STILL PLEADING FOR VOTERS TO REGISTER

(By Gene Aikman)
This week has been proclaimed "Registration Week" in Michigan by Governor Harry E. Kelly. Laggard citizens who have not registered in compliance with the new state law, affecting communities or townships of less than 2,000 population, have until next Wednesday (October 18) to do so. Failure to re-register with the town clerk by October 18 will automatically result in forfeiture of the right to vote.

Prospect That 150,000 to 200,000 rural voters will be disfranchised on election day, November 8, while Detroit and Wayne County registrations will reach an all-time peak. Try to explain that.

Senator Arthur H. Vandenberg, who is now in Paris as a consultant to Secretary of State Byrnes, made an interesting comment about Democracy in a recent letter to his son, Arthur H. Vandenberg, Jr., now in Grand Rapids.

"One of the things we are struggling over here is, possibly Europe is to get FREE BALLOTS into the hands of free electors," wrote the senator. "Upon our success in this regard may well depend the fate of several European countries. In our own democracy it is no less true that the fate of the nation depends upon free ballots in the hands of free electors. But there are no use unless the electors do their part."

Funny, isn't it, how we Americans go off to war to protect our freedom and then dilly-dally about it when we possess the right to exercise that freedom—the right to vote?

Don't be surprised if the old recommendation to reduce the state sales tax from 3 to 2 1/2 percent is started off during the 1917 state legislative session. We understand that the proposal, once rejected by the state tax study commission, is being seriously considered. Reason: Cities would be given the right to levy a one-half cent local tax.

Was it hell, of course, but how about traffic accidents?

Believing or not figures: August traffic deaths increased 40 percent over August 1915. A total of 551 persons were killed in Michigan. Traffic mistakes in the 34 months preceding the national war emergency had the number of Michigan men killed in action during World War II. Every third car on the road is in an unsafe condition, according to recent tests. Actually it's safer on a mile basis to fly in a licensed airplane than to travel in an automobile.

Since rural schools showed the greatest percentage of accident increases, don't take for granted that the one is approaching the most highly populated. You may be mistaken, and then it'll be too late. The writer's regret of this week that we were unable to attend the George E. Bishop testimonial dinner at Marquette this week. Born in a log cabin near Scroville in 1817, George set up housekeeping at Marquette as a grammar school principal of a grammar school. He was always a booster for Marquette township, he was chosen secretary-treasurer of a township development bureau. Embracing George E. Bishop was given more responsibilities administering with a special mission in 1911 as secretary-treasurer of the Upper Peninsula Development Bureau. Good Luck, George. We wish Michigan had more leaders like you.

Table-toppers in Michigan, according to increase profits by sale of the other day. At a special auction the table was selected independently two to one. Does this indicate that public opinion still supports Michigan? It does not, especially in view of the most popular amendment to the state constitution which was ever proposed in American annals, the Detroit Proposal, No. 1 before Michigan voters November 5, 1915. The current plan in the law which our people are to vote on is a far more liberal one than the one proposed.

The proposed amendment is a simple one, it is a referendum on the subject of a new income tax. The law which has been passed in the state, the Detroit Proposal, No. 1 before Michigan voters November 5, 1915. The current plan in the law which our people are to vote on is a far more liberal one than the one proposed.

KINDERGARTEN NEWS
John is sharing some of his books with us.

We had fun on the playground going through the Fair tents.

We were measured this week. Our tallest pupil is 47 and 3/4 inches tall. Our average height per person is 45 and 1/2 inches.

We liked the School Fair especially the bunnies, goats, horses, and the baby calf. Most of us enjoyed the Good Will Billie too.

Washington Merry-Go-Round

SOAP SHORTAGE CONTINUES
WASHINGTON — Most important question facing every housewife on Monday morning—soap—probably won't be solved for some time. This is bad news, but it is hard to get around.

There are two main reasons for the soap shortage, one of them unavoidable, the other avoidable. The government has been tough enough with industry.

First reason is the loss of coconut trees in the Philippines and the war-torn South Pacific. Whereas coconut oil and copra used to be a glut on the market, many trees were destroyed in the Philippines, in the Solomon and wherever fighting occurred. There are still plenty of trees left, but it takes time to get reseeded plantations going again and General MacArthur at first refused to let Philippine civilians return to some of these areas.

The other reason — which could have been avoided — is that the soap manufacturers diverted a large percentage of their materials to higher-priced toilet soap. That is why some housewives actually are using perfume soap to do their washing.

The situation in soap is similar to that in the men's clothing industry, where civilian production administration permitted clothing manufacturers to divert materials to higher-priced women's wear instead of men's clothing. Profits in the women's trade were larger.

Likewise, profits are larger in the expensive perfume soap trade. Government authorities have done little to divert soap materials to the cheaper brands used for kitchen and laundry. Of course, the minute the government tries to interfere, it gets accused of interfering with private enterprise, so some of Mr. Truman's aides are getting little chafers.

Another factor in the soap shortage is that housewives have grown careless about saving kitchen fats. During the war, housewives were conserving fats at the rate of 200 million pounds a year, a great part of which went into soap. However, with no patriotic impetus to continue the practice, much fat is now going down the drain or into the garbage can.

Another difficulty has been lack of inter-land boats for moving coconut cargoes to Manila. The U. S. Navy recently acquired and allocated several hundred small landing boats for this purpose, but even so the commerce department estimates the laundry-soap shortage will continue until the end of the year.

ED FAULKNER'S LATEST REPORT
When Ed Faulkner gets away from oil and politics he assumes much greater stature. As a result of his travels in Europe, he has just written a private report to President Truman on the question of Jewish refugees which makes those who have read it understand not only the plight of the refugees but the sensitiveness of the Jewish people.

Here are some of the most striking portions of the Faulkner report: "The more one knows about the wretched murder of the Jews by the Germans, the more one wonders why this great crime has not shocked the conscience of mankind more than it has."

"Newspapers are accustomed to speak of mass murder when a half-dozen victims are shot down by a gunman. What shall we call it when whole towns die and the slaughtered are numbered by millions?"

"When I first heard that the Germans had used the death of these victims to make soap, I did not believe it. There are a number of exhibitors at the trial from the G. I. factory."

"The clear picture one gets of what happened to over five million European Jews since the outbreak of the war is that the German people were the ones who stood the cost of the tragic ending of the surviving Jews in Europe."

"We cannot bring five million dead bodies to life — we cannot breathe the breath of life into the pits of human ash and human bones — we cannot even find the little bodies that once were the thousands of baby boys found amongst piles of other dead Jews. But we can take action — and take it now — to make certain that the over one million European Jews who survived the Nazi terror are given a chance to live. The time for action has long passed — the time for action is long overdue."

MERRY-GO-ROUND
It hasn't been published but the American Legion's "Americanism" program proved a complete flop. Alvin Owsley, Americanism chairman, railed off the desk when 20,000 demonstrators could raise only one of a \$600,000 quota. The program will be revamped at the first National Civic convention. . . . Observance Sparks Program To Get Jobs for Handicapped

WASHINGTON — Importance of the nation of maintaining employment for handicapped workers is being stressed in the first observance of National Employ the Physically Handicapped Week, being held the week of October 6-12.

The observance, authorized by congress and proclaimed by President Truman, is intended to spark a nationwide drive to provide work for millions of handicapped persons, including thousands of veterans of two World wars, millions of victims of industrial and other types of accidents and those who are handicapped as a result of sickness, disease or birth.

Jobs in Transition.
Under leadership of United States Employment Service, Veterans' Administration, American Red Cross, American Veterans, governmental and private agencies are promoting the week. Through various citizens committees, information concerning the physically handicapped and their abilities as workers will be disseminated and public education will be fostered.

Introduced during the week was the new official "trademark" of the week. Through various citizens committees, information concerning the physically handicapped and their abilities as workers will be disseminated and public education will be fostered.

More than 300,000 disabled workers, including 228,000 disabled veterans, now are ready for work and are seeking employment through the U. S. E. S. According to Robert C. Goetz, director of the program, "The handicapped—its ability to contribute to the nation's production is being demonstrated."

Encase B-29 in Plastic Cocoon

Will Make Impenetrable Barrier Against Rust and Various Vapors.

PHILADELPHIA — Fourteen hundred B-29s are going to be wrapped in plastic packages at a Georgia Airfield.

At the same time 1,125 vessels of the U. S. Navy will be similarly packaged at Hudson river and other enclaves.

Exhaustive tests have shown that the mineral asphalt plastic will be an impenetrable barrier to rust, corrosion, fungus and every known type of vapor for the next half century.

Since development of the plastic and its use by the army and navy, the joint chiefs of staff have announced that implementation of the plan is in constant readiness under the protective covering of this new plastic.

Each February 7 of this year, the discoverer and developer of what has been called "the plastic" arrived almost in isolation with his restricted formula while the navy carried on exhaustive laboratory experiments on its potentialities and possibilities.

Discoverer is former Lt. Commander William H. Holst, an industrial chemist, formerly connected with the Atlas Powder Co. He now is associated with the coatings laboratories of the R. M. Hollingshead Co. in Camden, sole possessors of the manufacturing rights of the plastic.

Sprayed on Guns.
Holst, who made his discovery at the naval ordnance laboratory at Silver Spring, Md., said his vast experience in the field of plastics is being used to develop a new type of regular flight, commencing this month. . . . FOR PIPES
"I've smoked Prince Albert in my pipe for years," says James H. Clifford, above. "P.A. is a real comfort smoke — mild and always good tasting."

FOR EASY ROLLING, IT'S PRINCE ALBERT. FOR ME, A GRAND SMOKE TOO. RICH TASTE WITH A SPECIAL MILDNESS ALL ITS OWN.

MECHANICAL COW FENCIBLES . . . It took man-made machinery to conquer this 1,400 pounds of steel at Los Angeles after the animal broke out of slaughter pens and rammed into the yards of a southwest city. (Inset photo shows the animal's head.)

WALKS AGAIN AFTER AID FROM SISTER KENNY . . . A month ago Ruth Evans, 31, of Chicago, was stricken with the dread polio. Placed aboard a special plane, shown at left, she was rushed to the Sister Kenny Institute in Minneapolis for treatment. Today she is shown on the steps of her own home.

OIL IN SHADOW OF PYRAMIDS . . . Abu Roash well, drilled by Standard Oil Company, is shown with the famed pyramids of Giza. The well, begun in January, is a wildcat one, forming a background, this well, begun in January, is a wildcat one, forming a background, this well, begun in January, is a wildcat one.

THINK YOU GOT TRICKED? . . . What happened to Dolly Truman (demanded and received the resignation of Henry A. Wallace as secretary of commerce, photographed here) the former secretary of commerce sitting on a park bench reading the comics. He apparently did not find enough humor in conditions within the state department to resign. Wallace has announced that he would continue his fight for adoption of the policies of Roosevelt.

Fall Fashion Notes
Short, boy jackets are an excellent choice for daytime wear. They go to school, work or shopping, and can be developed in almost any fabric. . . . The wide-brimmed hat is another beautiful fall accessory. . . . Women's shoes for fall should be practical, comfortable and stylish. . . . The new fall fashions are a blend of old and new, and are sure to please everyone.

From where I sit... by Joe Marsh
Are Returning Veterans "Different"?
 During the war you heard a lot about how hard it was going to be for returning veterans to get adjusted to civilian life... how they'd be "different."
 Well, plenty of them have returned to our town, and a finer, steadier bunch you couldn't ask for. Most of them are back at the same jobs... going with the same nice home-town girls (getting married, some of them, and settling to families)... enjoying the same old friendships.
 Even their amusements are the same. Nothing more exciting than Edger Sawatzki's creek or plinking horseshoes... enjoying an outdoor barbecue with friendly whoosers and whippers.
 If they've changed at all it's in the direction of maturity and tolerance... tolerance for everything except dictators, and those who would destroy our democratic principles of live and let live. And from where I sit, that's another reason to be proud of them.

Total	\$17,817,950.00

When the fiscal year began, the General Fund had a surplus of \$5,519,753.65. This amount, added to the \$16,319,602.33 operating surplus for the year, made a General Fund surplus of \$21,839,356.00 available for appropriation. THESE WERE NO OTHER UNRESTRICTED SURPLUSES.

There were, however, funds restricted by the legislature for definite purposes, such as—the \$50,000,000 in the Veterans' Trust Fund, the \$11,453,499.05 in the State Building Fund, the \$2,500,000 in the State Hospital Fund, and the \$1,417,950.00 in the Primary School Building Fund. THESE BALANCES WERE NOT AVAILABLE FOR GENERAL PURPOSES.

TODAY'S HERO by CREAM
CREAM BREAD
 Here is the germ of a red clover seed sending out a soil-enriching root which in a short time will have the power to fix nitrogen from the air. Simultaneously, it will improve soil fertility, grow a high-protein crop for livestock and pass on to humans the healthful carotene and vitamins of milk, butter, eggs and meat.
 The world needs more of such crops. The price per bushel is excellent for almost every kind of legume and grass seed, soybeans and vegetable seeds. It will pay you well to set aside several acres this fall and arrange for a nearby All-Crop Harvester to save every possible bushel.
 The All-Crop Harvester is recognized for its ability to cut close and glean knee-length pods. Its wide, rubber-cushioned bar cylinder protects the delicate germ and minimizes creasing.
 The All-Crop Harvester makes it possible to harvest over 100 seeds which can end human suffering from malnutrition and bring new prosperity to farms everywhere.

THE MICHIGAN MIRROR (continued from page 1)

Although Mr. Morrison is not running for re-election and hence the report has no political implications, you will be interested to note that the year's operating surplus was \$16 millions and that the additional cost in taxes from the proposed veteran bonus would be \$17.5 millions a year.

If other words, if Michigan would have had the bonus to pay last fiscal year, there would have been NO surplus in the year's operations.

But since finances are always complicated to understand, proponents of Ballot Proposal No. 2—the sales tax diversion amendment—have a strong case when they simplify the issue in the following words: The State is getting more money than it needs. Look at the surplus! Return more of our tax money to home governments.

"We don't want a bonus!" was the decision of American Legion delegates assembled in San Francisco last week. A national convention.

How much effect this recommendation will have on Ballot Proposal No. 2, the \$270 million veterans' bonus, is a matter for voters to decide. The bonus will add \$17,500,000 annually in tax cost to the state's general fund. The Michigan Farm Bureau has come out strongly against it.

Significant fact: The \$50,000,000 veterans' trust fund, authorized by the state legislature, was originally proposed as a suitable substitute for the cash bonus.

Notice of Persons Claiming Title Under Tax Deed TO THE OWNER OR OWNERS OF ANY OR ALL INTERESTS IN OR LIENS UPON THE LANDS HEREIN DESCRIBED

To: Sarah Gray, last grantee in the regular chain of title of such lands or of any interest therein, as appearing by the records in the office of the Register of Deeds of said County, at the date of the delivery of this notice to the Sheriff for service

Take Notice: that sale has been lawfully made of the following described land for unpaid taxes thereon, and that the undersigned has title thereto under tax deed or deeds, issued therefor, and that you are entitled to a reconveyance thereof, at any time within six (6) months after return of service of this notice, upon payment to the undersigned or to the register in chancery of the county in which the lands lie of all sums paid upon such purchase, together with 50 per centum additional thereto, and the fees of the sheriff for the service or use of publication of this notice, to be computed as upon personal service of a declaration as commencement of suit, and the further sum of five (\$5) dollars for each description without other additional cost or charges; Provided, That with respect to purchasers at the tax sale held in the years 1926, 1928, and 1930 the sum paid in such notice as a condition of reconveyance shall only be the amount paid as a condition of the tax title purchase, together with 10 per centum additional thereto, if payment as aforesaid is not made, the undersigned will institute proceedings for possession of the land.

The description of said land is as follows: Commencing at the northwest corner of the east half of the north west quarter, thence S 33 feet in the west line of T. 12 of N.W. 1/4.
