RED FACES: In Pentagon

There were red faces Pentagon building, seat of army bureaucracy. A citizens' committee had declared flatly that the nation's nilitary establishment is "cumber some and costly" despite reported

unification.

The members speculated that Russia might be trying to achieve "victory by bankruptcy" in forcing the United States into constantly increasing military expansion.

THAT APPRAISAL came from a committee of the Commission on Organization of the Executive ranch of Government, established by the last congress. Former Presi-dent Herbert Hoover heads the whole commission, Ferdinand Eber-stadt, New York financier, is chair-

stadt. New York financier, is chairman of the unit reporting on national security. Other members include educators, newsyspermen and business executives.

The committee said that "while unitedation had made the United States far better prepared, the cost of defense preparations were alarmingly high in terms of money, manpower and drain on resources." manpower and drain on resources."

It cited mistakes it said had been made by the armed forces, hence the red faces in the Pentagon.

It ended that President Truman might well have asked for compiete mobilization if he had followed the estimate that 'an immediate military effort was afoot abroad, rather than an intensification of the

points, the Netherlands government reluctantly finds itself obliged to take military action (against terrorist activities and undisciplined elements in the require who render any constructive policy impossible."

The Indonesians had some support. A American member of the United Nations good offices committee charges the Dation had vollated the Indonesian truce agreement signed last January after the first abortive war in lave had ended.

higher rates than necessary. But you DO want to pay rates, we think, that will permit your electric company to main-tain the high quality of its service to you.

Good electric service at fair rates has been a big factor in the levelopment of Michigan. great in industry, in agricul-ture, as a tourist and resort area. Everyone living in Micharea. Everyone living in Michigan has shared in the benefits. Electric rates below the level of fairness would in time cause a drop in the quality of electric service. This would be a bad thing for Michigan and for you. HOW HIGH. OR LOW... SHOULD ELECTRIC RATES

BE: Electric rates should be just high enough to cover the neces sary expenses of efficient operation, including maintenance & replacement of property, plus a fair return to the thousands of stockholders who have invested their savings in the business. If the return is less than fair people won't be willing to invest their savings in your electric company. Neither will insurance companies, colleges and other institutions such as now hold a large percentage of electric company securities. It's to YOUR interest, as well as ours, to keep Consumers Pow-

HAVE YOU SEEN ANYTHING OF A SWORDFISH? By Roy Mathison

Two little girls were being taken away from London, and as a spe-cial treat someone had given them a couple of bananas - the first they had ever had. As soon as one child had taken bite of her banana the unlighted train ran into a tunnel.
"Oo. Mary," she said, "have you eaten yours yet?"
"No," replied Mary.
"Well, don't," added
"They make you blind."
