weekly picture story

Among the often frenetic and sometimes startling efforts in the development of regional tourist areas to satisfy the U.S. vacationist's yen to see new and strange places, the Midwest's Wisconsin Dells is refreshing as a spot where natural beauty has not yet been sacrificed to garish display.

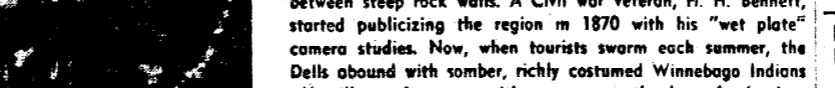

Stand Rock is the trademark of the Dells. It is a 50-foot pillar separated from the main cliff by a space of six feet. The top is a slab of sandstone 20 feet in diameter.

ty of food and protective habits. Beach strollers are lined along the shores of lakes. Trout streams have been untroubled by planting of brown trout and red pine mountain ash, Hawthorne, rose, magnolia and wild rose.

To provide access to fishing lakes the state has acquired nearly 280 fishing sites, 261 on rivers and 118 on streams. Some have been obtained due to tax revision; others were purchased from private owners.

Because fish markets at dams have not proved to be entirely satisfactory, the department has transferred thousands of well-cared fish and minnows to power dam ponds above.

Plans to provide trout ponds have been built in southern Michigan at Spring Creek near Pontiac, Spring Creek in the Waterloo area and a tributary to the Dogwige River near Summerfield.

Noxious fish, such as carp, have been removed by netting them in 12 lakes. The waters there were stocked with trout.

While the base and panfish prospects are steadily improving the brook trout continues to present a problem. The pressure is greater than ever as more fishermen turn to fly casting. Overfishing is depleting the trout population in Michigan streams.

Year-round fishing for panfish now is a limited and experimental scale, others the best hope for better fishing in the future.

Michigan lakes contain more panfish today than 50 years ago. It properly managed they may continue to attract thousands of fishermen.

MICHIGAN MIRROR

More than one million people men, women and children can't be wrong!

Fishing in Michigan has become "big business". Nearly one-third of the million plus fishing licenses to be issued in 1949 will go to non-resident tourists.

All of this is timely. Saturday (June 25) opens the traditional bass and panfish season on lakes otherwise closed to year-round fishing.

This point bears emphasis for the legislature permitted the state conservation department, beginning in 1947, to designate 20 lakes for year-round fishing.

The latest on the experimental Lord's a good hearing as he list is Hess lake in Newaygo county.

Anglers may fish at any time, summer or winter, for sunfish, bluegills, perch, rock bass and calico bass.

The 1949 legislature weighed evidence submitted by fish management experts and voted to liberalize the rules still further.

Effective September 23, the six inch size limits on panfish will be removed. The legal limit continues at 25 in any combination per day.

Why this change in thinking on conservation of fish? Year-round fishing and removal of size limits are complete reversals of the sportsman's traditional attitudes.

The latest on the experimental Lord's a good hearing as he lists in Newaygo.

This point bears emphasis for the legislature permitted the state conservation department, beginning in 1947, to designate 20 lakes for year-round fishing.

All of this is timely. Saturday (June 25) opens the traditional bass and panfish season on lakes otherwise closed to year-round fishing.

The idea that fishing can be improved if more fish are removed from the lake is one of those things that confound the sportsman. At first it doesn't seem to make sense. Then the fish management expert brings in his factual proof. Tests show that

Whether you play tennis as an amateur or a professional, you can find just the correct racket, balls and other equipment at PAT'S SPORTING GOODS.

# June Marks Beginning Of The Polio Season

This is the beginning of Michigan's polio season. These are the things which parents can do, according to the Michigan Department of Health:

1. Keep your children clean, well rested and well fed. See that they wash their hands and faces thoroughly before eating.
2. Do not allow them to over exert themselves or to become chilled.
3. Avoid crowds, new contacts and travel.
4. Destroy flies, rats and mice and the things they have touched.
5. Do not let your children eat food that has been left uncovered or unwashed fruits or vegetables.
6. Give them only pasteurized milk.
7. Be sure that the water they drink, wash in or swim in, is free from contamination.
8. Consult your physician about postponing nose and throat surgery, and your dentist about postponing tooth extraction until after the polio season.
9. Call your doctor at once if

the following encouraging symptoms appear: unexplained fever, headache, nausea, a cold, upset stomach, muscle weakness or stiffness. Put the child to bed and isolate him from others when any of these symptoms appear.

Early diagnosis, prompt hospitalization and proper treatment are the doctor's weapons against the disease.

It is difficult to tell when a child has been exposed to polio. Nine out of ten cases are light, unrecognized cases. This type of the disease is contagious. Adults as well as children may have the disease. Some people who appear to be well carry the virus which causes polio. The virus which causes the disease is carried in bowel content and nose and throat discharges. Thus insects, animals, water or objects coming in contact with these discharges, or food on which insects or animals alight, may be suspected of carrying the disease.

The following encouraging

It's a job that takes a little extra care but the results usually justify the time taken.

J. G. Hays, extension dairyman at Michigan State college, says that it is too risky to make a hay crop without making some sort of moisture determination if the crop goes in to dry under 85 percent moisture.

The whole mass is apt to be affected by molds. If it is too wet—above 88 percent—oxygen-smelling acid develops. The cows that eat such silage and breathe in its bad odor.

To test the grass to be ensiled, Hays advises squeezing a handful of fresh chopped hay from such as alfalfa-brome. From what happens, the decision can be made whether the crop is right in moisture content to go into the silo.

1. If it won't ball up, it is too dry—add water at filler.

2. If it does ball up, and slowly falls apart, it's just right.

3. If the ball does not fall apart—stays balled up—the crop is too wet. Let it wilt awhile.

While polio myelitis cases appear the year around, the epidemic usually begins to increase in mid-June and peak in late summer, records the Michigan Department of Health show.

HERBS BECOME POPULAR USEFUL GARDEN CROP

If you are looking for something to fill in that empty space in your garden, or if you're strictly a window box grower, how about growing herbs?

Here's something to tickle your palate, please the eyes and add fragrance to your garden, believes Winson Osborn of the Michigan State college foods and nutrition department.

The so-called fine herbs will make a good beginning. They are sweet basil, summer savory, thyme, rosemary and tarragon. Also easy to grow are chives, parsley and dill. Detailed cultivation are obtainable from your county extension office or the United States Department of Agriculture in Washington, D. C.

Herbs for cooking are of three different kinds—pungent, herbs for accent, and herbs for blends. Here are some suggestions for using herbs with meat. With beef use sweet marjoram, dill, thyme, chervil or parsley.

For pork you may try majoram, celery or sage. Lamb calls for the same herbs as beef plus garlic and veal the same, plus basil. Poultry seasoning may be a combination of basil, lovage, marjoram, parsley, rosemary, summer savory, sage and thyme.

Dill, basil, tarragon and thyme are tasty with fish while scallions you may try basil, marjoram, rosemary, thyme, tarragon, chervil, chives, parsley or savory.

Don't hesitate to use more than one herb for seasoning. Just be sure you have one leading flavor with several others which will complement it. If your experiment be cautious. Too little is better than too much.

Highest Quality Dairy Products delivered to your door and at our Modern Dairy Bar. When you visit Chelsea, enjoy and refresh yourself at Weinberg Dairy Bar—Where Quality and Service Comes First.

In this review of business and service leadership in this area, we are pleased to include a company that is recognized for the quality of its products, the efficiency of its distribution, as well as the excellent service they render.

We refer to Weinberg Dairy, 2056 U. S. 12 W., Chelsea, Mich. 5770 distributors of high-grade milk, cream and other dairy products.

Processing by pasteurization and homogenization: Weinberg Dairy receives its milk from regularly inspected farms that meet every requirement for cleanliness and sanitation in the handling of their herds and the milk they supply.

Years ago Louis Pasteur developed the process which bears his name to reduce the bacteria count in milk, to improve its purity, and at the same time retain all of its flavor.

Weinberg Dairy uses the Pasteur process, plus all of the improvements, with the most modern bottle washing equipment, filling machine and cooling equipment that science has since developed to protect the health of the users of Nature's most perfect food. The result is that today Weinberg Dairy patrons enjoy the finest products that experience and modern equipment can produce. Healthy, growing babies need plenty of pure rich milk.

Weinberg Dairy products are delivered regularly at your door by friendly efficient drivers whose first obligation is the complete satisfaction of Weinberg Dairy customers.

Another Weinberg Dairy feature is that the containers are sealed at the dairy against all impurities in transport, therefore delivered to you with all of the original freshness and flavor.

Living up to their slogan—Quality First, Last and Always—Weinberg Dairy is to be complimented upon the service they render to this community.

FORD STATES  
LABOR POLICY  
IN LETTER TO  
W. P. REUTHER

To the Men and Women of Ford Motor Company:  
As you know, we are in negotiations with UAW-CIO regarding terms of a new contract to replace our present agreement which expires on July 15th.  
Because of the importance of this contract, I am enclosing a letter from me to you regarding the present agreement and our proposal for the coming year.  
I would like to see the entire letter.  
Sincerely yours,  
Henry Ford II

Mr. Walter P. Reuther, President UAW, 1001 Renaissance Center, Detroit 2, Michigan  
The negotiations have come to a turning point. Thus far, discussions have been confined to proposed wage increases, but now we are discussing the future of the company.

The situation has changed drastically since we announced several months ago that we intended to press the company for a change in the present labor agreement. This was a bold move for a company of our size, and we are now in a position to discuss the future of the company.

At various times in his active career, Mr. Reuther has served as a director of the Michigan State Bank of Commerce, Michigan State Bank of Detroit, Michigan State Bank of Jackson, and the Michigan State Bank of Lansing.

The couple was married June 28, 1949 in Detroit and for most of their married life have resided in their home at 4410 East Lapeere, Detroit 2, Michigan.

At the time of their marriage, Mrs. Watkins was the former Grace Edith Adams, daughter of Mr. and Mrs. George Adams of Jackson, Michigan. Five years ago they moved to their present home at 4410 East Lapeere.

Mr. Watkins was a member of the Michigan State Board of Education from 1946 to 1949. He is a member of the Michigan State Bar and the Michigan State Association of Attorneys.

## Mr. and Mrs. L. W. Watkins Celebrate 50th Anniversary

L. Watkins, colorful figure in Michigan politics and farm organizations for more than half a century and his wife celebrated their 50th wedding anniversary on Tuesday, June 28. Because of Mrs. Watkins' ill health the occasion was celebrated quietly.  
Watkins was a leader of the farm bloc participation in the campaign in which Theodore Roosevelt ran unsuccessfully for the Presidency.  
Mr. Watkins graduated from Michigan State college in 1895 (then known as Michigan Agricultural University) and served on its board of control for 16 years.  
Mr. Watkins was a director of the Detroit branch of the Federal Reserve Bank of Chicago and a director of the Peoples Bank of Manchester. His lodge affiliations include a life membership in the Jackson Commodore Club, the Michigan State Bank and the Masonic Blue Lodge of Manchester.  
At various times in his active career, Mr. Watkins has served as a director of the Michigan State Bank of Commerce, Michigan State Bank of Detroit, Michigan State Bank of Jackson, and the Michigan State Bank of Lansing.

Mr. Watkins was a member of the Michigan State Bar and the Michigan State Association of Attorneys. He is also a member of the Michigan State Bar Association and the Michigan State Association of Attorneys.

## ABOUT TOWN

Sunday guests of Mr. and Mrs. Rudy Pepper and family of Addison. The day was spent at Wampum Lake. Mr. and Mrs. Milton Sackett and Mr. and Mrs. Dick Way spent the week end in Algonac.  
FARMERS NEEDING HELP SHOULD CONTACT FARM LABOR OFFICE, DETROIT  
John R. Vioch, Farm Labor Specialist for this area reports that school is out and as a result there are any number of strong lunksy boys available for farm work. A sizeable number of these youth are well versed in farming from previous summers on the farm.  
Farmers needing extra help during the summer months might well investigate this source of labor. There are any number of instances where the same boy will be going to the same farm this summer because of his outstanding record in the summer past.  
Farmers interested in a good sized boy with experience should write the Michigan State Employment Service, 3139 N. Washington St., Wayne or call Wayne 3725 or they may write or call directly to the Farm Labor Office, Detroit 2, Phone number TRinity 2-4900, and ask for Mr. Kunze, who is in charge of that office.

CARD OF THANKS  
I wish to thank the neighbors and friends for their kindness and sympathy during the illness and death of my wife, Clara Gruner.—Leos Gruner.

IN MEMORIAM  
In loving memory of Donnie Clark who passed away June 28, 1949.  
Five long years have passed since you went away.  
Only God knows why you could not stay.  
But deep in our hearts lies a picture of our loved one laid to rest.  
In memory's frame we shall keep it because he was one of the best.  
He had a nature you couldn't help loving.  
A heart that was purer than gold.  
And to those who knew him and loved him,  
His memory will never grow cold.  
Sadly missed by Mother, Father, Sister and 4 Grandparents.  
CARD OF THANKS  
I wish to thank all my neighbors and friends for the many cards and gifts they have sent me during my recent stay at the hospital. Love, Edna Hughes.  
CARD OF THANKS  
We wish to thank our many friends, relatives and the Ann Arbor ladies for the many lovely cards, flowers and gifts received on our 60th Wedding Anniversary.—Mr. and Mrs. John Schill.

FOR NEXT WEEK  
For week of July 3 through 8. No playground activity Monday, July 4.  
Tuesday, July 5, hike bike to Watkins lake, courtesy of the Pashman brothers. Bring hot dogs and marshmallows for roasting if you wish. Start at 10 a.m. and return by 6 p.m.  
Wednesday, July 6, tournament play begins in all activities. Those playing will be posted on the bulletin board on side of equipment building. Those that wish to compete must sign up as soon as possible.  
Thursday, July 7, 10 to 11:30 general activities. Swimming in the afternoon at Wampum Lake. Trunk leaves the athletic field promptly at 1:00. Meet at equipment building.  
Friday, July 8, 1:30 to 4:30, general activities and some trunk dropping and further decreases this year appear certain. The drop in date has meant an important increase in the real wages of our employees. The average rates paid by our major competitor will in all likelihood be reduced. As a result we face the prospect of being at a considerable advantage in labor costs—even at our present rates.  
Auto industry economists forecast a market in 1949, 1950 and 1951 of about 6,000,000 cars and trucks annually. This compares with a national market which was running at a rate of about 5,000,000 cars and trucks annually as of June, 1949—a reduction of 32 per cent.  
So far as the security of our employees is concerned, the important problem is to retain jobs for Ford Motor Company workers in a narrowing market. Our ability to do that will depend on the price of Ford products. This, in turn, will depend upon Ford costs. Higher labor costs today—in any form—would result in loss of jobs.  
The recent strike of IAW-CIO against Ford resulted in a loss of production of 118,887 cars, trucks, and tractors. These are sales lost to competition at a time when the future security of our company and our employees makes it imperative that we better our competitive position.  
There are times when, in the interests of employees and the economy, wage increases can and should be made. In today's conditions, it would be unwise to take any action which would increase the prices of our products. The post war surges of ever higher wages, costs and prices is over.  
We will, therefore, reject any Turn to FORD. Back Page
