Dead Wrong

OBSERVE THESE LAWS

When safe, 25 miles an hour is the lawful speed limit. Drive in the outside lane except when overtaking and passing another car.

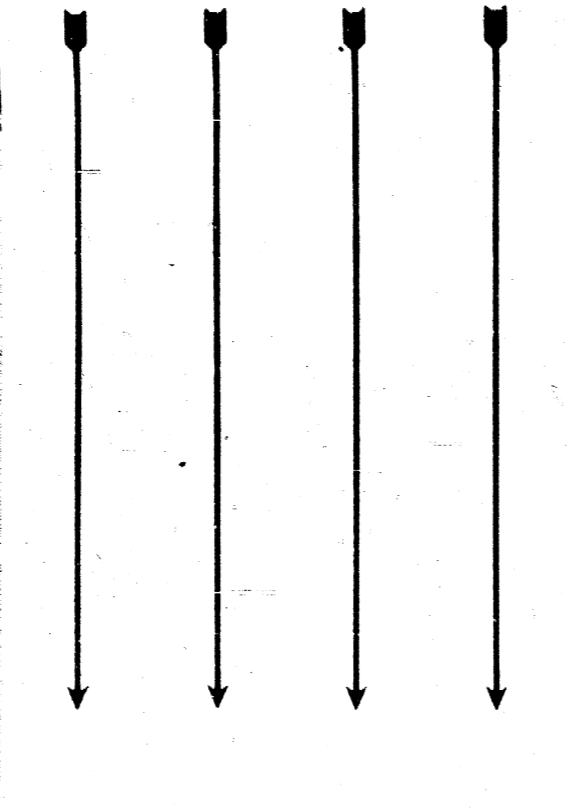

When the yellow line is on "your" side of the centerline it is unsafe to pass.

Both pedestrians and motorists MUST obey traffic signals. STOP—look before entering any highway from a private drive. For your own safety leave your car from the "curb" side. Walk on the left side of the highway. Make sure another train is not coming after the first one has passed.

Avoid skidding by driving at reduced speeds. If you feel sleep—sleep—but not at the wheel. Pull off the road and nap. Sleep is the best care for sleepiness.

During the darkest hours with only 1 1/2 the number of drivers on the road 2 1/3 of the FATAL accidents occur.

KEEP ON THE RIGHT SIDE OF THE ROAD.

Shore's Farm, a new restaurant on M 11 just west of Manchester, opened Saturday in a remodeled equipment barn on the Shore poultry farm.

The eating place is owned by Sam Shore, who for the past 15 years has operated a Dearborn restaurant specializing in chicken dinners.

Michigan Department of Agriculture. Approximately one-third of this product will be consumed immediately as fresh milk and cream while about four million pounds will go into the manufacture of butter, cheese, evaporated milk and ice cream.

June butter has the best flavor, and a great deal of it will go into storage for consumption next winter. June cheese is considered the best cheese for ripening to develop that aged, tangy flavor, so necessary in good cheese. Michigan butter and cheese production for 1949 is expected to be considerably above the 1948 production level stated.

Records show that it costs at least five or six cents a jar to can most products. Higher than average fuel costs may make the canning cost even higher. Then there's the cost of the product itself. If you have to buy it, of course surplus garden products that would be wasted otherwise present a different situation.

Another consideration for canning is storage space for those beautiful jars of fruits and vegetables. If you haven't a good cold dry place to store them, they won't be nearly so tempting next winter and are much more likely to spoil.

Proper equipment for canning is a very important part to consider because it is necessary in processing foods that will keep. For fruits and tomatoes a large container that will work as a hot water bath is ideal. It should be deep enough so that the jars

placed in it in a rack will be at least two inches under the top of the water. All vegetable need to be canned in a pressure pan, a destroy all spoilage germs, foods need to be processed longer in a small saucepan than in a large pressure cooker. Oven canning is very dangerous and very unpredictable.

Mr. and Mrs. William Nelson, Nelson of Stockbridge and Mr. and Mrs. Clara Nelson, Scott, spent the week with Mr. and Mrs. William Nelson.

June is Dairy Month

30 IMPORTANT DAYS IN MICHIGAN

June has been proclaimed Dairy Month in Michigan by Governor Williams—not as a good-will gesture to dairy farmers but because dairying is generally considered the state's most essential industry.

Milk provides Michigan farmers their largest cash income—more than 218 million dollars last year.

The million dairy cows on Michigan farms provide in excess of 2 billion 650 million quarts of milk a year. These dairy herds represent an investment of 273 million dollars just in livestock alone.

But aside from these impressive figures, Milk has won a place in the "Hall of Fame" as the most essential item of food in the American diet—it is indispensable to the Nation's welfare.

More than 15,000 members of this Cooperative are working unitedly to provide their markets with the finest of milk and dairy products. This month they are setting aside a portion of their incomes to help finance both state and national programs of research and experimentation. These projects are carried on to improve the quality of their herds and products and find new uses for milk. All of which contribute to better health and a greater enjoyment of life by all of our people.

Wedding Plans

IF YOU'RE PLANNING to entertain after the wedding and make all the refreshments yourself, with just a little help, do consider a simple menu as the most effective means of doing it.

You'll probably have to cook in large quantities since many guests will be there.

There will have to be a variety of dishes. All the food should be easy to eat and easy to digest.

For a large wedding reception, a simple menu like this:

- Four A Layer Wedding Cake (Serves 16-20)
- 4 cups sliced cake
- 1 teaspoon baking powder
- 1 teaspoon salt
- 1 cup shortening
- 4 eggs
- 1 cup granulated sugar
- 1 cup milk
- 1 egg yolk
- 1/2 cup cream
- 1/2 cup sugar
- 1/2 cup flour
- 1/2 cup butter
- 1/2 cup vanilla
- 1/2 cup almonds

For a smaller wedding, a menu like this:

- 1 cup water
- 1/2 cup shortening
- 1/2 cup sugar
- 1/2 cup flour
- 1/2 cup butter
- 1/2 cup vanilla
- 1/2 cup almonds

For a very small wedding, a menu like this:

- 1 cup water
- 1/2 cup shortening
- 1/2 cup sugar
- 1/2 cup flour
- 1/2 cup butter
- 1/2 cup vanilla
- 1/2 cup almonds

For a very small wedding, a menu like this:

Mighty Casey Hasn't Struck Out

By GRANTLAND RICE

WHEN Casey Stengel came back to New York from St. Petersburg just a month ago, he was almost in a complete daze.

He knew Joe DiMaggio was out of the game, but he didn't know that when he returned to his job.

There is more in Casey's manager and a sneer on Casey's lips.

And when he looks around the field to call his rival's bluff, he has a rooster in the place of a doubt that Casey knows his "bird."

In his event young Jerry Coleman, at first, his pitching coach, became the best in their league.

As one Yankee veteran explained it, "When our hitters fall down our pitchers step in."

When our pitchers step in, our hitters come to life. But most of the time, both our pitchers and our hitters are on the job.

When our hitters fall down our pitchers step in.

When our pitchers step in, our hitters come to life.

When our hitters fall down our pitchers step in.

Letters To The Editor

Dear Editor: For the past few years a few men of the surrounding counties have been trying to establish a summer baseball league in order to give the members of American boys a chance to play games with other boys of the same age. The boys are mostly interested in it, that group which is usually very enthusiastic, but too young and small to be considered a participant. These are the boys between the ages of ten and fifteen.

WE'VE always heard of people having too much company and some of the drowsy sleepers in the bathtub or dresser drawers but over the holiday week end is the first time that we've heard of anyone sleeping in a suitcase.

MICHIGAN MIRROR

Like the old nursery song "Who killed Cock Robin?" Michigan has a new political dispute to tussle over. "Who's to blame for the coming state deficit?"

Governor G. Mennen Williams criticizes the Republican legislature. In an address before the state CIO convention in Grand Rapids, he urged labor to "pump some guts into the legislature to face the terrific financial situation in Michigan."

Rather than operate the state in the "red," Governor Williams intends to call the legislature back into special session. He is whipping it up for a tax on corporation profits as a "painless" way to get more money.

He is also planning to hammer away at the legislature's refusal to enact new taxes. Williams says that the legislature is on the defensive—a good strategy if it works.

In his plea for new taxes, the governor has some newspaper editorial support. Here are a few examples: Battle Creek Enquirer: "The major fault in the legislature session was the refusal of members to halt the financial crisis before it occurred." Jackson Citizen-Patriot: "It is inconceivable that a legislature should call for a special session while a deficit... threatens the state."

Robert F. Steadman, state controller, forecast on May 27 an operating deficit between \$70 and \$72 million in the light of a continuing decline in general business conditions.

John P. Egan, chairman of the house ways and means committee, is a veteran in the legislature. He is now serving his 25th year.

It has been Egan's conviction that the constitutional earmarking of state funds for education and local governments, twice upheld by the voters would inevitably lead to a state treasury deficit. He has often suggested "it might be a good thing to run a deficit and pay it off with a bond issue when they adopted sales tax diversion." (This amendment returns 75 per cent of sales tax revenue to schools, cities, villages and townships, leaving the other 22 per cent for state services.)

Egan's recommendations, which the legislature apparently approved, may be back in the state back in January, 1950) when we can see where we stand.

TO THOSE individuals who vaguely for economy in state government, it is suggested that they look at the Michigan present financial troubles. He vigorously opposed the sales tax diversion amendment which he says is the root of Michigan's present financial troubles.

Michigan's present taxation system has produced some paradoxical situations. Only 34 counties paid as much in state taxes as they received from the state treasury.

Take Clinton county, for example. Representative Espie received \$1,319,225 in state revenue during 1948. Clinton county taxpayers paid \$1,175,325 to the State. The "bonus" from Lansing was \$201,870. Since local taxes in Clinton county totaled \$511,170 the effect was to get \$1 state bonus for every \$2.53 of county taxes.

GETTING "SOMETHING for nothing" thus is the financial blessing conferred by Michigan's present house-passed tax setup upon 49 counties.

The situation becomes more involved, politically at least, when the populous counties which pay the bulk of state tax demand reimbursement in the legislature. Then you get a city vs. county argument. It is the so-called neglect of big cities which prompted Mayor George Walsh, Grand Rapids, to sue forces with the Michigan Education Association for the diversion amendment victory.

WILL THE legislature receive credit or condemnation for its refusal to enact new taxes at the 1948 session? The legislative shadow of the coming state deficit remains a challenge.

It has already provided Governor Williams with a new issue. A "do-nothing" legislature which lacks "guts" to avert a deficit.
