

THE MANCHESTER ENTERPRISE

VOLUME SEVENTY-NINE

\$1.50 a Year in Advance

MANCHESTER, MICH. THURSDAY, JULY 18, 1946

\$1.50 a Year in Advance

NUMBER FORTY-THREE

HAYDEN TO OUTLINE FAMINE NEEDS SUN.

Perry Hayden, founder of the World Famous Dynamic Kernel Biblical Wheat Tithing project, at Tecumseh, will speak twice in Manchester Sunday morning, July 21. He will speak at the Evangelical and Reformed Church at the 10:00 service and then immediately following this at the Methodist church for the 11:00 service.

Inspired by a sermon in his church, six years ago, Mr. Hayden proceeded to "do something about it," and that week planted one cubic inch of seed given to him by C. D. Finkbeiner of Saline. Mr. Finkbeiner was a member of St. James Evangelical and Reformed Church on US 112 between Clinton and Saline. He proposed to prove not only the "reaper principle" of John 12:24 which was the text used by the preacher, but to tithe the crop of wheat for six years and use the project as a demonstration of the principle of tithing.

Henry Ford furnished Perry Hayden enough land for five years to carry on this tithing demonstration. This past fall, Mr. Ford made over 5,585 bushels of wheat from the 5th harvest. This was tithed, and the remaining 5,000 bushels of wheat was sold to approximately 275 different farmers from some 30 different denominations belonging to 173 different churches. Each grower agreed to pay a tithe of the wheat to his own church when harvested in 1946. Today Mr. Hayden states that there are 2,500 acres of wheat to be harvested this month. The harvest ceremony will be held at the Adrian Fair Grounds on Thursday, August 1st. At that time the farmers who raised the wheat are being asked to bring in the tithe of their crop, as a gift from their church to the Adrian Fair grounds. The wheat will be shipped from there within a day or so, and will be processed into a relief cereal for exporting to the famine areas of the world.

Mr. Hayden is coming to Manchester at the home of Mr. and Mrs. Edward Everett of Ann Arbor, and will speak at Saline Monday, July 8, and will feel that the farming community of Manchester, where they get the story first hand, will respond 100% to the appeal for tithing wheat for Europe.

Miss Mary Jane Hayden, daughter of Perry Hayden, will accompany her father and will sing at both services. Mary Jane, challenged by the principle that has been demonstrated through the Dynamic Kernel project, has given her life to Christ, and is preparing for service in the foreign mission field.

JOHN HENRY FELDKAMP

John Henry Feldkamp, 80 years old, died Sunday afternoon at his home, 21024 Pleasant Lake Road, Born April 17, 1866, in Germany he was the son of John Henry and Anna Marie Brockhaus. Feldkamp came with his parents to America at the age of nine years. The family settled near Pleasant Lake in Freedom township, where Mr. Feldkamp lived since that time. He was married to Louisa Spahr on January 25, 1888. Mr. Feldkamp was a member of the Bethel church of Freedom township.

Surviving are his widow, two daughters, Mrs. Clara Hill and Mrs. Laura Buss, both of Freedom township, and five grandchildren. Funeral services were held at 2 o'clock Wednesday afternoon at the Feldkamp home and at 2:45 at the Bethel church. Rev. W. F. Bateman officiating. Burial was in Bethel cemetery.

BRIGHTON WINS

Manchester lost to Brighton Sunday by a score of 5-0 in a game played at Brighton. Arnold and Golas played for Manchester and were taken for 10 hits while Green for Brighton was holding Manchester boys to six hits.

SHARON

Clair Riebel of Jackson is spending some time with his sister, Mrs. Mahlon Smith and family. Mr. and Mrs. Ira Uphaus and son Nell of Ann Arbor were week end guests at George Berkens.

Mr. and Mrs. Bob Alber and daughter are spending a few days at Lewis Albers.

Mr. and Mrs. Ora DeVernie of Toledo, and Mr. and Mrs. Bill Tompson and Mr. and Mrs. Will Collard of Detroit were Sunday guests of Lewis Albers.

DR. FRANK GIFFORD

Toledo Optometrist. Examining eyes in branch office. Milan, Saturday 1:00 to 3:30 p. m. Glasses fitted. Established in Milan 18 years.—Adv.

WHY MUST DAIRY PRICES BE RAISED

Since the beginning of the war, dairy industry, producers and processors alike, have been called upon to increase the production of milk and other dairy products, to feed our soldiers, civilians and millions of starving people all over the world, according to Leonard N. Franke, Secretary of the Information Services Committee of the Michigan Allied Dairy Association. "This increased production—just as forced production in a war plant cost the people of the nation many millions of dollars in the way of incentive payments to those producing the products. The cost of farm labor, feed for cattle, farm machinery and other items entering into the final cost to the consumer grew steadily as the war progressed. In order to halt an inflationary increase in dairy foods, the Government established the policy of paying part of the increased costs through the medium of payments to producers called subsidies. An explanation of these subsidies has never been made with respect to dairy foods, and the history of this program should be enlightening to all consumers."

When subsidy payments began, they were needed to stimulate production and at the same time keep the cost of living down. The first subsidy in the dairy field was the special processor's subsidy for American Cheddar Cheese. It went into effect on December 1, 1945. Production of cheddar cheese, etc., of farmers supplying milk to cheese processors had gone up and they needed more money for their milk. But if processors paid farmers more for their milk they would have to charge more for their cheese. The Government didn't want the price of cheese to go up, but it did want to stimulate the flow of milk to processors. It used the subsidy to handle the situation. The Government paid the cheese maker 3% cents a pound bonus on each pound of American Cheddar Cheese he produced. The cheese maker, in turn, passed this 3% cents along to the farmer by paying him more for his milk.

Next came the butter subsidy. The Government decided the cost of living was rising too fast, so on June 1, 1943, it reduced the ceiling price on some strategic commodities. One of these was butter. The selling price of butter was rolled back 5 cents a pound. Neither the buttermaker nor the farmers who produced the cream to make the butter could absorb this 5-cent rollback. So the Government paid the buttermaker a subsidy of 5 cents on each pound of butter produced and the creamery passed these payments along to the farmer. These subsidies made it possible for the creamery to sell butter at the reduced ceiling price without reducing the amount he paid the farmer for the cream used in buttermaking.

The President's hold-the-line order on retail prices issued in April, 1944, later brought another subsidy in 18 milk marketing areas in the nation. This was a distributor subsidy of 1-1/2 cents on each quart of bottled milk sold. It was paid to the milk companies in these areas to help meet the increased costs of processing and distribution, without raising prices. Where this happened the Government raised the retail price.

A Boy Scout camp ending Sunday morning, Monday afternoon for Frank Miller, 12-year-old Detroit Scout who drowned while swimming in Wampplers Lake. The lad was missed at the end of a group swimming period. He lost his life in five feet of water. He was the son of Mr. and Mrs. Joseph Miller of 305 Alfred Street, Detroit. Michigan State Police of the Clinton post and Coroner Paul Moss investigated. Mr. Moss said no inquest would be held, death being accidental. This was the second drowning in Wampplers Lake, within a week.

BARN NEAR COLUMBIA LAKE BURNED

The barn on the Joe. Priests farm on the north side of Columbia Lake was destroyed by fire last Saturday morning about nine o'clock.

The Manchester Fire Department met was called but the flames, evidently caused by spontaneous combustion, had made such headway when found that they had their hands full saving the house and the other buildings.

Resides the building, the loss consisted of some 70 tons of hay, a tractor and some small tools, partly covered by insurance.

Emma Kleinsmith and Frank Harbeck were Sunday dinner guests of Mr. and Mrs. Frank Berke of Clinton.

WHY OUR COUNTY TAXES ARE HIGHER

Some time ago Don Comstock of Ypsilanti suggested to the Board of Supervisors that the State Tax Commission be invited to check the assessments in all townships of Washtenaw. So this spring State Tax Commission employees made "spot checks" consisting of 21 farms and 50 homes and business places in the township. Personal property assessments were also checked. It was reported, in Manchester, that according to at least four local business men equipment and merchandise was not actually checked, although the assessment was raised as much as 100% in some cases. Perhaps they could tell by walking past the store and looking in to see how well fed the proprietor looked, how much his stock and fixtures were worth.

Throughout the county assessed valuations were raised considerably, some in this township going up some 30%. Chas. E. Larson raised some two million dollars Sharon and Bridgewater and Freedom townships were raised nearly the same percentage. In consequence the rural townships will be required by the equalization committee of the county to raise 6.5% of the total county tax this year compared to 5.9% last year, or in the case of Manchester township nearly \$2,500.00.

For some unknown reason Ann Arbor was omitted from this increased valuation of the assessments and Ypsilanti, while its valuation was somewhat increased, fell short of the percentage of increase in the rural townships. In other words the rural townships are being penalized to the benefit of Ann Arbor.

LINDBERG REUNION

The annual Lindbergh reunion was held Sunday at Plymouth Park in Plymouth. A potluck dinner was served at noon for 40 guests. Guest were present from Jackson, Wampplers Lake, Pleasant Ridge, Ann Arbor, Big Beaver and Manchester. The ones attending from Manchester were Mr. and Mrs. Wm. Schaffer, Mr. and Mrs. Gottlieb Huber, Mr. and Mrs. Wm. Schaffer, Mr. and Mrs. Wm. Schaffer, Jr. and son, Larry, Mr. and Mrs. Allen Schaffer and children and Mr. Clarence Lindbergh and son, John. The meeting will be held next year at the home of Wm. Lindbergh in Jackson.

EXCHANGE CLUB

The Exchange Club will meet Monday evening at 6:30 at the Legion Hall.

IN THE CHURCHES

Manchester Methodist Church
Rev. John Bauer, Pastor
Sunday School at 10:00 A. M.
Mr. Claude Gage, Superintendent
Mrs. Jessie Walker, Superintendent of the Primary Department
Morning Worship at 11:00 A. M.
Special music will be rendered by the choir. Miss Hayden of Tecumseh will render a solo. The guest speaker will be Mr. Perry Hayden of Tecumseh, who is coming to tell us about conditions prevailing in Europe and how we can help in sending the boys home.

This will be an opportunity for us to find out how we can help in this matter. We extend an invitation to all to attend this service. Wednesday Choir Rehearsal at 3 p. m.

Emmanuel Ev. and Reformed Church
Rev. Walter E. Hennes
Summer Schedule: Services at 7:30 and 9:30 A. M.

Iron Creek Church
Alvin Brazee, Pastor
Morning Worship—10:00 A. M.
Bible School—11:00 A. M.
Wm. Shade, Supt.
8:00 P. M.—Christian Endeavor, Wynne Mattson, President.
8:00 P. M. Thursday—Midweek Prayer and Praise Service.
Sunday, July 22—Quarterly Meeting Service. Potluck dinner following the morning service with church business meeting at two o'clock.

Sharon Evangelical Church
A. A. Weimer, Pastor
10:00 A. M.—Sunday School
10:00 A. M.—Morning Worship
At this service we will observe our First Quarterly Communion.
District Superintendent Rev. W. H. Watson will be present. Refreshments were served by the hostess and committee.

LANSING TO BE PURIFIED SOON

(By Gene Alteman)

In the 1946 version of that old political melodrama, "Throw out the Rascals!" Michigan voters will have a choice of two climactic endings on Nov. 5.

First, election of Kim Sigler, graft-busting crusader, who is the Republican nominee for Governor.

Second, election of Murray D. "Pat" VanWagoner, former governor who made his reputation on graft-busting and who is now the Democratic nominee for Governor.

Each nominee is pledged to purify Lansing. That in itself is a co-incidence which makes the forthcoming campaign of novel interest.

At the Democratic state convention in Lansing, VanWagoner pilloried the Republican state administration under Governor Hugh H. Kelly as being ridden with graft and corruption. Here is a quotation: "This period in our history has been marked by one scandal after another, by malfeasance and misfeasance in high public office and by graft and corruption in high administration offices and in the halls of the state legislature."

And while Pontiac "Pat" was passing bribes through Republican windows he warned voters that "the opposition will certainly drag many a red herring across the trail... The same methods of vilification and defamation will be used at this time for the very simple reason that attention must be detracted from the manner in which the government of our state has been conducted the past three and one-half years."

The Republican "vilification" of course, would consist of counter-charges of graft and corruption. In fact, the state convention of the Republicans proceeded to adopt the Sigler purge by discarding such supporters as followers as Secretary of State Herman H. Dignan, Auditor General John Morrison and Attorney General John DeWorm. Only D. Dale Brake, state treasurer who bucked the Michigan National bank interests in the legislature, was spared the Sigler axe.

Now it must be recorded, for the sake of the record, that none of the candidates for state official—Dignan, Morrison and DeWorm—merits the dubious distinction of being a rascal. Lieut. Governor Vernon J. Brown, the thereby came candidates for the Sigler ashcan. It's just about as simple as that.

The VanWagoner state-makers gave the Upper Peninsula two places on the ticket. Thurman B. Doyle of Menominee was their choice for attorney general, and Marvin L. Coon of Escanaba for auditor general.

Sigler's advisors, mostly members of the state bar, favored law-pure. Only one of the six arbiters—governor, Lieutenant governor and committee.

FARM BUILDINGS DESTROYED BY FIRE

Fire started by an exploding oil barrel destroyed a barn and four smaller buildings on the Floyd Ouellet farm, three and one-half miles northeast of Clinton on Pike Road at 8:40 Tuesday morning. Members of the Clinton Fire Department saved the house and garage after working for more than three hours.

A barn, 30 by 40 feet, two sheds and a granary adjoining the barn and a milk house were burned to the ground. Also destroyed were 15 tons of new hay, four tons of straw, 500 bushels of oats, two calves, tools, a number of chickens and a fire pump.

The firemen pumped dry a well and a duster at the farm, and hauled 2,000 gallons of water from Clinton. Gus Smith, one of the volunteer firemen, suffered a burned elbow.

The loss was partly covered by insurance.

LADY ARBITERS MEET

The Lady Arbiters held their regular meeting Tuesday July 11 with 31 members present. The sick committee for the next three months is Ruth Kleinkamp and Grace Stockwell. The Good of the Order for August is Mable Kramer, Alma Kirk and Fern Luckhart. The ladies in charge of the Double A supper for August are Virginia Proctor, Jacqueline Knouse, Anna McGinnis, Alma Uhr and Lydia Warsten.

The annual picnic will be held July 29 at 1:00 at Lenex Grove, Wampplers Lake. The entertainment committee will be Leta Schwab and Mary Schwab. Please bring a dish to pass, your own drink and table service and sandwiches if you want them. Every one will meet at the hall at 12:00 noon.

The state convention reports were given by Lydia Wurster and Leta Schwab.

Farm Bureau Meeting
The West Saline Farm Bureau group met on Monday evening with Mr. and Mrs. Gottlieb Finkbeiner. There was twenty present. All had been busy in the harvest field so a rather tired feeling had possession of the crowd and after a short business session everyone relaxed and just visited. The discussion leader however touched on the subject for the month, Fertilizer. Our State group is starting its own plant at Saginaw.

The county F. B. picnic will be held sometime next month. Refreshments were served by the hostess and committee.

OUR CHILDREN

This is the fourth in the series of pictures of Manchester children taken recently:

Top row, left to right: Allyn M., son of Mr. and Mrs. Paul Brock; Manchester; Joe, son of Mr. and Mrs. Joe Chantrelis; Manchester; Richard, son of Mr. and Mrs. Harry Morton; Manchester.

Row below: Karl, son of Mr. and Mrs. Robert Cole; Manchester; Jackie, son of Mrs. Mildred Smith; Manchester; Gary, son of Mr. and Mrs. Marie Dresselhouse; Manchester.

WHY MUST DAIRY PRICES BE RAISED

Since the beginning of the war, dairy industry, producers and processors alike, have been called upon to increase the production of milk and other dairy products, to feed our soldiers, civilians and millions of starving people all over the world, according to Leonard N. Franke, Secretary of the Information Services Committee of the Michigan Allied Dairy Association. "This increased production—just as forced production in a war plant cost the people of the nation many millions of dollars in the way of incentive payments to those producing the products. World Awaits Second Test of Atomic Bomb

FIRST BLAST, Nov. 20th. From ship at sea, bomb was dropped. Forty-five ships reported damaged.

SECOND BLAST, in 3 weeks. About nine months to put her in shape. Also all ships damaged, with the single exception of the Independence, towed away and anchored far out in the lagoon, likely could have been salvaged.

THIRD TEST, to be staged next week. President of some who would insist to test to see that all ships are sunk within 50 miles of blast zone.

By **WALTER A. SHEAD**

ABOARD USS APALACHIAN OPERATIONS CROSSROADS. Second or Baker test of the atomic bomb in Bikini lagoon, now tentatively set for July 25, will be like dynamiting fish in a pond. Lacking will be the usual roar of the army air force and precision bombing as the whole thing will be a savor of the sea.

Also all ships damaged, with the single exception of the Independence, towed away and anchored far out in the lagoon, likely could have been salvaged.

Naval scientists predict that force of the underwater blast will create waves of surface height, possibly 10 or more feet which will sweep over low-lying Bikini Island, although damage also forecast in the first blast and did not materialize.

Meanwhile, endless arguments proceed as to the degree of damage to the ships, the location of the bomb burst, whether the deep from the plane was "near miss," probable loss of life and the ships' chances of being salvaged.

When it is considered that this bomb was dropped from a height of something like six miles and hit within a 500-yard radius, this reporter would consider that pretty good precision bombing.

Adm. F. A. Stribling of the Bureau of Ships, however, declared that insofar as he could judge, every ship damaged by the bomb, with the exception of the Independence, could be put into fighting shape within two or three months.

For the Independence, battered and ripped apart by explosions of air and aviation gasoline and burning for almost three days, it would take

Washington MERRY GO ROUND

BIG BUSINESS AND TAXES WASHINGTON—Justice gray in the current tax legislation is the continuation of the carry-back of unused excess profits credit. The Senate finance committee, always friendly to big business, not only dropped out the excess profits tax last year, but retained carry-back provisions that permit corporations whose current taxes do not proportionately match their 1935-1939 earnings, to claim adjustments in their 1946 tax payments.

Recently impatient Rep. Wilbur Mills of Arkansas, Democrat, proposed that Congress act independently, without waiting for the treasury to take the position that large credits can be claimed by corporations which actually make more money this year than they did any of the years from 1936 to 1939, simply because their capital investment is now larger.

Mills charged that many large corporations are taking advantage of the loophole and are using the taxpayer's bill for the expansion of private industries. He also listed a long series of "abuses and transactions which will no doubt be resorted to in order to create carry-back refunds or tax credits."

KANSAS ATOMIC STRAW The Eastman Kodak company has been having trouble as a result of the first atomic bomb test in New Mexico—one year ago. Eastman found that for some mysterious reason, some of its film was turning black before exposure. Finally experts discovered that the film had been irradiated by rays which came from western Kansas.

TRUMAN WRITES A VETO President Truman vetoed the bill which would have authorized the building of a new atomic energy plant. The veto was based on the grounds that the bill would have authorized the building of a plant which would have been a "major step" toward the development of atomic energy.

ESTIMATE LOSSES A fact sheet which was compiled by the War Relocation Authority estimates that the atomic bomb test in Bikini lagoon would have killed approximately 10,000 men, women and children.

WHO WON THE WAR? It is now being asked in Japan and the rest of the world whether the United States or Japan won the war. The question is being asked because of the atomic bomb test in Bikini lagoon.

PRECISION BOMBING When it is considered that this bomb was dropped from a height of something like six miles and hit within a 500-yard radius, this reporter would consider that pretty good precision bombing.

ARKANSAS MAY BE SECOND TARGET SHIP The Saratoga, which suffered only negligible damage in the first test, is the second target ship. The ship is being used as a target for the second test of the atomic bomb.

DIPLOMATIC HOITCH It's only been a short time since the Saratoga, which suffered only negligible damage in the first test, is the second target ship.

Plenty of Room for Action Is Essential in Clothes for Boys

By **Etta Haley**

Dainty Shantung

"I'D RATHER have little girls than little boys," one hears a mother say, "because it's so hard to keep the boys in clothes."

Well, I suppose boys are just a little harder to dress than girls, but if you do your own sewing and use sturdy materials and good seams and also allow plenty of room for the active play in which the boys engage, there won't be anything too difficult about keeping them in garments.

You'll find that Dad's old clothing can be utilized to make sturdy, economical clothing for Junior. Pants can easily be cut down or ripped apart and sewed into little pants for the youngster. Shirts, too, are easy to make from larger ones and you'll find that the material stands up beautifully for all the baseball, roller skating or other sports in which the boy may participate.

Don't plan to make long-sleeved shirts for boys' everyday wear. They get too much dirt for you to be both doing and scrubbing cuffs clean on every shirt you wash. Short sleeves are not only easier to care for, but they also allow more freedom of movement for boys at play.

Don't plan to make long-sleeved shirts for boys' everyday wear. They get too much dirt for you to be both doing and scrubbing cuffs clean on every shirt you wash.

Make them into garments for Junior, as shirts and pants. Cut the pattern from a piece of cardboard, but do not leave an allowance for seams on the pattern. Fold the cardboard pattern over each of the pieces.

Summer Fashion Notes Thinness and sequins are still expected to hold down the main bulk of trimming, although it's probable we'll see some other new decorative notes like braided borders and sequins.

There will be brims and well-molded millinery for the after-teen and older crowd, while off-the-beat hats are favored for the teen-ager group because they're so very interesting.

FOOTLIGHTS AND SPOTLIGHTS: There was a big and noisy event in the playlet circuit last week. "The Green Book" (now "The Playlet") was the play of the week.

Innocent Bystander

The Cincinnati: Fred MacMurray lights the fuse for a sure-fire-cracker christened "Smoky."

The Searching Wind went from footlights to stage lights and remains a provocative humdinger. It digs beneath the surface of current events and comes up with a dramatic puncher. Sylvia Sidney heads the trouper-doublers.

The Press Box: Thomas B. Sherman in the St. Louis P.D. speaks W. Lippman and other tall-taloned thinkers for using the smogging study as a political tool.

Quotation Marksmanship: Y. Fuller: If you'd have a hen lay, you must bear with her cackling.

SOFT-HEARTED: Unable to resist the plaintive hoo-hoo of the sheep led up by the work stoppage of railway express workers, Jimmie O'Brien, an expressman, feeds the animal which is one of a cargo of livestock which was held at the yards in Bumpside, Queens, N. Y., pending a break in the strike.

DEGNAN MURDER SUSPECT... William Degnan, 17-year-old University of Chicago sophomore, shown as he was taken by police officers from his room at Bryn Mawr hospital to detective headquarters for a lie-detector test in connection with the Suzanne Degnan kidnap-murder.

BELFUNG HAND... Bernard M. Belfung, U. S. delegate to the U. N. Atomic Energy commission, helps a young neighbor to his drink at a fountain in New York's Central park. The elderly statesman always has a spare moment for the younger generation.

FLAGPOLE COUPLE... "Mad" Marshall Jacobs, the Gargantuan, is shown with Miss Louise Comar after the "Him" they were married atop a flagpole in Coshonok, Ohio.

POOR LITTLE PRINCESS... Poor little orphan? We probably will never know just who invited whom, but there is much to be said on both sides. Princess Elizabeth who will one day be queen of England is shown (right) inspecting some of the girls at the London Orphan school at Basingstoke.

SOFT-HEARTED: Unable to resist the plaintive hoo-hoo of the sheep led up by the work stoppage of railway express workers, Jimmie O'Brien, an expressman, feeds the animal which is one of a cargo of livestock which was held at the yards in Bumpside, Queens, N. Y., pending a break in the strike.

WHAT DID "A" BOMB DO?... Standing under the wing of a damaged B-29 bomber, a light bomb still in its rack exploded directly over the officers' heads.

SO LONG, YAL... Murray Sappenstein, one of 20 boys who were sent to camp from Henry Street Settlement house in New York, is left a sad farewell by his pal, "Boobie," as he boards the camp bus.

DON'T LET THIS HAPPEN TO YOU... FOR SAFETY'S SAKE... Get New Tire Protection at One-half Price at Firestone.

SUMMER months can be dangerous months if your tires are not in first class condition. The heat from hot pavements puts a terrific strain on all tires.

Get New Tire Protection at One-half Price at Firestone. Firestone Factory-Method recapping gives you exactly the same tread—made of the same materials—that you get on a brand new Firestone De Luxe Champion tire.

Believing Hand... Bernard M. Belfung, U. S. delegate to the U. N. Atomic Energy commission, helps a young neighbor to his drink at a fountain in New York's Central park.

Flagpole Couple... "Mad" Marshall Jacobs, the Gargantuan, is shown with Miss Louise Comar after the "Him" they were married atop a flagpole in Coshonok, Ohio.

Poor Little Princess... Poor little orphan? We probably will never know just who invited whom, but there is much to be said on both sides.

Soft-hearted... Unable to resist the plaintive hoo-hoo of the sheep led up by the work stoppage of railway express workers, Jimmie O'Brien, an expressman, feeds the animal which is one of a cargo of livestock which was held at the yards in Bumpside, Queens, N. Y., pending a break in the strike.

THIS new Red Star Dry Yeast is more effective than any other yeast. It keeps fresh and strong for weeks on your pantry shelf.

REGARDING THAT VETO... President Harry S. Truman as he addressed the nation concerning his veto of the OPA extension bill.

WHAT DID "A" BOMB DO?... Standing under the wing of a damaged B-29 bomber, a light bomb still in its rack exploded directly over the officers' heads.

How to get the most out of rural telephone lines

We're building more rural lines, as fast as we can in order to reduce the number of telephones on overcrowded lines. But it's a big job that can't be done overnight. In the meantime, rural line neighbors can get better service by:
1. Keeping all calls reasonably short and allowing an interval between calls.
2. Avoiding unnecessary interruptions when the line is in use.
3. Releasing the line as soon as possible when someone else is waiting to use it.
4. Hanging up the receiver carefully to make sure the line is kept free.

and be my Love

By PEGGY DEHN
THE STORY THIS FAR: Pleasant Grove accepted without any...

CHAPTER VI
She knew she could not tell the farm she drew a long breath...

It all boiled down, she decided at last, to the fact that she could not must not marry Laurence, not now...

A movement in the backyard behind the Westbrook place caught her startled attention. At first she thought it was merely something while hanging on the cinderebellina flutters in the soft mild wind...

"Larry, this is Megan—I'm in a jam."
Megan stood still, her heart pounding as she watched the dancing woman down below in the backyard of the Westbrook place...

"The only way out, if you are stubborn enough not to sell, is to pay Matthews seven hundred dollars."
Megan shuddered and put her hands over her face for a moment...

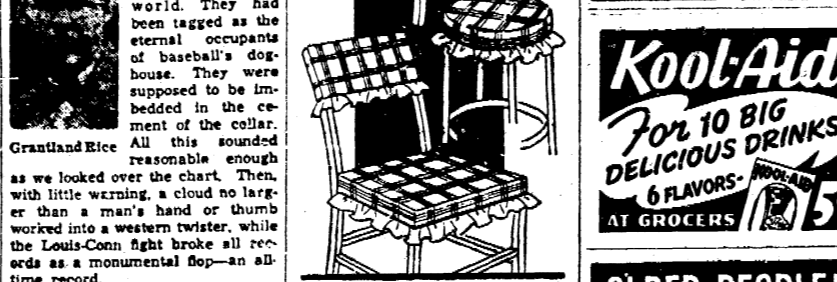

"Well, my dear," said Jim happily, "I think we're going to be able to get an excellent price for the place..."

"The night was superb. A full moon, silver-white in a pale blue sky, rode high, and beneath the shadow of the canopy of the lawn and the ancient live oaks, the shadows were like soft black plush..."

FARM SAFETY WEEK

Lenawee County Agricultural agent, believes there is one thing that every farmer can do about Farm Safety Week which opens Monday, July 22. He says: "It would pay every farm family to have an evening at home around the kitchen table and discuss the hazards of the farm. Then every machine could be gone over by the family group, with the idea of checking for danger spots. Every building could be inspected for accidents. If the farmer realizes—and makes his family realize that this business of farming is taking more lives proportionately than any other business or manufacturing trade, we can save some lives in our county during the next year."

During the week, the county agricultural agent suggests, would be a good time to make sure there is a first aid kit.

Lenawee county is cooperating with the Michigan Farm Safety Week committee headed by W. Lowell Treaster, head of the department of public relations at Michigan State college, to publicize the importance of safety.
