van Wagner. "Hundreds of school districts in Michigan with 15 or less pupils, simply point up this wasteful, inefficient phase of our educational picture. In further evidence of my good faith toward a betterment of education, I appointed, as Governor in 1942 a State Public Education Study Commission made up of the best cross-section of urban and rural educationally equipped for the Village President."

But the fact remains, as it has for some time that only provisions has saved some innocent person or persons from becoming the victim of what could be called negligence on the part of the village, but if procedure runs true to form, nothing will be done until after something happens that makes action imperative.

The man who does not work for the love of work but only for the money is not likely to make money nor to find much fun in life.

TITO DEAL EXPOSED
WASHINGTON. — When the full details of the Tehran conference are told, they will show that after Josef Stalin and Winston Churchill finished dividing up the Balkans...

So at this point, Stalin gave his friend Churchill some advice. The Adriatic coast of Yugoslavia, and the Balkans, which Britain is especially interested in, he said, are Croatian, Serb, therefore General Mihailovich, a Serb, was the wrong man to run Yugoslavia. Instead, Stalin offered Churchill his man Tito, a Croat.

TITO SHOWS HIS TEETH

When Dictator Tito fired on U. S. airplanes recently it was not the first time he had shown his teeth. His first military display of force came toward the end of the war as relations between himself and the British began to cool.

One night Tito's headquarters were raided by a Nazi airborne division and the base escaped. It so happened that on this particular night, Randolph Churchill and all other Britishers left Tito's headquarters for the first time in two months.

The war was behind him with rage and suspicion, figured the British were out to double-cross him, and shortly thereafter flew to Bari, Italy, then headquarters for refugee Yugoslavs.

As Tito's plans failed, several hundred Yugoslavs armed with tommy guns surrounded him. No British official was allowed anywhere near their chief. Later Tito was invited to dine with Gen. Sir Henry Maitland Wilson, British commander in the Mediterranean.

Next day he flew to Bucharest, conferred with Russian officials, then returned to Yugoslavia. His cooperation with the British was absolutely dead. He was now openly working for Russia. Meanwhile the United States had poured millions in lend-lease material into Tito's hands.

Shortly after that, when British commands landed at Split on the Yugoslav coast to try to lead off the German army, Tito's men disarmed the British and sent them back to Italy.

A REPORT ON PROGRESS IN MANCHESTER There are still a number of people waiting for telephones in this area. Before we can serve everybody, we'll need more outside wire and cable to connect new customers' premises with the central office. But shortages of lead and copper have seriously slowed their manufacture. Meanwhile, our facilities are serving more telephones and handling more calls than ever before, which means that service for everyone may not always be as good as we want it to be. We're sorry when that condition occurs, but you can be sure that we are doing our best to get additional equipment as soon as possible.
