BUSS DON'T LIKE U. S. A. Nations, moved back to sleepy Geneva is that American public opinion has been too powerful a champion of the smaller nations. So the Russians have been working behind the scenes to corral votes in favor of the Geneva trans-fer and can count on Yugoslavia, czechoslovakia, Poland and France.
However, they can't count on the
British, who once favored a European capital, but are now 190 per
cent sold that American opinion is
one of their best allies.

The Russians also can't count on the Latin Americans. In the old days, Pan - American diplomats loved lolling in Paris most of the ime and turning up in Geneva a few days of the week. Today, how-ever, Paris is one of the most uncomfortable places in the worl Geneva is short of food, and New York is far more pleasurable.

The Russians, who originally favored an American city as the U. N. capital. now consider this a serious mistake. They dislike the fact that American newspapers publish columns and columns of front-page news on every move made by the Russians, and they figure that American newsmen at Geneva would sit drowsily in the Swiss cafes drinking beer, or spend week-ends in the Swiss Alns.

beguiling promises of the giant power looby are going to face the latter

Sam Rayburn really has fire in his eye when he talks about the power lobby. And today that lobby ranks with the real estate buttenholers as one of the most potent on Capitol Hill, has even gone to the extent of dangling nylons before the wives of congressmen in order to win votes against the government's southwest power authority in Texas, Oklahoma, Arkansas and southern Missouri.

Bought Alabama Farm in '39: Has Mortgage All Caid off Now 🔊

FLORENCE, ALA.—They all said Louis Olive could nevget out of debt if he bought that old 120-acre farm in the The President and Fairview community. But he bought it anyway, back in 1939. Horseshoe Pitching and the mortgage is now paid off!

Mrs. Mabe! Anderson, associated farm security administration supervisor, recently told Mr. Qlive's story in an article published by the Florence Heraid. She wrote: "In July, 1939, Mr. Olive filed an application with the FSA for a loan to purchase a form, a form that had been under mortgage for the past 43 years. A loan of \$4,080 for purchase of the land and construc-tion of a house and other buildings

PROGRESS REPORT

TO RURAL CUSTOMERS WHO HAVE APPLIED FOR ELECTRIC SERVICE

OUR program to bring electricity to the remaining 15 per cent of the farms in the areas where we operate is well underway.

THE scarcity of assential equipment and materials, however, has made our. daily progress much slower than we had hoped for.

MUTOMC manufacturers have been unable to beliver the many neavy trucks and cars on order. And large quantities of electrical equipment and materials ordered over a year ago are still undelivered.

EVEN if conditions improve within the next few weeks this delay will interrupt our schedule so that many folks will have to wait several months longer before getting service

IF you are one of the many farmers who have applied for service, we want you to know that everything possible is being done to speed electric service to your farm.

He said, "in 1919 a strike in one steel mill lasted two days. And in 1923 there was another little strike in western Russia. We were changing over from the old casrist money to Soviet roubles, and it took time to get it all printed and out to the workers. As soon as the situation was explained to them, they went back to work. There have been no strikes since, and in the future there won't be any because our workers understand they are all working for each other."

"If a worker is discontented and gets discharged for any reason would in be difficult for him to get a job some place else."
