VOLUME EIGHTY-TWO MANCHESTER, MICHIGAN, THURSDAY, JANUARY 20, 1949 NO. 18

New Budget To Cost County 30 Million Dollars

President Truman's proposed budget calling for federal expenditures of \$41,500,000,000 during the 12 months beginning July 1 of this year will cost Michigan taxpayers approximately \$1,900,000,000. That is the estimate made by the Michigan Survey, a state taxpayer organization, based upon federal tax collections in 1948.

Manchester Area Fills CROP Quota First In County

The Christian Rural Overseas Program is well under way and Manchester, Sharon, Freedom and Bridgewater townships can be proud that their carload of wheat was the first to leave Washtenaw County a week ago Tuesday. This wheat is being sent to help supply food to 43 countries.

Legion Auxiliary To Hold Dinner At Next Meeting

The American Legion Auxiliary met for its regular meeting at the Legion hall with 20 present. Mrs. Hulda Schabale gave a report that 26 boxes were delivered to the hospital during the Christmas season.

Community Chest Gives \$200 To 'March Of Dimes'

Approximately \$7,000 for patient care was spent in 1948 by the Washtenaw County Chapter of the National Foundation for Infantile Paralysis, according to Judge H. Payne, Chairman of the March of Dimes drive which began on Friday, January 14th.

Manchester Woman RECEIVES CALL FROM RADIO QUIZ PROGRAM

Many Manchesterites were thrilled on Saturday night when the "Sing It Again" program broadcast from New York over WJLB, Mrs. William Brown received a call from New York. She answered the first question correctly but was unable to name the voice. She was informed by letter Tuesday that she would receive a Wilcox Gay Award in about four weeks as a prize for answering the question.

'Flying Dutchmen' Win 2; Pinckney Here Friday

Manchester's Flying Dutchmen triumphed in the meet in first place in the "League of the Lakes" contest at Dexter Drednaughts 59-21 at Dexter last Friday night. The Dutchmen won all four of both teams with 22 points dropped through the hoop. B. Cannon was named MVP and the Dutchmen were named MVP of the day.

Cribbage Tourney Begins Monday At Legion Hall

Manchester is now tied for the league lead with Pinckney. Four highest priced articles, the self binder would cost from \$120 to \$125. We sold a great number of articles through the year. But not at these prices, not with combines, all new kinds of farm equipment and the new tractors selling at better than \$2,000. It surely has been some champagne.

Mrs. L. V. Kirk New President Of Altar Society

The St. Mary's Altar Society held their annual get-together at the home of Mrs. L. V. Kirk on Monday evening, January 18 with 21 members present. The business meeting was opened by the chairman, Ed W. Haeussler. The minutes of the last meeting were read and approved.

PTA Meeting Held Monday

The Manchester PTA held its January meeting at the school last Monday evening, January 17th. During the business meeting at which the vice president, Hazel Kappeler, presided, the secretary and treasurer's reports were read and accepted.

Wind Causes Considerable Damage In This Area

Manchester did not entirely escape the high winds of the storm which raged through the Michigan Tuesday night and early Wednesday. The damage was done to the room at the time of the storm. Mr. and Mrs. Gordon Bowers occupy the farmhouse. The chimney was erected about three years ago.

SON OF FORMER LOCAL RESIDENTS IS BURIED AT JACKSON

Mr. and Mrs. John Ekin attended the funeral services of their grandson, Pfc Robert Ekin at the Manassas funeral home in Jackson, formerly of Manchester, on Tuesday afternoon. Pfc Ekin was the son of Mr. and Mrs. Harold Ekin of Jackson, formerly of Manchester.

MR. AND MRS. VINCENT LEPHIS CELEBRATE 30th ANNIVERSARY

Mr. and Mrs. Vincent Lephis celebrated their 30th anniversary on their thirtieth wedding anniversary on January 11, when a number of neighbors came to spend the evening with them. Card were played and Elizabeth Lephis entertained by singing several selections, accompanied by her sister, Mary Lephis.

for his comforting words. —Louis Aiken and family.

CARD OF THANKS
No words can quite express my gratitude to my friends for their gifts, cards and many other attentions I have received during the beautiful holiday season. It is such a joy to be remembered thus by one's friends. I thank you, sincerely. Mrs. Georgina Anthony.

CARD OF THANKS
We wish to express our sincere thanks to our neighbors, friends, Ford Motor Co., employees, Masons, OES for the many flowers and acts of kindness during our recent bereavement. Also to Rev. Fred Ambrose.

CARD OF THANKS
We wish to extend our many thanks to our neighbors and friends and the message of sympathy and beautiful floral offerings shown us during the illness and death of our loved one; also the kind assistance we received by Charles Ball and George Coleman; and the comforting message, Rev. Ernie Brance given us. Mrs. Ed Brighton and family.

Hardware And Implement News
By Dresselhouse & Davison

IF THE year of 1949, gets things upset like the weather has since the first of the year we won't know whether we are going to come with half way round, Last week we had two inches of snow in Southern California. But we won't complain as long as the odds come our way.

WE'VE have counted all the hardware and boots and the What-nots and it has been totaled up and the next thing to do is to see how big a slice Uncle Sam wants.

AT CHRISTMAS time we received a few of those Plinkin' Shoes, but the demand was so great that they did not go half way round. Last week we received a few more, so if you want a pair we can serve you while they last.

FOR the last few months, Farm Equipment has not been coming through as it should, but is beginning to come a little better now as we have received many new pieces of machinery and several mowers from the New Idea Co.

It looks very much as if fence would be very scarce again this spring and to those who will want some we will say that we have about 1000 rods. at present, so do not tarry by the wayside.

THE Heating Stove business has been had this season on account of the mild weather and we have about 1000 rods. at present, so do not tarry by the wayside.

Check Lamps, Shades to Make Sure They Match Your Rooms

By Ethel Haley

WHEN YOU bought the lamps for your room, did you buy them because they were pretty and because they appealed to you, or did you select them especially to go with the style and furniture of your room?

Perhaps this sounds like a foolish question, but strange as it may seem, many lamps have been bought in this very way.

Now, what about the colors on your lamp shades? Are they light? Or do they have a color that is not used anywhere else in the room?

Have you grown tired of the lamps? Or, do you still like them just as much as when you first put them in the room?

Yes, there are some of the questions you must answer with regard to lamps in your rooms. It may be

Woman's World

Check Lamps, Shades to Make Sure They Match Your Rooms

By Ethel Haley

WHEN YOU bought the lamps for your room, did you buy them because they were pretty and because they appealed to you, or did you select them especially to go with the style and furniture of your room?

Perhaps this sounds like a foolish question, but strange as it may seem, many lamps have been bought in this very way.

Now, what about the colors on your lamp shades? Are they light? Or do they have a color that is not used anywhere else in the room?

Have you grown tired of the lamps? Or, do you still like them just as much as when you first put them in the room?

Yes, there are some of the questions you must answer with regard to lamps in your rooms. It may be

PIES ARE ONE of the favorite choices for dessert all over the world.

However, whether you're making your first, twenty-first or your hundredth pie, there's no reason for it to be anything but the best.

It isn't difficult to make a good crust, better does it require extensive experience.

Social Efficiency

Can we tell when someone is about to "go to pieces"?

Excuse for trying to hurt them. Finally, there's the neurotic who goes about making trouble, not because he is really a fighter, but because he has a deep, unconscious need to suffer which he gratifies by making people dislike and abuse him.

Should you let a child know his illness scares you?

Answer: Never. If you possibly can help it! The feeling of insecurity he'll get from seeing you show "weakness" may hurt him worse than the pain he has to suffer, and that applies to the after-effects of an illness as much as the illness itself.

Do some people really like to quarrel?

Answer: Yes, for several reasons. A weak person, for example, may feel that he has to pick a quarrel every now and then to prove he's not afraid to stand up for his rights, while one with a secret vein of cruelty may deliberately get himself angry to give him a better

Brain Operation Relieves Grief

By Dr. James W. Barton

I HAVE written several times about the operation known as prefrontal lobotomy, where the nerves supplying front lobes or portions of the brain are cut, giving great relief to patients suffering from symptoms which arise in these lobes. These symptoms are grief and great anxiety or fear.

The first symptoms of heart disease are shortness of breath and pain under the breastbone, but these symptoms can be caused by other conditions than a failing heart.

'49 Chevrolet To Be Shown Saturday
 Many Changes Noted In New Model Car

A product of three years' development work and more than a million miles of engineering research, the 1949 Chevrolet goes on display in dealer showrooms Saturday.

The first impression of the new car is one of smart styling, structural strength and generous dimensions. The entire passenger compartment has been moved forward, lengthened, broadened and lowered, affording a pleasing balance in proportions. Rearwardly the front fenders have been absorbed into the body, their vertical planes built flush with the doors. Crowns of the fenders have also been raised to fit more snugly into the hood and low, clean ensemble of the grille. To add grace and protect body surfaces, a partial rear fender has been retained.

Although the six-cylinder valve-in-head engine is basically unchanged, several refinements have enhanced smoothness and service accessibility. The carburetor is improved and contains a "fast-idle" device. The exhaust system has been "utilized" for improved sealing. A better hydraulic system and valve redistributing improves braking. Wheels are smaller mentally the same, but refined and carry low-pressure tires.

While all of the other details of the 1949 Chevrolet cannot be covered in a limited description, worthy of mention are: larger trunk equipped with automatic lock; rear compartment dome light doubled in candlepower; a concealed gasoline filler pipe, the tank now being located on the left hand side of the car; parking lamps built into the grille; a ball-bearing mounted front seat adjustment.

Hardware And Implement News
 By Dresselhaus & Davidsen

TUESDAY morning and time to write another ad and nearby every day some one makes the remark, "Why go to Florida?" as long as we have this kind of weather, so let the good work go on.

YESTERDAY we received 2 Gladstone-Ham Moore leaders that are made in Orosno, one of which is solid and the other one is for stock. If you need one speak up.

WE have a quantity of LeRoy and Gale plow points which we are about to junk and if you have a plow of that make you better get your supply at once for when these are gone there won't be more.

IF YOU wish to have anything done by your tractor before the spring rush begins you had better get in touch with our tractor experts as they are just RARING TO GO and you will be out of the way when the spring rush comes.

WE still have some of the Bracony Clothes Baskets left and if you have been putting off buying one you had better get busy as these are exceptional bargains.

HAVE you checked your tractor tires lately? If not you had better do so and not wait until the rush is on. Our stock is very complete at present.

OUR stock of steel goods is very complete and the quality is fine so why clean out your stables with crooked forks and broken shovels. We also have axes, saws, wedges, and mauls for working in the woods. You know a mechanic is no better than the tools he works with.

Occasionally during the early life of your rug or carpet a tuft may protrude above the surface. Never try to pull this tuft out, as you may injure the fabric. Instead, clip the tuft close to the pile with sharp shears.

Your new rug or carpet may also have a spot where several tufts are missing. Tufts may not be damaged or removed in service. When this happens, and when the spots are small, the tufts may be replaced by sewing in the proper colored yarn. The store from which you bought the rug will be glad to help you with this problem.

Carpets frequently receive much wear in one or two spots, such as in front of a favorite chair or near a doorway. While a carpet is new, plan to protect it against such localized wear. Use scatter rugs or reverse the rug in the room.

New Agriculture

Plan to Face a Farm Folks Must

Farm people must be well informed and be constant students in their chosen field so they may adjust operations to meet changing agricultural conditions.

E. L. Anthony of the MSC department and prepared program that both farmers and homemakers would had educational entertainment.

Each department has morning and early afternoon meetings, Tuesday, Wednesday and Thursday. At Monday is Dairy Day with general dairy meetings in the morning and breed association meetings in afternoon. The agricultural engineering department will open its farm structures conference on Monday also.

General sessions during Farmers' Week will be Tuesday, Wednesday and Thursday afternoons at 3 p. m. in the college auditorium. Evening entertainment, free of charge to visitors, will be available these three nights.

All departments have planned programs of special interest and much farmers meetings continue through Friday, January 29.

—Mr. and Mrs. L. V. Kirk visited his sister, Sister Jean Mildred, at Wayne on Sunday prior to her departure for Grand Michigan, where she will teach at a parochial school.

Rural Tele-news

HIPS TROUBLE IN THE BUD—Special equipment in the telephone central office tells the approximate location of cable trouble miles away. A tone is sent out over the wires. Then a repairman out on the line moves an electrical instrument called a "Cable Bug" along the cable until he no longer hears the tone. Right at that spot he opens the cable and finds the trouble. Another example of how fast and economical methods have been developed to do difficult telephone jobs.

ASTRONOMICAL FIGURES—To serve its customers, Michigan Bell has some 6,000,000 miles of wire and 822,000 telephone poles in Michigan. The wire is equal to 25 single strands stretched from here to the moon. The poles, if "planted" 40 feet apart, would form an "orchard" of 7,540 acres. Money for poles, wire and other equipment needed to provide service comes from folks who invest a part of their savings in the telephone business and expect a fair return on their investment.

RURAL-LINE SERVICE IS WHAT YOU MAKE IT—The quality of rural-line service rests in the hands of those who use it. It can be good service if everyone shares the line... spaces out calls... surrenders the line when others have emergency calls to make... hangs up the receiver carefully after each call.

MICHIGAN BELL TELEPHONE COMPANY
Our 213,000,000-gallon annual investment program means more and better rural telephone service.

MILK TESTING by Veryl Frost
It is very important for dairy farmers to test their milk every month and keep a record of it. That is why the agriculture class is planning a milk testing program. We will now test milk for any farm interested in making a good dairy herd. There will be a slight charge for chemicals.

This program also includes weighing the milk every day and keeping a record of it. This will enable farmers to find out their best producing cows and the habits of a town school.

The F. F. A. will plan their school at 9:00 a. m. and will come out and get it.

F. F. A. PLANS PARTY FOR RURAL EIGHTH GRADERS by Veryl Frost
The Manchester F. F. A. are planning a party in early spring for the eighth grade students of all the nearby rural schools. The plans are being made to help the rural school children become better acquainted with the habits of a town school. The F. F. A. will plan their party at 9:00 a. m. and will come out and get it.

Take the wheel

try the new FORD "FEEL"

One word tells the whole story of the new Ford—it's "Feel"! You feel a new ease of handling... traffic in parking, on the open road. That's Ford's Fingerprint Steering! You feel a new kind of surging power. That's Ford's new "Econo-Power" Engines—your choice of a new 100 h.p. V-8 or a new 95 h.p. Six! You feel new stopping power! That's Ford's new 35% coasting "King-Size" Brakes. You feel new comfort, too, from Ford's new springs, front and rear! And Ford's "Mid Ship" Ride has the feel of luxury and safety you've always wanted. But take the wheel—try the new Ford "Feel" yourself!

Cutaway view shows the "Mid Ship" Ride and brand-new springs that let the wheels step over bumps!

Care Of Tractors Now Pays Off In Spring

If that farm tractor is to be other implement, should be ready to go at the first break of wood just as though you were spring, it needs some attention getting ready for a big day in now, according to Jack R. Schram, agricultural engineer at MSC. The farm tractor or any other machine should be cleaned or replaced.

Schram advises if the crankcase is refilled with new oil and the tractor or engine run for a short period of time, the protective film of new oil will be pumped into all working parts.

Wheels should be jacked up off the ground. The spark plugs should be removed and two tablespoons of motor oil placed in each cylinder, and then the engine turned over by hand. Batteries should be stored inside. All drain cocks should be opened and fuel drained from tank and carburetor.

Schram reminds that complete draining of the radiator and bleeds and leaving all main plugs open or out is also important.

FACTS...

About the Proposed ELECTRIC RATE ADJUSTMENT

• GOOD SERVICE... MUST BE CONTINUED!

Interior electric service would be a poor bargain no matter how low the cost might be. In order to continue supplying the kind of electric service Michigan needs, we have had to ask the Michigan Public Service Commission to approve new and somewhat higher electric rates.

• OUR COSTS HAVE SHOT UP!

You know how YOUR cost of living has risen. Our costs have risen too. Everything we buy is higher. Wages are up, food is up, materials are up, construction costs are up.

Electric rates have stayed down, but now they cannot withstand the trend any longer. They must go up a bit to enable us to continue giving you the kind of service you want.

• OUR EARNINGS... NEVER CAN BE LARGE!

Even under the most favorable conditions, an electric company never can earn large profits. Its earnings are regulated by the Michigan Public Service Commission. Only a fair return on the value of the property used in supplying service is permitted. Present earnings are much less than a fair return.

• CUSTOMERS BENEFIT WHEN THE COMPANY IS STRONG!

Inadequate earnings soon weaken a company. It is to the customer's interest to keep the electric company strong. Fair earnings enable it to give good service, expand its generating plants and other facilities as customers' needs require. The rate adjustment we have asked will be a good thing for Michigan and for all our customers.
