All of the news does not appear on Page One of your newspaper! You'll find dreams and drama tucked into the 2-and-3 copy lines of the Want Ad insertions in the back of your paper.

Yes, there's humor and heartaches . . . calls for help, and services offered . . . bargains and profits—voiced by the people, in the Want Ads!

Want Ads have their roots in the earliest forms of advertising: Long years ago, town criers roamed cobbled streets announcing strayed cattle . . . property sales . . . betrothals, and the day's happenings.

Today, Want Ads encompass home—business—industry. For here is the pulse of the people—the barometer of business—the prosperity or depression of a community forecast in the jobs offered, versus jobs wanted—in the ups and downs of real estate prices—and in countless other ways.

Look to the small type of your Want Ads for BIG opportunities. Read and use the Want Ads for profit, result and human interest—it is the world's largest market-place . . . its biggest bargain counter!

Elsewhere in this newspaper, in accordance with state law, you will find a notice of Michigan Bell's intention to ask the Michigan Public Service Commission for a further increase in telephone rates. Included in that notice are details of the new rates proposed.

What would YOU do about telephone rates if you were in our shoes?

Suppose you were managing Michigan Bell. Suppose that your job was to continue supplying the kind of telephone service that Michigan and the nation can depend on in these critical times.

Immediately, you'd run up against these inescapable facts:

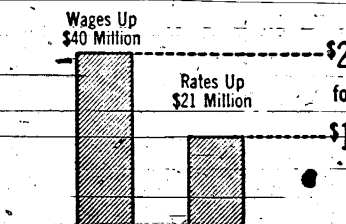

- 1. To maintain the quality of service expected by the public, to provide improved service for many thousands of present users, and to meet the needs for new service in growing communities, your Company must continue to expand.
2. On top of that, the grim shadow of war demands that telephone service be ample for the giant job of national defense. New communication facilities must be added to handle the vital needs of military establishments, defense projects, and expanding production programs.
3. But the millions of dollars to finance this essential expansion and improvement of the telephone system must come from thousands of people who have savings to invest. They'll put their money in the telephone business only if they're assured that the Company's earnings will provide them a reasonable return.
4. You'd find that Michigan Bell's earnings—the money left over after expenses are met—are far below the earnings of other businesses. In the postwar period, Michigan Bell averaged only a little over 5 cents on each dollar invested compared with 12 to 16 cents for leading industrial concerns. The Telephone Company must compete with these other concerns in attracting money from investors. And the prospects for present telephone rates to produce adequate earnings from now on are mighty slim.

- 5. You'd realize that previous adjustments in telephone rates haven't caught up with the increases in the Company's cost of providing service. The last rate increase in June, 1950, substantially improved Michigan Bell's earnings. However, a lot has happened since then. Wage increases, made effective last November, have added 5 million dollars a year to operating costs. Taxes, too, have been increased and it seems certain that they will be going even higher. Costs of materials and supplies have hit new highs. And there's no getting away from the simple fact that higher costs mean higher prices.
6. As a public utility your rates are regulated by the Michigan Public Service Commission. So, it would be your responsibility to propose—and among the Commission's responsibilities to establish—rates adequate to (a) assure continuation of high-quality service; (b) pay fair wages to telephone employees; and (c) permit earnings that will protect the savings of telephone investors and attract the additional capital needed to do the job.

Faced with those facts, what would you do? Sit back and do nothing . . . stop adding facilities . . . get along as best you can with what you have and let it go at that? Of course you wouldn't.

Even though you'd rather not ask your customers to pay more for their service, plain horse sense would tell you that you should apply at once for increased rates to make your Company's earnings adequate for the job that has to be done.

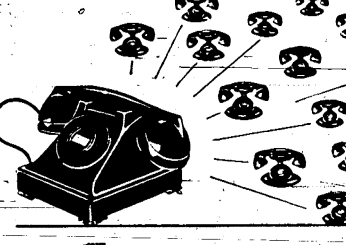

And that is what Michigan Bell is planning to do

Telephone wages versus telephone rates 1941-1950

Revenues from increased telephone rates have gone up 21% while the cost of living has gone up 84%.

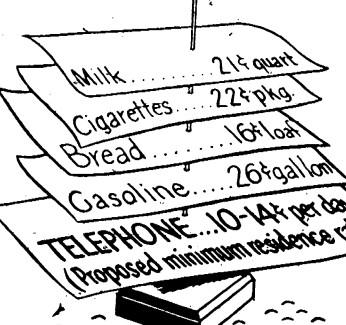

Size of "telephone package" is larger—more telephones can be reached without a toll charge.

Average worker earns enough to pay telephone bill in one-third less time than it took in 1940.

For most residence customers, the increase needed is less than 3c a day.

Telephone service would still be one of the cheapest things in the average family budget.

Let us guard your precious FURS!

IT'S HIGH TIME to CLEAN and STORE YOUR FURS

Moths enjoy feasting on Furs!

Don't play "Lady Bountiful" to a tribe of hungry moths this summer! It is important that your furs receive a long rest in our low-temperature, humidified storage vaults during the hot months ahead. Your furs are fully covered by insurance and may be removed from storage on a few moments notice.

- Our refrigerated storage vaults are the safest place for furs and winter coats during the summer.
- The air in the vaults is constantly filtered and cleaned, humidity is controlled.
- Your precious furs hang freely, eliminating wear caused by friction.

Store your furs now... take advantage of our low, off-season rates on expert restyling, cleaning, etc. ... and pay next Fall.

GRADE THREE SEES MOVIES ON BIRDS

By Billie McAtee
We have had two movies recently. "Birds of North America" showed us the birds we have been studying about in science. "Children of Holland" proved very interesting after reading the story of Jan's Home in our reading books.
We were very sorry to hear Gary Pratt broke his arm while playing at his home last Thursday.

FOURTH GRADERS STUDY NORWAY IN GEOGRAPHY

By Marianne Schok
We have finished our reader, "Let's Look Around," and are now reading from a supplementary book, "Times and Places." Our geography lessons are now about Norway. We are now learning about fiords, skerries, saeters, stabberris and many other things new to us from the study of this rugged country.

SIXTH GRADE HOLDS CLUB MEETING

By Marion Fox
The sixth grade held its club meeting Friday, April 20. We elected Joan Evilsizer for our new treasurer. We also discussed our school picnic. It will be a trip to the Detroit Zoo. Four mothers will go with us: Mrs. Bunney, Mrs. Evilsizer, Mrs. Leeman and Mrs. Hill. We are going to take our lunches. We chose teams for each mother. May 31 is the date.
Our club officers are: President, Billy Bunney; vice-president, Tommy Lannom; secretary, Joan Koebbe; and treasurer, Joan Evilsizer.

A LITTLE HONEY PAYS OFF

By Donna Sturdevant
The Juniors hopes came true for their play was a success. The members of the class decided to get Miss Vore a nylon blouse as a gift for her help in directing our play. Miss Vore and Mrs. Queen were both given a corsage of red roses. The class would like to express their thanks to Mr.

From Your Congressman

A Weekly Report From Congressman George Meader

Washington, D. C. The dismissal of General MacArthur by President Truman has forcefully brought home to the Congress its unmistakable responsibility in the development and announcement of a clear-cut American foreign policy.

The shock to the people of the United States and to the entire world from the President's removal of a great general has intensified and brought into sharp focus the feeling of insecurity and doubt existing in the minds of our people with respect to the purpose and direction of our foreign policy.

If ever there has been any subject on which the Congress and the people need to have the facts and the best thinking of the country, it is with respect to our military and foreign policy during these chaotic days.

The means for obtaining these facts and for bringing factually supported thinking to bear on this problem is the investigative power of the Congress. The employment of this remedy has been presented on the resolution adopted by the Policy Committee of the Republican Party and the Republican Conference of the House, urging that the Congress conduct an investigation of our military

A card like this says a charming thank you for a graduation gift.

Photo Greetings Say Thank You

WE ARE all so very familiar with the welcome photo greeting cards that came our way at Christmas, we may tend to think of them as being restricted to the Yuletide season when in fact they offer an ideal medium for sending highly personalized messages on many occasions throughout the year.

Your photofinisher can show you a variety of forms suitable for many types of greetings. Thank you cards are one of the most popular types because they are so very useful on those occasions when a number of gifts are received, it may be Jean or Johnny's graduation, a wedding, the arrival of a new heir to the family fortune, a golden wedding anniversary - any event which calls for an aftermath of thank you notes.

These are all the type of events that call for picture-taking. So you hurry your rolls of film off to your

Sincere thanks for your lovely gift.

photofinisher for developing and finishing. As soon as the prints are returned, select the one that you like best and turn the negative back to the finisher for printing on a card which bears a message of "sincere thanks for your lovely gift."

For graduation gift thank you's, the card should bear an informal close-up of Jean or Johnny in cap and gown. Anyone who was sufficiently interested to send a gift will be delighted to have the picture to add to his personal collection.

The wedding thank you's can carry to friends and relatives who may not have been able to attend the ceremony, a delightful informal shot of the bride and groom made either at the church or during the reception.

Photo thank you's will be treasured just as are the picture Christmas greetings.

and foreign policy. Such an investigation is long overdue. It is vital to the future course of this nation and to the promotion of peace and stability in the entire world.

This investigation must be conducted open-mindedly. There must be no preconceived conclusions, prejudices or prepossessions. There must be a complete absence of recrimination or reproval.

It must, however, be conducted in a penetrating, incisive, forthright and forceful manner. The Congressional committee conducting such an investigation must have only one goal—the interest of a free society under free institutions of Government.

It must have, but one guide—the truth. An investigation conducted by politically-minded Representatives and Senators, seeking primarily to put the opposing party in a bad light, could only add to the confusion and division among our people and the peoples of the world.

It is time we got down to bedrock and placed the interests of this country and of the people of the world above the fortunes of any political party.

There can be no question of President Truman's authority to relieve General MacArthur. The President is Commander-in-Chief of the Armed Forces of the United States, and the United Nations has delegated similar power to him over the United Nations forces in the Korean conflict.

One question not so easily answered is whether General MacArthur has been guilty of insubordination. A clear line of distinction exists, I feel, between disobedience to a superior's order involving military action and submission to censorship.

The disagreement, not only among the members of the Congress and others in official Washington, but also among people throughout the country, concerns the wisdom of the President's action.

The removal of General MacArthur is a symptom of weakness. The violent, spontaneous reaction to his removal reflects the lack of a clearly-defined foreign policy. If our foreign policy had been clear, and had been understood, and had been supported by the American people this explosive reaction would not have occurred.

Our foreign activities long have deserved more intensive attention by the Congress. The Foreign Affairs Committee of the House and the Foreign Relations Committee of the Senate should have conducted continuous and penetrating exploration of all aspects of our government's dealings outside our borders, which in recent decades have come to assume a rapidly-increasing proportion in our total national life.

If the Congress now makes intensive studies of our foreign affairs and helps evolve an intelligent and effective foreign policy, the MacArthur episode may be turned from disaster to a force for permanent progress in our international affairs.

Regardless of past mistakes, the need now is to press forward with a determined and high-minded decision to ascertain the basic facts and principles upon which a long-range, sound policy for this country in its relations with the rest of the world can be established.

Suppose Your Wife Say's

Just how do you figure you are making a good profit by feeding poultry and farm livestock?
Are you sure you can produce the records that show profits to meet today's increasing costs?
We are sure you both will agree that "It's the net profit that counts" and this calls for Zinn's concentrates and other high protein feeds and ingredients to be mixed with your own home grown grains in the right proportions for the maximum results.
We will be pleased to assist you in planning feeding programs to fit your requirements.

TO MICHIGAN BELL TELEPHONE CUSTOMERS:
Notice of Application to the Michigan Public Service Commission by the Michigan Bell Telephone Company
For Authority to Make Effective Certain Schedules of Rates, Rentals, and Charges

Higher costs inevitably mean higher prices, and the cost of furnishing your telephone service keeps on going up. As the result of wage increases for our employees last November, greater taxes, and the higher costs of services and materials, the rates authorized by the Commission last June are now insufficient to cover our needs. For that reason we shall apply to the Michigan Public Service Commission on May 14, 1951 for authority to apply the proposed rates shown below, and ask the Commission to set a date for a hearing on our request.

EXCHANGE RATES (Excluding Federal Tax)
For rate purposes, exchanges are divided into groups according to the total number of telephones that can be reached without a toll charge. The present grouping is based on the number of telephones in service in each exchange or zone on September 30, 1948. The proposed rates are based on the number of telephones on December 31, 1950.

PRESENT SCHEDULES OF BASIC MONTHLY EXCHANGE RATES

• Group 5 rates, as shown in the following table, now are applicable in MANCHESTER.
