Serve "Their" Favorite Food Often

Ice cream will fill the bill of taste enjoyment for lunch, dinner or snacks. Serve the family all the ice cream they can eat for no matter what season of the year it remains at the top of the list of America's favorite foods.

It is one food when served alone, needs no advance preparation. Or if served with a sauce can be as simple and time-saving as necessary.

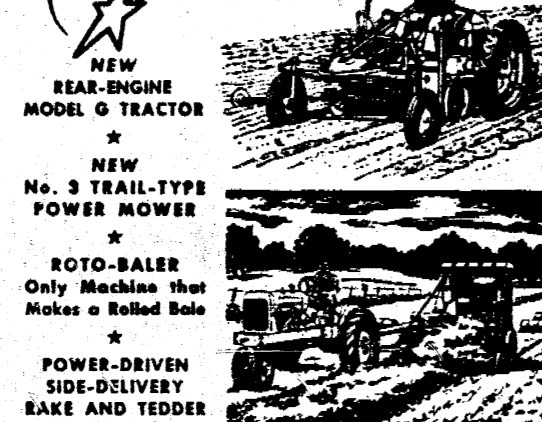

For a new taste treat, try a hot-corn-crust ring filled with ice cream and topped with fruit-in-season. The cereal ring may be made with your favorite flake cereal and the ring may be formed in a ring mold or pressed into a ring on a shallow pan. The crisp crunchy texture of the cereal is a pleasant contrast to the ice cream and the fruit will add tartness that is most refreshing.

BUTTER-CRUNCH A LA MODE

- 4 tablespoons butter
 - 1 cup brown sugar
 - 2 tablespoons flour
 - 3/4 cup water
 - 1 qt. ice cream
- Melt butter and stir in the combined sugar and flour. Add water, stirring to blend, cook over low heat until mixture forms a soft ball in cold water. Quickly pour over cereal, mixing thoroughly. Spread out on large pan and bake until fully cooled. Pack into quart ring mold. Chill in refrigerator. Loosen edges with knife and turn out onto serving plate. Fill center with ice cream. Sprinkle with fresh or frozen berries on top. Serves 6.

Prepare Picnic Basket Carefully

The picnic basket you take on your outing may be a veritable Pandora's Box, if the food in it is not carefully prepared and properly refrigerated, the Michigan Department of Health warned today.

Outbreaks of food poisoning in Michigan are traced each year to picnics, family reunions and other packed-up meals. In the past year 300 became ill after eating potato salad; 14, after eating chicken salad sandwiches; 12, after eating cream pie; a similar number after eating pre-cooked ham, and another large group, after eating cold turkey. Many individual cases and small outbreaks of two or three cases grew out of items in the picnic basket.

Foods most often involved are salads, sandwiches, pre-cooked ham, cream and custard filled pies and held-over items. The infected foods often neither smell nor taste different than the good foods.

Food poisoning is always unpleasant and it can be fatal.

The year 1947 with 12,000 on the shown by the fact that we started waiting list in our rural territory and ended the year with 13,000—N. J. Franken, manager for the Michigan Bell Telephone Co. said. The heavy rural demand was attributed by Theodore H. Dawson, vice president of Michigan Bell Telephone Co. to the fact that the 50,000 rural telephone population before the war. Franken said the relative demand for service in farm areas today is ahead of the urban centers. The extent of that demand is in farm income. No charge is made for construction up to one-half mile of farm line.

In addition to town lines, Michigan Bell provides switching service for some 480 year-around companies with 6,450 telephones in rural areas. Their facilities are gradually being improved in a cooperative program in which Michigan Bell provides technical consultation.

TRUE FUNCTIONAL DESIGN

True Functional Design is beauty with a purpose. For example, the STREAM-THRU fenders of the Kaiser or the Frazer are a style feature others have attempted to copy. But the real reason for the design has been overlooked. The true function is to provide more usable space without increasing over-all width. Only the Kaiser and the Frazer have more usable space. MORE SEAT WIDTH! ... MORE HEAD ROOM! ... MORE LUGGAGE SPACE! The Kaiser and the Frazer aren't the same old girls in a new dress—they're new from the road up! Best of all—these modern cars from Willow Run are yours at no increase in price!
