In just two years we've built and sold more fine cars than any other new manufacturer in automobile history. Why? Because America fell in love with the KAISER and the FRAZER on sight. Folks are streaming into Kaiser-Frazer showsooms and learning from present owners how dependable these two great cars are. They re learning — from people with drive them — how soundly they are built ... how economical they are ... how much enjoyment there is in owning one.

THESE ARE THE MOST-COPIED CARS IN AMERICA, road-proved by 250,000 owners in two billion miles of driving.

Why wait? Enjoy your new car this summer. You'll get fair treatment and highest trade-in allowance.

Because plenty of Americans insist on comfort, convenience, style and value, traditional leaders had to "move over"—
as assuer-Frame became the fourth largest manufacturer of motor cars in the world in two short years.
