**Six LIFESAVING RULES FOR FARM PEOPLE!**

- TAKE TIME TO BE SAFE!**
- The loss of an arm or leg is a high price to pay for saving one cent. When operating power machinery, take time to be careful. Your life will be safer if you...
- Observe these simple rules:
1. Shut off P.T.O. before attempting to load or unload.
  2. Don't trust defective hitch, bracket, chain, rope.
  3. Never mount or dismount from a moving tractor. Don't ride on bumper.
  4. Don't wear loose, floppy clothing around power machinery.
  5. Think first. After the accident it is too late.
- This year a disabling injury probably will strike some farm person every 40 seconds. Don't let conditions get your name on that list.
