ON NEXT Monday evening. August 1, at 6:39 o'clock, the Veterans Farm Class will put on a demonstration on the Clyde Hazen Farm one mile south and one half mile west of town, showing how to kill weeds with Dow's 2-4 D Weed Killer and how to kill the brush in the fence rows with Esteron 44, and

TRIBLE Against tetanus, the Michagan Department of Health warned today.

Tetanus is caused by a germ, which commonly lives in the bowels of horses and possibly other farm animals. These germs are found wherever manure is found and they may be carried on dust for considerable when they get into a wound which is then closed to air.

Not many people get tetanus, but four out of five of those who get the infection die of it.

The Michigan Department of Health warned today.
