About Yeast Breads

It's important to use all-purpose flour in making bread and rolls with yeast because this contains gluten.

Cake flours are short on gluten and do not make good bread with yeast.

When you ready the dough for rising, grease the top of it lightly with butter, fat or salad oil, and cover with a clean towel.

Light greasing helps prevent a crust from forming on the dough.

The towel prevents dust from coming in contact with the bread.

Bread and rolls should be removed from their pans immediate-ly after baking so they will not
