Peace on earth to all men of good will. There's a lot to think about in that sentence. America has taken part in two world wars which started in Europe and spread to all parts of the world, and which never settled anything. World peace prevailed to a lesser degree than ever.

MAIN STREET

First of all, we, the Enterprise staff, wish all of our readers a Very Merry Christmas. We think that this is the best of us, but we'll take it for granted that everyone knows we mean what we say and that will include a Very Happy New Year—the best to all.

CIVIC CLASS SURVEYS MANCHESTER

The civic class under the direction of Mrs. Althea Heibig has just completed a survey of Manchester and the surrounding territory. Since the first portion of the survey is devoted to the study of how communities

are governed, the survey was appropriate. Also several members of the class came from outside the village limits and the survey helped them to become acquainted with their surroundings.

First, several members of the class reported on the history of Manchester, discussing the reasons why the community grew in this particular place, the people who settled here, the oldest buildings, oldest families, industries, and similar information.

Several class periods were devoted to drawing maps. Each student prepared an outline map of the city limits, indicating the important buildings such as the church, the school, the city hall, and the library, appearing in the legend of each map was a systematic classification of each structure together with the location of each structure.

After the maps were completed, a list of factories with the number of employees of each, the churches together with the names of the pastors, the population, school enrollment, soil and temperature. Each person in the class was responsible for obtaining such information.

The second grade enjoyed the movie for the instruction on illustrations given by Mr. Sorror. The band concert assembly was also much enjoyed by our room.

Our move on the prevention of the five best maps. The entire class decided upon the criteria to be used in judging. After the first five were chosen, the class voted for their choice as the best of the five. The map selected was that of Emma Scholten.

This map is on display at the Manchester Township Library. The class displayed great interest in their survey. The information gathered was at all times interesting and often surprising to the members of the class.

We have our Christmas tree and everyone is busy making decorations for it.

Ann Bus brought each of us a present from her father's collection.

We had a fine Thursday morning session on the assembly given by the band concert given by the fine band concert given by the band director.

Let us do this Christmas and your wives or sweethearts at the big New Year's Eve welcome to 1950 party to be held at the home of Mrs. Fred Jones.

Bill Schwab, a student at Sacred Heart, arrived here Wednesday to spend his holiday vacation with his parents, Mr. and Mrs. Karl Schwab.

Sgt. Raymond Steele arrived Monday night from his vacation in the States. He will spend the holidays with his brother and family, Mr. and Mrs. Lorenzo Steele.

Mr. and Mrs. Mort Spence left Tuesday for London, Canada, where they will spend their two week holiday vacation with her sister, Mrs. Fred Jones and

with all the pupils contributing to the Christmas tree.

They hope you are all enjoying the holidays.

Members of St. Mary's church purchased a beautiful and expensive upholstered chair as a Christmas gift to Rev. Fr. Terese.

Last week T. J. Farrell sold to William Gray a span of black horses and bought of him 35 acres of land joining the Howard farm.

It is no longer fashionable to have an elegant silver plated bell at the table in calling the servants.
