SOIL MISUSE

Nearing the last stage before being abandoned in this farm... not in the deep south or far west, but here in Michigan in northern Kalamazoo county. Shifting sands uncover the remains of a horse, presumably buried deep enough, some 10 years ago. Layers of topsoil this layer of topsoil well with heavy machinery, which, with a smaller speed cover were grown 10-15 years ago. To save the remaining land from a like fate, conservation district forester Fred Eskin is recommending the planting of a mixed stand of oak and red pine which some day would stabilize the soil and produce an annual, valuable pulpwood and timber crop.

Manchester Fair Is Well Attended

The Manchester Fair was very well attended and due credit should be given to the Manchester Fair Board, headed by R. C. Meritt and the able committee who assisted him in the work. For the first time Manchester was able to have a fair premium book and judging from the comments of the folks about town they were very happy to have the fair information all under one cover.

The Main Street

Appearing in the Enterprise this week is a picture of the many taken at the auction at the Manchester Fair. However, we feel that some explanation is in order because the picture pictured is not the champion of the reserve champion. The picture of the prize steer, but rather than disappoint our readers he took a picture of the third place winner.

Communism Is Challenged

The Crusade for Freedom is the American people's challenge to world Communism. It offers each one of us as individual citizens, the opportunity to strike a blow for freedom—to add our voice to the voices of truth piercing the Iron Curtain. It says to the Communists:—"You tell your lies and we will tell the truth, and the truth will win."

Every day, hour after hour, the hard hitting transmitters of Radio Free Europe force the Iron Curtain sending word to the enslaved peoples... speaking Communist lies with the truth and undermining the influence of the Red rulers.

In launching the Crusade for Freedom last fall, General Eisenhower said, "Radio Free Europe has the simplest, clearest message in the world. Tell the truth." General Lucius Clay, leader of the Berlin Airlift, said, "I am proud to be a part of your work. YOUR CONTRIBUTION, GREAT OR SMALL, HELPS US EXPAND RADIO FREE EUROPE INTO A NETWORK OF FREEDOM STATIONS."

Built in record time, a giant station, Radio Free Europe, is now on the air. It is a fundamental part of our national defense. It is a vital link between the United States and the peoples of Europe. It is a powerful weapon in the struggle for freedom. It is a challenge to the Iron Curtain. It is a challenge to the Communists. It is a challenge to the world.

The United States replied by reminding the Red rulers that freedom of speech is a fundamental part of our American democracy. It is a right that cannot be taken away. It is a right that must be protected. It is a right that must be defended. It is a right that must be fought for.

Other broadcasts news the captive peoples their own history. It is a history of struggle and sacrifice. It is a history of hope and faith. It is a history of courage and determination. It is a history of freedom and justice.

CONGRESS IS QUOTING AMERICAN WEEKLIES

Twenty-one weekly newspapers were quoted in the Congressional Record during the month of July. Why does your representative, your congressman, your senator, subscribe to the weekly newspapers in his district? Because it is your voice, your voice, your voice. To you he owes his election. Your opinions and sentiments are his directives. Express yourselves through the columns of your local paper and he will know it.

Gov. Williams has reported to the weekly papers to present his problems and actions in a printed form. Do you read it? Senator Moody and Congressman Meador both take your local paper and the congressman writes a weekly account of his work in the nation's capital. Do you read it? We are glad to print a letter this week that has been sent to Senator Moody. What do you think of it?

Senator John W. Bricker, of Ohio, says, "The maintenance of a free press demands constant effort and everlasting determination. Today the American people are in the best and freest in the world, and it has become so by virtue of the fact that our Constitution prohibits government control of the press. Nowhere is freedom more clearly demonstrated or more ably exercised than in the small independent weekly newspapers of our nation."

Freedom from government control, guaranteed by the Constitution and their freedom from the pressures of great economic organizations insure the maintenance of the highest standards which have characterized their service for so many years. We salute the country's free flow of information as we know it in the United States.
