EIGHTY-FOURTH YEAR NUMBER 18 MANCHESTER, WASHTENAW COUNTY, MICHIGAN THURSDAY, JAN 11, 1951 FIVE CENTS PER COPY \$2.50 PER YEAR IN ADVANCE

## On Main Street

Just to prove that you do not need to hire a guide and fly into the Canadian wilds to catch the big ones... local fisherman Ed Wurster speared a 6 1/2 lb. pike from his fish shanty just above the bridge in downtown Manchester... Have you got room in that coop for one more Ed? ... fisherman that is!

It really pays dividends to read the ads in your home town paper... especially when the paper is in error and advertises two No. 2 cans of Monarch cherries for 33c in Higgins grocery ad instead of just a No. 2 can for 33c. The Higgins brothers are noted for their fair business dealings and therefore sold them as advertised... but did we catch it?

Coming in person... ROY ACUFF and his entire cast with the Hillbilly Jamboree and Radio Show from Nashville, Tennessee... Manchester Legion Hall Friday, January 12. Doors open at 8, show starts at 8:30. The Legionnaires will welcome your attendance.

A little notice you will see tacked on to the end of the Council Proceedings reads as follows: "Snow must be removed from sidewalks in front of your property or village will add cost of removal to your taxes"... better get out the shovel and keep the taxes down.

## OES Bestows Honors On Mrs. Lowery

Mrs. Shirley Davis of Jackson, Grand Adah of the Grand Chapter of the OES of Michigan gave the school of instruction at the last regular meeting of the Manchester OES.

Mrs. Blanch Lowery of Jackson accompanied her here and was presented with a Life Certificate for having served 25 years in the Manchester Chapter No. 101 OES. Mrs. Lowery joined the Manchester unit while she was a resident of Manchester and has always retained the membership.

At the close of the meeting refreshments were served by Mr. and Mrs. Ralph Noggle, Rev. and Mrs. John Bunney and Mrs. Paul Kemner.

## Mrs. Elizabeth Cash On Her 95th Birthday

Mrs. Elizabeth Cash observed her 95th birthday on January 4th. About two years ago when interviewed on her birthday, Mrs. Cash, who has long been one of Manchester's oldest residents, in a half-hearted way said that maybe when she was 95 she would let her picture be taken for publication. We didn't forget and the other day paid her a visit. According to her daughter, Luey, who lives with her mother, this subject of picture taking has never been forgotten by the aged lady. She notified to the daughter that when she had agreed to the picture she little thought that she would be here to fulfill that promise. Needless to say in due respect to the wishes of anyone ninety-five years old, the picture was not taken.

Putting her mind at rest concerning the picture we had a very pleasant visit for despite her age she is well informed on the events of the day. She listens to the various news broadcasts, reads some and enjoys company. She is able by the use of one cane to go about her home and seems to enjoy life to the fullest.

Born in Bicestor Oxfordshire, England, on January 4, 1856, she came to this country as a girl of seventeen. She returned once to England to visit her family and still keeps up a correspondence with relatives "back home". Her maiden name was Elizabeth Walduock. On September 28, 1874 she became the bride of George Cash, who passed away several years ago. To that union there were six children: William, Eliza Martin, Mrs. May Weber, Peter, Luey and Mrs. Mary Wallace. All of her children are living and all live in Manchester.

There was a twinkle in her eye as she said, "Now I'm go-

## PTA To Sponsor Play At School

Plans are getting underway for the PTA sponsored play "Crazy Daze," to be presented here Friday and Saturday, January 19 and 20th. A cast of nearly 100 will supplement the ten speaking parts of the play which is divided into three parts: Uncle Remus; second part includes a dance review and cowboys and Indians and the third part is a woman's less wedding.

Miss Vivian Joy of Columbus, Ohio is the director for United Productions. Working on the committee are the various members of the PTA. Mrs. Howard Higgins heads the Ways and Means Committee and will be assisted by Mrs. Roscoe Lannom, Mrs. Earl Koebe, Mrs. Roland Grossman and Mrs. Jean Wheeler. Mrs. Frank Schaffer and Mr. and Mrs. Alben Schaffer work on the publicity and Mr. and Mrs. Nelson Short and Mr. and Mrs. Roland Grossman are the ticket committee. Mrs. Earl Koebe heads the cast committee which will be announced next week.

Mrs. Koebe and her committee sincerely hope that anyone who is asked to help in any way will accept and give the PTA their help and cooperation to make the project a success. The director arrived here late because of illness and only through the cooperation of everyone can the play be a success.

The money which the PTA receives from the two day play will be used, at least in part to help purchase new uniforms for the Manchester band.

A Tiny Tot Contest will also be held in connection with the play to be sponsored by the local businessmen. There is no cost to enter a child, which includes tots up to six years of age and there is no cost to the sponsoring firm. The child receiving the most votes by Saturday at 2 p.m. January 20 will be crowned at the evening performance. Votes cost one cent each. There will also be prizes for the top winners—a boy and a girl.

Mr. and Mrs. William Reno and Mr. and Mrs. Ben Breitenwischer were dinner guests of Mr. and Mrs. Glen Feldkamp on Sunday.

Don and Weby Silkworth of Ypsilanti were Sunday callers at the Frank Schaffer home.

Mr. and Mrs. Ed Riedel and daughter, Joyce, of Jackson spent Sunday with Mr. and Mrs. Clarence Fielder.

## AREA BRIEFS

Hanna Still Has 'Em Guessing  
School board officials of Sylvan township School District No. 7 held another meeting recently regarding the proposed moving of the Red School on Manchester road to a new location so that John Hanna, "mystery project" land owner, may acquire the present site. A previous meeting was held Tuesday, Dec. 12, at the home of Mr. and Mrs. Arthur Gray. At that time a committee was appointed to work with school officials in a study of the matter and then report back at the meeting which took place at the Norman Hinderer home.

The committee's report mentioned that J. W. Price, public health engineer from Ann Arbor, visited the proposed new site across the road from the present location and made helpful suggestions as to the necessary action for legal requirements which must be complied with before the school is moved.

Hanna agreed to turn over for the school site, the northeast corner of Manchester road. The corner is part of the former Joe Merkel farm now owned by Hanna.

A reduction in federal funds made available to the Michigan Department of Health has forced the withdrawal of all but two of the mobile X-ray units operated by the State Health Department in the State of Michigan. The industrial and school survey scheduled for Washtenaw County will be made, but the unit will not reach the county until Jan. 23.

Local health department officials are preparing the schedule of visits to factories and schools to meet the revised schedule.

Twenty Washtenaw farmers are enrolled in the Farm Record Project by Michigan State College. The annual check-up for the year will take place on January 19, at the Extension office in the Court House, Ann Arbor. Four members of the Farm Management staff from the college will be present to check the record books.

The extension office has available for distribution copies of the farm record books to any farmer who desires to use them for keeping the farm records. (Continued on page 4)

## Celebrates 83rd Birthday

## Bennett C. Root Announces Complete Retirement

Frank Leeson retires as Inspector for Bureau of Foods and Standards after twelve years of service. He was honored at a dinner given by his associates at Jackson, including both city and county officers. During his years of service he worked largely in Washtenaw, Lenawee and Monroe counties, inspecting the proper preparation, handling, labeling and merchandising of all foods including stores and eating places.

Mr. Leeson, a lifelong resident of Manchester, served as postmaster for sixteen years. Always active in civic affairs he served as village president, county supervisor, Boy Scout Council member, of the board of education and is chairman of the board of the Methodist church.

The Leesons have three sons: Charles of Jackson, Regional Supervisor of State Parks; Robert, District Forester with headquarters at Baldwin; and Laurin of Manchester; one daughter, Mrs. Willard Hanks of Lansing, formerly a Jackson school teacher for 14 years.

## Forsees Increased Demand For Dairy Products

The wholesale price paid to producers in the Detroit market for Class I milk in December is \$4.76 per hundred pounds or 29 cents above the November price of \$4.47, according to figures just released by Howard F. Simmons, secretary-manager of the Michigan Milk Producers Association. The Detroit market price is arrived at by a formula which provides for a differential of \$1.35 above the average price paid during the month by Midwest condenseries.

While production in the Detroit milkshed was maintained at approximately the same level as in 1949, greater consumption of fluid milk and a decline in storage stocks of manufactured dairy products has increased the demand for milk to a marked degree, said Mr. Simmons. This has resulted in condenseries and other manufacturers paying higher prices in order to supply their markets and is reflected in the price paid to producers in fluid markets throughout the state.

On December 16, producer prices for Class I milk in Battle Creek were raised from \$4.35 to \$4.58 and in Flint from \$4.11 to \$4.70 a hundred pounds. On January 1, the price in the Saginaw, Bay-City, Midland and Mt. Pleasant markets was increased from \$4.20 to \$4.50 per hundred pounds. Muskegon producers received a 28 cent increase and the Grand Rapids price advanced by 20 cents per hundred pounds.

With prospects of large purchases of all dairy products by the government for the armed forces and foreign shipments, plus the increased demand at home for fluid milk, Mr. Simmons feels that production can only be maintained at the necessary level by assuring dairy farmers of prices in keeping with other farm commodities and manufactured goods. The December advances still leave milk prices lagging behind the general increases in other commodities, he said.

## Rolland Widmayer, Hazel McIntyre Married Dec. 29

## Russian Traveler Is Speaker At Exchange Club

John Shiraef, noted lecturer and world traveler held the interest of the Manchester Exchange Club while he told of his many experiences in Russia and Germany, having traveled through the country both legally and illegally three times.

He was introduced at the dinner by Supt. V. W. Downing and entertained his audience by allowing the Exchanges to ask him questions concerning Europe. In explaining why communism is not practical he said that communism tends to change human nature by means of force, fear, false education, concentration camps and low living standards in an effort to keep power. Russians understand only blunt talk and a strong display of force. He concluded the interview by saying, "The Americans should not be ashamed to admit to people abroad that the United States of America is the best country in the world in which to live."

Lawrence DeVerna and Laurin Leeson were guests of the Exchange Club. A football bust is being planned for later in the month with the details to be worked out by a committee. Steve Sebo, line coach at Michigan State College will be the speaker. He also was associated with Ben McCabe at Harvard. Ben McCabe was a former Manchester coach.

The football bust will be held for all athletes at Manchester high school. Working on the ticket committee are V. W. Downing and Allen Luckhart. House Committee, Luther Klager, Willard Mann and Dr. J. R. Jones and Entertainment committee, F. M. Reek, Carl Schaible and Roscoe Lannom.

# The SNAPSHOT GUILD

Charming family group shots such as this can be made easily with the aid of an automatic shutter-tripper on your camera.

## Are You in Your Picture?

In practically every family there is a person who is almost a complete stranger to the pages of the family snapshot album. Now this doesn't usually mean that this person is away from home or doesn't participate in family activities. Most of the time it is the clue to who in the family uses the camera most.

Not long ago I took a picture of an attractive young couple who have been married about four years. It turned out to be quite good, so I sent them a print. In a note of thanks, the young wife commented that when she mounted that picture in their album, she suddenly realized that it was the first picture of them together to appear in the book since the first of their two youngsters was born.

In all of the others, one of them was posed with the children while the other took the picture. Now that is what is bound to happen most of the time, but I think that every so often there should be some picture that includes everyone. You can sometimes manage this by asking an outsider to trip

the shutter for you. But this isn't usually possible in your own living room, for example.

The answer then is a small accessory for your camera—an automatic release. The photographer can set up the shot, set the release which is a spring-type control, and have about 10 seconds to take his or her proper place in the group before the shutter is tripped. Some of the older cameras, which are not equipped for synchronized flash, have such a timing element built in.

Check with your photographic dealer about automatic or remote control devices that enable you to take a picture—and be in it too. Some people feel that pictures so made are often better than they might be otherwise, because the subjects suddenly become less self-conscious when there is no longer a photographer in front of them.

In any event it is something that'll be fun to try and that will put you in your own pictures.

This sparkling shot of high school hi-jinks won a top prize in last year's National High School Photographic Awards.

## Awards Offered for High School Snapshooters

At the moment I've got what I consider a very worthwhile suggestion for high-school-age snapshooters. I suggest that you do two things with a single purpose in mind.

That purpose is to win your share of the \$3,500 prize money being offered in the 1951 National High School Photographic Awards. The two things for you to do: (1) Take a critical eye over those pictures you made last summer and in the fall for possible entries, (2) get busy right now with your camera and make some shots especially for the contest.

You're eligible if you're a regularly enrolled student attending daily any public, private, or parochial high school (grades 9 through 12) in the United States. You can enter any picture you've made, without professional help—since April 15, 1950. It doesn't matter whether you do your own developing and finishing or have it done commercially. This is a contest limited to black and white pictures, so don't send color work. Be sure the print hasn't been retouched. Enlargements are welcome, if they aren't larger than 7 x 7.

The pictures (you can enter as many as you wish) may have been used in a school publication—but if they've been used in another contest or published elsewhere, you can't possibly win a prize.

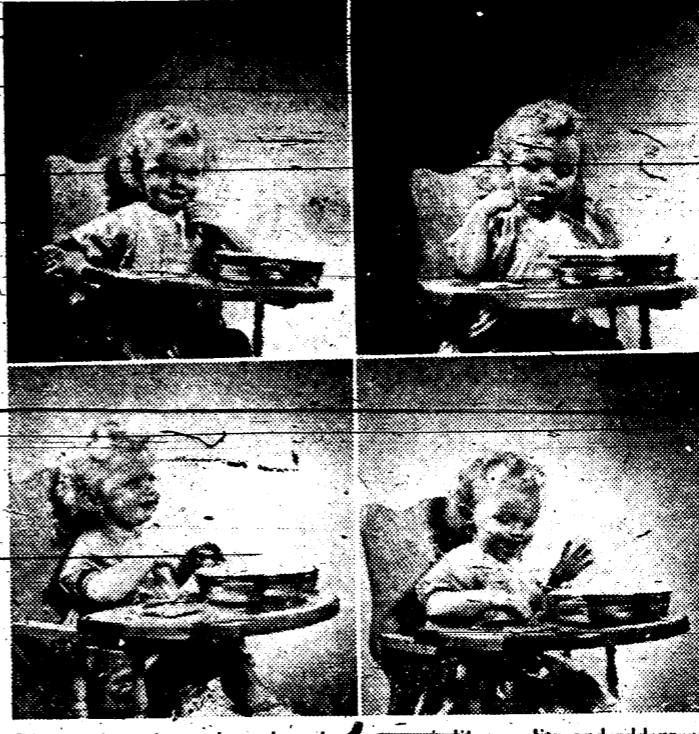

Keep your negatives handy, but don't send them in unless they are requested. Entries must be post-marked not later than midnight February 28, 1951.

Be sure you know the names and addresses of the people appearing in your pictures. This is necessary because you'll have to be able to get their written consent for the picture to be used for advertising purposes before you can win a prize.

There's a class in the contest for any picture you might want to enter because it will certainly come under one of these four headings: Babies and Children, Young People and Adults, Scenes and Still Life, and Animal Life.

Write your name, grade, school and classification of entry on the back of each picture you submit. You can probably get further information about the Awards from your school—but if you can't, write to the National Scholastic Press Association, 18 Journalism Building, University of Minnesota, Minneapolis, Minnesota.

Pictures in series such as these have a movie-like quality and add great interest to the family snapshot collection.

## Pictures in Series Tell a Story

ONE of the things we all like best about movies is that they can so easily tell a step by step story of an activity that is appealing, important, or just plain good fun. Of course, we can't capture the action with our still cameras, but we can make pictures that imply action and, by making them in a series showing the progressive steps in the action, come up with a set of snapshots that tell a story quite satisfactorily.

For most people, children are favored subjects for this type of picture taking, because of the tremendous appeal the picture stories will have in years to come.

The activity on which the series of shots is based can be as limited in scope as that shown in the above pictures of the young miss eating her lunch—or it can cover a more complex activity or a longer period of time.

Recently I saw a series that will in time come to be a most appealing family treasure. The mother who took a series of pictures of her 6-year-old daughter baking a birthday cake for daddy will always be glad that she did.

Her series tells a complete story about a very serious undertaking. The little girl is all dressed up for the occasion in her own best apron and with a towel wound about her head. The pictures follow the whole procedure, from the assembling of the required ingredients to the sticky business of swirling on the frosting and the exciting task of proper placement of the candles. It seemed to me that there was only one shot missing to make the story really complete, there should have been a picture of daddy beaming with pride and pleasure at his daughter's lovely, even though lopsided, culinary masterpiece.

For a series of picture covering a longer period of time, although not having the movie-like quality of those previously mentioned, a day in a child's life is always good subject material.

These picture stories not only have family snapshot album value, but will make warmly welcomed enclosures for letters to far-away relatives and friends.

## Around the Studios

During his recent personal appearance stint at El Rancho Vegas in Las Vegas, Nevada, Gordon MacRae, star of NBC's "The Railroad Hour," is distinguishing himself not only as a singer—but as a dancer! It seems that Gordon has added to his entertainment repertoire a soft-shoe routine which he was left over from a recent movie made at Warner Brothers. The surprised audience loved it, and Gordon is wondering if he should go back and have the studio dance instructor teach him another couple of routines—just for emergencies!

Gordon MacRae

The current storyline of CBS's "Wendy Warren and the News" deals with the problems of newspaperman "Don Smith," who has been in love with "Wendy," but who now— to everyone's surprise—plans to marry another young woman, "Kate." A letter, addressed to the program's sponsor, arrived this week, vigorously protesting this situation. "If Don marries that other girl," the listener said firmly, "I just won't listen any more, and we'll stop buying your coffee!"

Even in France, "Father Knows Best!" At least, the international influence of Bob Young, star of NBC's domestic comedy of that title is highlighted by a story in a recent issue of "Le Moutique," a Paris fan magazine. Entitled "The Double Life of Robert Young," the article draws very apt comparisons between the amusing—and often trying—situations which occur in the "Anderson" menage on the air, and those with which a French father is faced. Turns out, they are identical!

Robert Young

Peggy Wood, who plays the title role of "Mama" on the lively comedy viewed over CBS-TV Friday nights, headed back to her old home town of Brooklyn last week to find the "fixer" for an authentic Norwegian Christmas. When Director Ralph Nelson wondered aloud where they could get real Norwegian Christmas tree ornaments, Miss Wood not only recalled a certain shop in a Norwegian section of Brooklyn which she knew carried ornaments, but she volunteered to go over—and pick them out herself!

## Folk Music From Renfro Valley Folk

The lively and original Renfro Valley Sunday Morning Radio show is now heard over CBS—and features the singing and playing of the residents of Renfro Valley, Kentucky, a section of the country which has been preserved in the tradition of its original pioneer days. Smokey Danay, Thomas, listening to Lily May Ledford and Guy Blakeman tune-up, is getting right in the swing of things... ready for the day when he'll be big enough to be a full-fledged member of the Sunday Morning Gatherin'.

## Course of True Love...

Despite their cheerful expressions, Robert Haag and Virginia Kaye, as "Bill" and "Rosemary Roberts" in CBS's "Rosemary," are going through a series of harrowing adventures, either-wise—all going to prove that the course of true love not only doesn't run smooth—but it can be very rocky indeed! Bill, a young advertising man, has successfully overcome amnesia, rivals for Rosemary's affections, business competition, a brush with the underworld and, most recently, a serious automobile accident. But he still has Rosemary, and that, clearly, is enough!

## Luncheon Scoops

by Wendy Warren

This year everyone seems to have started off with good resolutions about a number of things—and firm intentions of keeping them. I've been going around this week asking my various actor friends just how many of last year's resolutions they kept.

At Colby's, the busy midtown restaurant which caters to radio actors, Teri Keane, the pert and pretty heroine of NBC's "Life Can Be Beautiful" laughed at my questions and said that she guessed she had kept her major resolution.

"John (radio star John Laikim) and I resolved to get married in 1950," Teri explained. "And we did, right square in the middle of the year, in June!"

"Well, my resolve," chimed in Vinton Hayworth, who is "Barry Markham" on "Life Can Be Beautiful," "Didn't have a chance. I was going to do all the carpentry that my wife had requested—shelves, bookcase, the works. But I was so busy last year with broadcasts and rehearsals, all she actually got me to do was to hang four pictures!"

Over at NBC's busy counter restaurant, I ran into talented Jeanette Dowling of NBC's "Where a Girl Marries," and she told me that she had been determined to get an

June Whitley

Woman's crowning glory again takes the limelight. Leaders in the fashion world, who seem to delight in making drastic changes, have now told gals that short hair is no longer tops in style but long locks are the demand. Which presents us with quite a problem, as it takes a while to make the changeover... But there are many ingenious tricks which any woman can employ

during the "in between" stage when hair is neither long nor short.

June Whitley, who plays the role of "Mother Anderson" in the radio family comedy, "Father Knows Best," has adopted a smart side swept hairdo, which gives the illusion of long hair but, in reality, lends itself best to rather short hair. "This hairdo," June adds, "doesn't require naturally curly hair and its best feature for me is that it's so simple to care for!"

June, a very active radio and screen actress, emphatically points out that the most important consideration in choosing a hairdo for yourself is to figure just how much time and effort will have to be spent caring for it. And from the experience of innumerable actresses, June sums up her advice in one word—simplicity. A natural-looking style, whether you have long hair or short, will never be out of vogue and will cut the time and trouble of keeping your hair always looking neat down to a minimum.

And take hair pieces are invaluable when you are letting your hair grow. Most beauty salons have such a wide variety of hair pieces in every imaginable color and texture that your own hair usually can be perfectly matched.

### A FRESH SLATE—

AT THE END OF THE OLD YEAR, IT IS AN ANCIENT AND HONORED CUSTOM IN AMERICA TO CAST UP ACCOUNTS AND TAKE STOCK OF WHERE WE STAND—AND TO START THE NEW YEAR WITH A FRESH SLATE.

OF COURSE WE CAN'T ALL, AS INDIVIDUALS, COMPLETELY BALANCE OUR ACCOUNTS—BUT WE CAN START WITH A FRESH SLATE TO WORK OUT BETTER, BRAVER PLANS FOR OUR FUTURE—TO PROVIDE GREATER SECURITY THROUGH LIFE INSURANCE AND SAVINGS FOR OUR FAMILIES—TO GAIN FOR OURSELVES GREATER OPPORTUNITIES AND SATISFACTIONS IN THE NEW YEAR.

### Your New Social Security

One of the important features of the amended social security law is the extension of old-age and survivors insurance to regular household workers, beginning on the first of next January.

This new law will be important to the household workers the maid or the cook—and also to the employer. The household worker regularly employed in one household will become eligible to build toward Federal insurance benefit payments; the household employer of such a worker will have certain responsibilities for the social security tax and report of wages paid to the worker.

To make this as easy as possible for the people involved, the Old-Age and Survivors Insurance Bureau and the Department of Internal Revenue have jointly devised a simple report slip for this purpose. It provides space for the household worker's name and social security number, and a space for recording the total amount of the employee's cash wages during a three-month period.

A three-month period is a calendar period. That is, three months beginning with January, April, July and October. The household employer who hires a maid, cook, or any other household worker on a regular basis will keep such a report and send it together with the social security tax to the collector of internal revenue at the end of each three-month period.

The tax is three per cent of the regular household worker's cash wages for the three-month period. Half of this tax (1½%) may be deducted from the worker's cash wages; the employer will contribute the other 1½%.

Now about that word "regular." A household worker is a "regular" worker, if he or she works on at least 24 different days for the one household employer in a three-month period.

The addition of fluorine to public water systems to prevent tooth decay will be discussed at a meeting of city, village, and other officials concerned with water supply at a meeting to be held at the County Road Commissioner's Office, 413 West Washington street, Ann Arbor, at 8 p.m. January 17th.

Dr. Philip Jay of the School of Dentistry of the University of Michigan, a national authority on the subject of water fluoridation, will address the group and act as a resource person for questions regarding results obtained in other areas where fluorine has been added to drinking water on an experimental basis.

Representatives of the State Health Department have been invited to discuss the practical problems encountered by water system operators where fluorine is used.

County Health Department officials sponsoring the meeting believe that the results of experiments conducted at Grand Rapids and several other communities warrant consideration of a program of water fluoridation to prevent tooth decay.

## From The Stenographer's Notebook

By Rose and Bond Collier

### Economic Stability

Man does not live by bread alone, but he doesn't live long without bread.

For that reason, the cost of living is one of the big problems facing the average man today.

One reason it is a serious problem is because the cost of living keeps rising. That is inflation. We have an inflationary economy.

What is economics? In a sense, economics is anything that can be measured in terms of dollars and cents. The national economy or a personal economy covers all the affairs of life that can be measured in terms of money.

Health cannot be measured by money. Happiness cannot be measured by money. Those things do not come under the heading of economics. Food, clothing and shelter are some of the things that come under the heading of economics.

Why does the cost of living fluctuate? Why can we not have a stable economy? Here are some of the ways and means by which small groups of people benefit themselves by manipulating the economy to exploit everybody else.

1. By manipulating selling prices.
2. By manipulating wage rates.
3. By manipulating the value of the monetary unit (gold, silver, devaluation, pound devaluation).
4. By speeding up production.
5. By improving methods and machinery (technological improvement) without giving the worker the share that is due him as a result of what he contributes to the improvement.
6. By manipulating the amount of work (short work periods, undue and excessive overtime and so on).
7. By manipulating taxes.
8. By manipulating tariffs.
9. The National debt.

This list is by no means complete, but perhaps it gives some idea of why we have a fluctuating economy instead of a stable economy.

A stable economy is not paraded by important people who have more money than they

can spend anyway. But a stable economy would mean a great deal to people who have to count nickels in order to make ends meet.

An unstable, fluctuating economy is very much like a ship at sea without a rudder or an anchor. In our present economy there is nothing stable and definite that we can tie to. Wages vary. Prices vary. Taxes vary. A housewife never knows how much a dollar will buy from week to week, and she cannot be too sure how many dollars will be in her husband's pay check from week to week.

The list given above, while not complete, is extensive enough to be rather discouraging in a sense, and nobody could blame the survivors, if any, of World War III if they were to back up and take a fresh start.

In the mean time, however, certain efforts are being made to some extent by the labor unions, to inject a little stability into our economy:

1. The escalator clause.
2. The annual improvement factor.
3. Pensions.

Pensions are not primarily a stabilizing factor. They offer a certain stability and permanence of income, but offer no assurance as to what that income will purchase. Of course, stability of income is better than no stability or income at all, so pensions do have a beneficial effect on our economy. They help people to consume some of the things they produce.

The annual improvement factor also exerts its influence primarily in the area of income, but it does have some effect upon the whole economy because as more goods are produced, a slightly increased income is made available with which to purchase some of those goods.

### Polio Drive To Start Monday

Washtenaw County's 1951 "March of Dimes" drive begins Monday, Jan. 15, as workers throughout the area seek to raise a total of \$24,500.

The goal this year is \$11,500 less than the 1950 drive and was lowered because of the partial failure of the 1950 last year when only \$22,000 was raised towards a goal of \$36,000.

County polio officials, all volunteer workers, point out that this year will be especially intensive in order to make up the deficit incurred last year.

During the 12 months of 1950, \$11,241 was spent on polio care in Washtenaw county, according to Treasurer J.

Wayne Meadows. However, since only \$26,987 was paid out in cash, \$14,254 in unpaid bills remain.

The same financial condition, on a reduced scale, existed at the beginning of 1950. Both times the local chapter has been forced to call on the national organization for subsidies.

Mrs. George Hall, county chairman, explained that as in the past, half of the 1951 drive receipts will be sent to the National Foundation for research and epidemic emergency aid.

Church, social and civic groups in this area are being asked to contact Mrs. Hall if they wish to have a chapter representative visit them for an informative talk. Dr. James Rae, physiotherapist at University Hospital, will give a majority of the talks this year.

Dime cards are scheduled to be delivered through the mail early next week. The drive ends Jan. 31. Checks can be mailed to Box 1951, in care of the Ann Arbor postoffice.

## Plan Pen Barn Operation For Farmers' Week

A pen-type barn operation  
 complete with a 14-cow milk-  
 ing herd, will be one of the  
 new features for the Michigan  
 State College Farmers' Week,  
 January 29 through Feb. 2.  
 The educational exhibit will  
 be located on Farm Lane be-  
 tween the agricultural engineer-  
 ing building and the livestock  
 judging pavilion. Through as-  
 sistance from commercial  
 concerns, the exhibit will in-  
 clude modern conveniences of  
 pen-type dairy business that  
 are within financial reach of  
 the average dairyman.

The exhibit is being spon-  
 sored by the agricultural en-  
 gineering department and will  
 include the following essential  
 areas of a pen barn. They are:  
 (1) the milking area with ele-  
 vated milking stalls, a combine  
 milker, and metering grain  
 feeders; (2) feeding area with  
 ground level storage of chopped  
 hay and push-back feeders; (3)  
 protected barn lot; (4) lounge  
 area secluded from traffic of  
 cows seeking feed or water.

Cows will be from the herd  
 of Hewitt Van Belsor, young  
 farmer living near Lansing.  
 These cows are being handled  
 under loose housing conditions  
 on the Van Belsor farm, and  
 will be housed under simulated  
 conditions in a 60 x 90 feet tent  
 during Farmers' Week.

Daily milkings at 9 a. m. and  
 4 p. m. Monday through Friday  
 noon of Farmers' Week will  
 demonstrate managed milking  
 in this type of a dairy program.  
 Dairy department personnel  
 will aid agricultural engineers  
 discussing this part of the pro-  
 gram. At each milking, the  
 complete story of the pen barn  
 will be explained.

## Plan Practical Women's Program For Farmer's Week

Each and every homemaker  
 in Michigan will find something  
 interesting and informative in  
 the home economics program  
 during the 1951 Farmers' Week  
 at Michigan State College. Pro-  
 grams are scheduled for Tues-  
 day and Wednesday, January  
 30 and 31, and Thursday, Feb-  
 ruary 1.  
 Tuesday's morning program  
 includes "Mealtime Around the  
 World," a discussion by five  
 foreign students and "Keeping  
 Mentally and Physically Fit,"  
 a talk by Fannie Brooks, for-  
 merly an extension health spe-

cialist. In the afternoon Mary  
 Whitlock, MSC home economist,  
 will discuss the practical topic,  
 "Getting What You Want for  
 Your Money."

On Wednesday morning Leo-  
 nard Ball, MSC economist, will  
 discuss what our dollars are  
 worth today. Karen Fladges,  
 director of the Kelvinator Kitch-  
 en, Detroit, will discuss "The  
 Planned Workshop for the  
 Home." In the afternoon ses-  
 sions talks will be given by  
 Eleanor Clauss, Faye Kinder  
 and Jessie Marion, MSC home  
 economists, concerning their  
 recent visits to Europe.

The annual style show which  
 always attracts so many vis-  
 itors will again be presented on  
 Thursday afternoon. The morn-

ing program features an at-  
 tractive schedule with Pauline  
 Paul, MSC frozen foods re-  
 searcher, discussing "What's  
 New in Frozen Foods," and Ker-  
 stin Hardenberg, visiting Swe-  
 dish professor at MSC, giving  
 glimpses of Sweden and Her-  
 People.

Tuesday's sessions will be  
 held in the Little Theater,  
 Home Economics Building, and  
 the latter two days' programs  
 will be presented in the College  
 Auditorium. Morning sessions  
 will begin at 10 and afternoon  
 programs at 1:30. Afternoon  
 sessions will close in time for  
 the audiences to attend the  
 daily general programs at 3 in  
 the Auditorium.

## LET'S MAKE P. I. P. WEEK A SUCCESS!

(By Billie Mae McAtee)  
January 15 through 19 will be "Pip Week" at Manchester high school. Pip stands for Personal Improvement Program. Home Club and H. Y. are working together to make this "Pip Week" a success and hope everyone will do their best to cooperate with them.  
The week will start out Monday morning by having a radio program in Ann Arbor, station WPAG, from 10:45 until 11:00. During the week some time there will be an assembly at which there will be a movie shown to the high school students and faculty.  
Let's all work together to

make this "Pip Week" a success and let's try to carry it on through the rest of the year.

## FFA SELECTS DELEGATES TO CONVENTION

## FIRST GRADE LOSES ONE PUPIL

(By Leola Schoek)  
Cynthia Golas has left our room to go to school in Brooklyn. We shall miss her.  
We enjoyed our Christmas vacation but are glad to be back again.  
Our mothers liked the pictures and the recipe books we made for their Christmas presents.

## RKINDERGARTEN HAS A NEW PUPIL

(By Leola Schoek)  
Cynthia Golas has left our room to go to school in Brooklyn. We shall miss her.  
We enjoyed our Christmas vacation but are glad to be back again.  
Our mothers liked the pictures and the recipe books we made for their Christmas presents.

We have a new pupil, Patricia Schneider from Vetaf School in Detroit. That makes a total of 35 pupils in our room.  
Louise Pippenger returned to school Thursday. She spent Christmas in Florida.  
We are reading in Unit II in our workbooks, "Getting Ready". We find reading is fun.

## FIRST AND SECOND GRADE LEARN PAPER-TEARING

(By Leola Schoek)  
We had a lesson in paper tearing for art, and tore out polar bears. It was a lot of fun.  
The first grade have started their number stories book and are doing very well.  
Everyone in our room came back after our Christmas vacation except Michael Briggs who is home ill with pneumonia. We hope he will be back with us soon.

## GRADE THREE CELEBRATES TWO BIRTHDAYS

(By Billie Mae McAtee)  
December birthday children were Ronald Walter and Marianne Leedy. Marianne's mother and little Michael came with a birthday treat for everyone.  
Curtis Pippenger spent his Christmas vacation in Florida. We enjoyed hearing about his trip. He answered many questions for us.

## Farmers Sound Capitalists, Nation's Economic Leaders

THE IMPORTANCE of the farmer in American economy was highlighted by Thos. J. Watson, International Business Machines Corporation Board Chairman, in his address to the New York Advertising Club when he was recently presented with the club's annual bronze plaque of achievement. "Our farm assets total 127 billion dollars," Mr. Watson said, "and our farmers with their more than 90 per cent equity in their farms have the soundest capitalistic position of all." Mr. Watson described the farmer as having an influence on everything done in the United States—socially, economically and politically—because of their "stoutness."

Thomas J. Watson

Advertising has played a very important part in putting the farmers "where they are," Mr. Watson added, "by proving through advertisements the value of farm machinery and how much the farmer can accomplish by farming in the right way. Some of the best advertising today is in the farm papers and farm journals."  
The speaker also stressed the need for advertising to keep the American way of life before the people of the country. "We must always keep in mind," said Mr. Watson, "that when any individual or any country or any organization feels it has 'arrived' and gets complacent, it will not be very long before it will be going in the other direction."  
Mr. Watson described the rise in spiritual and educational values throughout the country. "These values," he said, "are what we have to depend on for the success and security of our future. Membership in churches is growing faster than the population. In edu-

## Friendship—Four Thousand Miles Apart

Never quite got the hang of how to play chess myself, but I'll say this for the game—it started one of the strongest friendships I know of: between Dad Wilson in our town and a fellow in Sudbury, England.  
The two of them have never met or seen each other—but for eight or nine years they've been playing chess by mail together. Dad puzzles over the Englishman's latest letter, takes a couple of days to think it over, and then airmails a chart of his next move.  
Dad always thinks best with a mellow glass of beer beside his chessboard. And the fellow in England writes that he does the same. "Almost as if we were in the same room," says Dad contentedly.  
From where I sit, you can talk about diplomacy and foreign policy, but it's often little friendly things—like a game of chess or a glass of beer—that can make for tolerance and understanding between people of different nations, between folks here at home!

### NEW PAPERS ADDED TO LIBRARY

(By Nancy Budnik)  
Three new papers have been added to the Manchester school library. They are The Jackson Citizen Patriot, The New York Times and The Manchester Enterprise.

### LET'S MAKE P. I. P. WEEK A SUCCESS!

(By Billie Mae McAtee)  
January 15 through 19 will be "Pip Week" at Manchester high school. Pip stands for Personal Improvement Program. Home Club and Hi-Y are working together to make this "Pip Week" a success and hope everyone will do their best to cooperate with them.  
The week will start out Monday morning by having a radio program in Ann Arbor, station WPAG, from 10:45 until 11:00. During the week some time there will be an assembly at which there will be a movie shown to the high school students and faculty. Let's all work together to

make this "Pip Week" a success and let's try to carry it on through the rest of the year.

### FFA SELECTS DELEGATES TO CONVENTION

(By Nancy Budnik)  
The FFA has selected two delegates to the state convention to be held in Lansing sometime in March. These delegates are Paul Downing and George Blalock. The alternates are Gordon Schwartz and Tom Snyder.

### FIRST GRADE LOSES ONE PUPIL

(By Leola School)  
Cynthia Golas has left our room to go to school in Brooklyn, N. Y. We shall miss her. We enjoyed our Christmas vacation but are glad to be back again. Our mothers liked the pictures and the recipe books we made for their Christmas presents.

### RKINDERGARTEN HAS A NEW PUPIL

(By Leola School)

We have a new pupil, Patricia Schneider from Vegal School in Detroit. That makes a total of 33 pupils in our room.

Louise Pippenger returned to school Thursday. She spent Christmas in Florida.

We are reading in Unit II in our workbooks, "Getting Ready." We find reading is fun.

### FIRST AND SECOND GRADE LEARN PAPER-TEARING

(By Leola School)  
We had a lesson in paper tearing for art, and tore out polar bears. It was a lot of fun.

The first grade have started their number stories book and are doing very well. "Everyone" in our room came back after our Christmas vacation except Michael Briggs who is home ill with pneumonia. We hope he will be back with us soon.

### GRADE THREE CELEBRATES TWO BIRTHDAYS

(By Billie McAtee)  
December birthday children were Ronald Walter and Marianne Leedy. Marianne's mother and little Michael came with a birthday treat for everyone.

Curtis Pippenger spent his Christmas vacation in Florida. We enjoyed hearing about his trip. He answered many questions for us.

THE IMPORTANCE of the farmer in American economy was highlighted by Thos. J. Watson, International Business Machines Corporation Board Chairman, in his address to the New York Advertising Club when he was recently presented with the club's annual bronze Plaque of Achievement. "Our farm assets total 127 billion dollars," Mr. Watson said, "and our farmers with their more than 90 per cent equity in their farms have the soundest, capitalistic position of all."

Thomas J. Watson

Advertising has played a very important part in putting the farmers where they are," Mr. Watson added, "by proving through advertisements the value of farm machinery and how much the farmer can accomplish by farming in the right way. Some of the finest advertising today is in the farm papers and farm journals."  
The speaker also stressed the need for advertising to keep the American way of life before the people of the country. "We must always keep in mind," said Mr. Watson, "that when any individual or any country or any organization feels it has 'arrived' and gets complacent, it will not be very long before it will be going in the other direction."  
Mr. Watson described the rise in spiritual and educational values throughout the country. "These values," he said, "are what we have to depend on for the success and security of our future. Membership in churches is growing faster than the population. In edu-

cation, we are increasing the number of schools and improving facilities for educating our young people.  
"Some 30 years ago, we were spending \$48 a student a year. As of 1947, we were spending about \$132 a student annually. This figure continues to increase. In the past two years we have added 155 new colleges and universities in the United States," the speaker said.  
The Advertising Club's award was bestowed on Mr. Watson by Andrew J. Haire, past president of the Club and president of the Haire Publishing Company. Last year's award recipient was General Dwight D. Eisenhower.

### FIFTH GRADER SCORES PERFECT PAPER

(By Bob-Brick)

### Friendship—Four Thousand Miles Apart

Never quite got the hang of how to play chess myself, but I'll say this for the game—it started one of the strongest friendships I know of: between Dad Wilson in our town and a fellow in Sudbury, England.  
From where I sit, you can talk about diplomacy and foreign policy, but it's often little friendly things—like a game of chess or a glass of beer—that can make for tolerance and understanding between people of different nations, between folks here at home.

Prayer  
We thank Thee, our Father, that Thou hearest us when we pray. At this moment Thou art listening and loving Thy children; yes, loving even me. In the name of our Master, the Savior of the world. Amen.

Thought for the Day  
Circumstances cannot imprison me today; through prayer I abide in the Father's love.  
Charles M. Laymon (Ohio)
