## EXCHANGE CLUB HEARS REV. BRYCE

The Manchester Exchange Club held their meeting Sept. 23 at which meeting five new members were taken into the club. The new members are Allen Luckhurst, Henry P. Eames, Samuel Shore, Thomas Walton and Claude Lavender. Exchangee Howard Higgins introduced five guests including Rev. Herbert Bryce of Albion, Mich. Exchange Club who was the speaker of the evening.

Included in Rev. Bryce's talk were recollections of his 9-12 years experience as Chaplain of Marquette prison. Several verses of poetry from his own pen added an interesting note to his speech. The chairman of the Manchester Athletic Field Lighting project, Walter Schauble reported that of the \$7400 needed to finance the project over \$7000 in loans and gifts have been pledged by people of this vicinity. He reported further that the field would be lighted for the home football opener with Brighton here on Friday Sept. 27. Plans are made for an eventful evening with \$300 in prizes to be given and some 1,000 spectators expected.

## METHODIST WOMEN SOCIETY MEETS

The ladies of the Methodist church held their regular meeting which was followed by a membership birthday supper. Twelve tables were arranged each representing one of the twelve months of the year. The hostess of each table gave an interesting contribution to the program. Each hostess was responsible for her table decoration. There were 62 members and guests present. The oldest member present was Mrs. Sibby who was presented with a lovely corsage. The month of September was represented with the greatest number of birthdays.

Mr. and Mrs. Fred Decker of Tawas, Mich. were the guests at Mrs. Martha Dretnie's home. The Pleasant Lake Grange will meet with Mr. and Mrs. John Hohenberger on Friday Sept. 27. Mr. and Mrs. Earl Stewart and Miss Repe Harnswald of Dearborn called on Mrs. Marta Breton on Tuesday.

## PRESS ENDORSES AMENDMENT TWO

Public education in Michigan is critically in need of funds. The sales tax amendment would guarantee schools revenue for a reasonable program," states Dr. A. J. Phillips, executive secretary of the Michigan Education Association.

"The Board of Directors of the M. E. A. speaking for its 31,000 members, has unanimously endorsed proposed constitutional amendment No. 2 because it offers the only immediate source of sufficient funds to save schools from further curtailment," continued Dr. Phillips.

"Providing a good program of education for the million children enrolled in Michigan public schools should be of concern of every citizen. Schools suffered during the war period, and their plight has grown worse instead of better. Good teachers are not returning from other jobs, and new candidates are not entering the profession because teachers' salaries have not kept pace with increases in living costs.

"The housing situation is just as critical for children in many schools as it is in homes. Crowded rooms, classes in basements, and half-day sessions are creating a large number of children out of a good education. These conditions, plus antiquated heating and ventilation systems are endangering the health of many pupils.

"It is estimated that the sales tax amendment would guarantee at least \$80,000,000 of state aid to schools (about \$60 for every child enrolled in public schools) during the next school year. That amount would go a long way toward meeting current needs for salaries, supplies, equipment, and more classrooms.

"A very conservative estimate places the immediate need for state school aid at not less than \$104,000,000 annually. This includes \$86,202,403 for the operation of schools, which includes salaries for the 50,000 teachers and non-teaching employees, supplies, equipment and school maintenance. The amount would pay salaries comparable to the standard set up by the State Civil Service for teachers in state institutions of less than college level. It would increase wages of other public school employees to levels in keeping with present costs of living and equal to wages paid workers in comparable fields.

"These amounts leave a total balance of \$18,200,000 as a start toward school building programs. During the war period, from 1939 to 1944, the average annual expenses for capital outlay (such as building expenses) was only \$5,140,000. This was a tremendous drop from the average annual expenditure of \$23,400,000 during the period from 1923 to 1928.

"If we allow \$18,200,000 as the additional amount needed for school buildings next year, we are anticipating to more than we spent annually during the more normal period of twenty years ago. "A recent survey by the State's Department of Public Instruction shows an immediate need for additional classrooms which are prevailing prices would cost at least \$62,701,000 to build.

To summarize: Estimated state school aid needs for the current school year for salaries for all public school employees and needed supplies and equipment is \$81,820,000. Average annual additional school building needs is \$18,200,000. This makes a total of \$100,020,000.

There is no need to fear that the amendment would prevent the state Legislature from continuing a formula of school distribution to equalize school opportunities throughout the state. The amendment would guarantee to public schools annually from the general fund of the state an amount equal to the preceding fiscal year, in addition to one-sixth of the current sales tax amendment would provide.

"Neither is there any basis for fear that essential services of state government would be curtailed. There is every reason for believing present and future revenues from the sales tax, plus various other sources of income for state government will be sufficient for reasonable needs for other state institutions, and other state agencies and services.

"Education is the biggest and the most important business in which the state is engaged. Proposition No. 2 will provide enough state aid which together with local taxes for schools could finance a good program of education for Michigan's million boys and girls. We could afford billions for war. We can afford \$100 per school child in state aid for education.

To those who eagerly await their new Chevrolets... Here Is the Latest News about Chevrolet Deliveries Everybody from factory to dealer is doing everything that can be done to speed deliveries to you We have been informed by the Chevrolet Motor Division that the past month has witnessed only a slight improvement in the rate of production of new Chevrolet passenger cars. As a result, shipments of new cars to dealers for delivery are still far below the level we and the factory had hoped to attain by this time. In fact, through August, Chevrolet's output of cars in 1946 was only 22.6% of the number turned out during the corresponding period of 1941. We know that Chevrolet is doing everything possible to step up its production totals—to ship more and more cars to us and to its thousands of other dealers throughout America... and we know, too, that we are assured of getting our full proportionate share of the current output and of future production gains. Disappointing as the total figures have been—and despite the fact that Chevrolet was out of production entirely during the first three months of the year—it is nevertheless true that Chevrolet led all other manufacturers in production of passenger cars during June 1946, and has continued to maintain its lead in total production from that day to this. We shall continue to make deliveries of new Chevrolets to our customers just as fast as we receive them; we regret delays as deeply as you do; we thank you for your friendly patience and understanding; and we promise you a new high motoring experience when you take delivery of your new Chevrolet, giving BIG-CAR QUALITY AT LOWEST COST! KEEP YOUR Present Car Alive Meanwhile, may we suggest that you safeguard your transportation by bringing your car to us for service now and at regular intervals. Let us help you to keep it in good running condition—to maintain its performance, appearance and resale value—until the day when your new Chevrolet comes along. COOLS TOWARD PRESS WASHINGTON—Newsmen probably won't write about it but President Truman's Bermuda trip climaxed a significant change in his relations with the press...

Several weeks ago the President invited the boys to an evening on the yacht Williamsburg. They played pool, drank bourbon and generally let their hair down...

His remarks were not complimentary. Truman missed as words about either Berlin or the Russians and it was hard to say which he liked least...

Shortly afterward, Time magazine published a brief account of this very confidential evening. Blame for the leak fell upon Edward Lockert...

Later, the Chicago Sun's Tom Reynolds, no member of the club, wrote another account of the President's off-the-record remarks...

So from now on the chief executive has decided not to be the naive and trusting president he once was...

**SET YOUR SIGHTS**

**It takes planning to achieve a goal**

Some young men know what they want and plan for it. Others are still looking for their niche. The new Regular Army can help both. Perhaps you want to go to college but can't afford it. If you enlist in the Army, you'll get your chance. Honorably discharged after a three-year enlistment, you are eligible for 48 months of education at any college, trade, or business school for which you qualify. The Government will pay your tuition, laboratory fees, etc., up to \$500 per ordinary school year, plus \$65 a month living allowance—\$90 a month if you have dependents.

If you haven't found your spot, an Army enlistment offers you training in any of 200 trades and skills. You leave the service eligible for further training at the best civilian schools.

You can assure yourself of the benefits of the GI Bill of Rights if you enter the Army on or before October 5, 1948. See your nearest Army Recruiting Station for details.

- HIGHLIGHTS OF REGULAR ARMY ENLISTMENT**
1. Enlistments for 1½, 2 or 3 years. (3-year enlistments permitted for men now in the Army with 6 or more months of service.)
  2. Enlistment age from 18 to 34 years inclusive (17 with parental consent) except for men now in the Army, who may reenlist at any age, and former service men depending on length of service.
  3. A reenlistment bonus of \$50 for each year of active service since such bonus was last paid, or since last entry into service, provided reenlistment is within 3 months after last honorable discharge.
  4. A furlough for men who reenlist within 30 days. Full details of other furlough privileges can be obtained from Recruiting Offices.
  5. Maternity pay (based upon length of service) to all men who are discharged to enlist or reenlist.
  6. Option to retire at half pay for pay after 30 years' service. All previous active Federal military service counts toward retirement.
  7. Choice of branch of service and overseas theater (of those still open) on 3-year enlistments.

**From where I sit... by Joe Marsh**  
**Going Fishing? Here's How!**

Each had used his favorite kind of fly, his favorite rod and his favorite place to cast. So over a friendly glass of beer, they discussed how maybe they were both right... which is how so many arguments should end.

From where I sit, if we all respected one another's different opinions—whether about trout flies, or drinking beer, or voting, life would be a whole lot pleasanter.

But on Saturday, each got back from Seward's road, with a catch that couldn't have differed by more than several ounces!
