From where I sit... *by Joe Marsh*

**One Great American Trait**

I always think it does a newspaper editor good to get out from behind his desk and see how folks in other parts of America look, and think, and act.

And that's what I've been doing these past weeks, touring the country from Michigan to Texas, California to Maine. It's a mighty encouraging experience. Not only because of the different points of view you run into—but because of the tolerance which reconciles these different points of view.

I mean, the tolerance of a Pennsylvanian farmer for the habits of his city cousin; the tolerance of folks who vote one way towards those who vote another; the tolerance of those who prefer spring water towards those who enjoy a moderate beverage like beer.

From where I sit, it's that great American trait of tolerance—respect for individual tastes and liberties—that makes this country strong. Let's never lose it!

*Joe Marsh*

**Silo Should Be Ready For Filling Soon**

A little time taken to put the silo in good condition will result in better keep of the silage according to agricultural engineers at MSU.

The silo should first be cleaned by scraping off any old silage that may be adhering to the walls. All litter at the bottom of the silo should be taken out.

Air leaks in walls may cause silage to spoil. Walls should be carefully examined and small cracks filled. Melted paraffin applied with a paint brush is good for this purpose. Since paraffin is inflammable when hot, care should be taken when using it. It should be brushed into cracks or joints while it is still warm.

**Rural Tele-news**

**THE RINGS YOU CAN'T HEAR**—Many improvements in telephone service come about so gradually that it's sometimes easy to overlook the results. Take the matter of ringing on rural lines, for example. Ten years ago, nearly every rural-line telephone customer served by Michigan Bell heard the rings of all other parties on the line. Today 87 out of every 100 hear the rings of no more than half the parties on their line.

**METAL MUNCHER**—Squirrels occasionally gnaw holes in the lead sheathing around telephone cables. To prevent damage from moisture reaching the wires through these and other types of openings, many cables are kept filled with gas. When the gas escapes, lowered pressure sets off an alarm in the telephone central office. Sensitive devices help tell where the break has occurred and a repairman can go out and clear the trouble, in most cases before service is interrupted.

**DIAL DECADE**—Ten years ago only one-tenth of the telephones on Michigan Bell's rural lines were dial. Today, even though the war years temporarily halted the extension of dial service, nearly two-thirds of the rural-line telephones are dial. Michigan Bell's \$12,500,000 5 year postwar rural expansion and improvement program will mean still more rural dial telephone service as time goes on.

**MICHIGAN BELL TELEPHONE COMPANY**  
Our \$12,500,000 postwar rural construction program means more and better rural telephone service

**Why You Should Vote For ALBERT J. RAPP For Probate Judge**

Next Tuesday, September 14, 1948, you will be called upon to nominate a successor to Hon. Jay G. Pray, who is retiring from the office of Probate Judge.  
After a careful study of his public record, we heartily recommend the candidacy of Albert J. Rapp for the office of Probate Judge of Washtenaw County, for the following reasons:  
He is a self made man, obtaining his legal education by attending Law School nights after working days for the New York Central Railroad, while being married and maintaining a home for his family.  
He would not have served Washtenaw County as Prosecuting Attorney from 1931 to 1941 if he had not been competent and efficient during which period he assisted in solving the problems of hundreds of unfortunate juveniles involved in broken homes.  
Having been a successful attorney and counselor at law for 21 years, he is fully qualified and competent to judicially exercise the functions and duties of Probate Judge in the settlement of estates of deceased persons, and to protect the rights and interests of that class of persons who are unable to defend themselves, such as widows, orphans, neglected and dependent children, juvenile delinquents, insane, feeble minded and epileptics.  
He is likewise judicially qualified to preside over the Juvenile Division of the Court as he is married, has a daughter and two grandsons, and as a parent, he has learned by actual experience the obligations devolving upon him in the rearing of children along lines of kindly discipline, of sympathetic understanding of their problems, and a humanitarian interest in the future welfare of all juvenile delinquents should they be brought before the Court.

We, therefore, urge you, your family and your friends to be sure and VOTE for ALBERT J. RAPP, Non-partisan candidate for Probate Judge, at the Primary Election to be held next Tuesday, September 15, 1948. (This advertisement compiled and published by citizens of Washtenaw County interested only in more efficiency in Local Government)

Put New Life in your Old Engine... with this **Special FORD LIGHT ENGINE OVERHAUL**  
Here's what we do:

- Remove carbon
- Inspect pistons, wrist pins, timing gear
- Inspect valves

# WEEKLY NEWS ANALYSIS

## U. S.-Russia Events Reach Climax: Moscow Parley Continues Uneasily; Soviets Sever Consular Relations

By Bill Schoontgen, WNU Staff Writer

**EDITOR'S NOTE:** This analysis is based on the news items that are the most important in the current news situation.

### Discussion

Kaeskina, the U. S. state department pointed out as it ordered him out of the country. It was a sensational turn of events. In a note to the Soviet ambassador, the state department asserted that Kaeskina had, in effect, misled his own government with regard to the investigation of the matter. The note stated that the Soviet ambassador had misled the U. S. state department with regard to the investigation of the matter. The note stated that the Soviet ambassador had misled the U. S. state department with regard to the investigation of the matter.

### RUSSIANS: Chimeric

Viciously every avenue of public opinion in the U. S. was being used to attack the Russians. The attack was vicious and was being used to attack the Russians. The attack was vicious and was being used to attack the Russians.

### To Escape

Lying word and abandoned in her hospital bed in New York, Mrs. Oksana Kaeskina finally got around to telling the story of why she left the Soviet Embassy in Washington. She said that she had been forced to leave the embassy because of the pressure of the Soviet government.

### VIEWPOINTS: Religious

It was thoroughly democratic. In a series of addresses to the first assembly of the World Council of Churches, the religious leaders of the world discussed the role of religion in a world of peace and cooperation.

### INSTALLMENTS: Regulated

Just exactly what effect the newly imposed restrictions on credit buying would have on the big world market has been devastating. The restrictions were designed to control the flow of credit and to stabilize the market.

### Hit the Road

Prospective home buyers who might find themselves in a bind because of the new housing law are being warned by government housing experts to avoid that trap. The experts advise that buyers should be cautious and should not be misled by the promises of the new law.

### Watch That Credit

Prospective home buyers who might find themselves in a bind because of the new housing law are being warned by government housing experts to avoid that trap. The experts advise that buyers should be cautious and should not be misled by the promises of the new law.

## Washington Digest

### Man Is Riding Life Cycle Toward His Destruction

By BAUKHAGE

WASHINGTON—Today we have two visitors whom I met recently at the Smithsonian Institution. They are Neanderthal and Mr. Cro-Magnon. They have come a long way. The Neanderthals lived about 50,000 years ago—but what's a few thousand years among friends or relatives? I doubt that the Neanderthals are relatives of ours—and I'm not sorry.

### RADAR NET: Inadequate

What with one thing and another, Americans can't help but wonder what would happen if this country suddenly were to be attacked in radar that could detect all incoming aircraft. The question is whether the present radar net is adequate for the purpose.

### Political Pounding

It is a very good representation of the population of the earth has increased almost five times. In 1900 there were 1,600 million people. Today there are 2,500 million people. This increase has led to political and social changes.

### MR. CRO-MAGNON

It is a very good representation of the population of the earth has increased almost five times. In 1900 there were 1,600 million people. Today there are 2,500 million people. This increase has led to political and social changes.

### On the Way

American farmers will have more trees to plant next year than ever before in our history. The government is encouraging farmers to plant more trees to improve the soil and to provide shade for their crops.

### MRS. NEANDERTHAL

She couldn't take it. The relation between land health and health of human beings is actually no more than a delicate aspect of the delicate complex aspect of all life.

### Buy U. S. Savings Bonds!

Wanted to buy U. S. Savings Bonds. These bonds are a safe and profitable investment for everyone. They are guaranteed by the U. S. government and provide a steady stream of income.

## Careful Planning Urged To Make Light Meals Nutritious and Balanced

ARE THE LIGHT MEALS you serve always nutritious? Or are they just something you throw together to see what you can do with the things in the refrigerator?

Light meals can be made nutritious and balanced by careful planning. The key is to include a variety of foods that provide essential nutrients.

## PEARL: COME HOME

It was all my fault, Pearl. I admit I was early and grumpy. No wonder that you left me so soon. But everything's better now. I've found out that constipation caused by lack of bulk in my diet can be relieved. Believe me, I advise others who suffer the same way to do what I did: just eat a bowlful of KELLOGG'S ALL-BRAN every day and drink plenty of water. They say it's America's most famous laxative—believe me, it sure goes over well. Or make it up into muffins—they taste grand too. Come home, Pearl, and find a new new man waiting for you. That's not—your ever-loving husband, JOE.

It was all my fault, Pearl. I admit I was early and grumpy. No wonder that you left me so soon. But everything's better now. I've found out that constipation caused by lack of bulk in my diet can be relieved. Believe me, I advise others who suffer the same way to do what I did: just eat a bowlful of KELLOGG'S ALL-BRAN every day and drink plenty of water. They say it's America's most famous laxative—believe me, it sure goes over well. Or make it up into muffins—they taste grand too. Come home, Pearl, and find a new new man waiting for you. That's not—your ever-loving husband, JOE.
