if so to correct them immediately.

Although the fire loss the past year has been down, the loss of life by fire has been up.

Some of the things the department suggests are:

Inspect heating system for poor pipes; clean registers, smoke pipes, etc. Be sure fuel supply for heating system is in proper containers or properly installed Use only mental containers for ashes from furnace, stoves, and ash trays.

Use proper fuses in fuse boxes. If these persist in burning out have system checked by electritian.

Do not allow greasy or only rags, or refuse to accumulate.
