THE WORLD'S MOST WIDELY USED DEVOTIONAL GUIDE

World in Need of a Savior
Thursday, December 6

Whoever shall not receive the Kingdom of God as a little child shall in no wise enter it. (Luke 18:17)

In a hospital a little girl had to undergo a very serious operation. Her doctor said to her, "Dear child, before we can make you well, we must first put you to sleep. When you are asleep, we will operate on you. I must say my prayers. Then getting down on her knees she prayed a simple little prayer.

There were tears in the eyes of the group of listeners around the little child. The doctor afterwards said, "I proved that sleep for the first time in thirty years."

Simplicity and humility are two chief characteristics of the confidence as the conditions as living life. Children take on her knees she prayed a simple little prayer.

The way to God and grace is the humble and the childlike way. The great Pharisee got nowhere, but the six-year-old boy and his father found peace and rest. "God establish the crowd, but peace arose upon the earth." In the need of a Savior, the world has to humble itself to receive Him.

Prayer
O Lord, help us to feel our need of Thee. With contrite hearts we pray with childlike faith for the blessings which come only through Thy love and grace. "In His name be the joy of the angels, through Jesus Christ our Lord. Amen."

Thought for the Day
The peace of God in Christ Jesus is the world's need. (George W. R. Hunt)

The Present with a Future

put 'THE MAN WITH THE HOE' on wheels

It has been said that a man with a hoe is the most expensive man on the farm. That is especially true with vegetables, melons, berries, fruits and other crops that require precision planting, cultivation and weeding.

On the seat of a Model G Tractor, one man can eliminate a tremendous amount of hard work. He can place seed where you want it, to the smallest fraction of an inch. He can weed and cultivate gently, surely - right up to the row. He can handle up to six rows at a time.

Model G implements mount in front under the tractor's open arch. Crop rows and tools are always in full view. Let one pair of hands on the wheel of the Model G replace many pairs on hand tools. Stop in for full information.
