

INDEPENDENCE DAY 1951

Remember Our Servicemen On The Fourth Of July

"THEY HONOR THEIR FLAG BY SERVING THEIR COUNTRY"

The work that we do is the making of the flag.

I am not the flag; not at all. I am but its shadow.

I am what you make me; nothing more.

I swing before your eyes as a bright gleam of color, a symbol of yourself, the pictured suggestion of that big thing which makes this nation. My stars and my stripes are your dream and your labors. They are bright with cheer, brilliant with courage, firm with faith, because you have made them so out of your hearts; for you are the makers of the flag, and it is well that you glory in the making.

EIGHTY-FOURTH YEAR NUMBER 42 MANCHESTER, WASHTENAW COUNTY, MICHIGAN THURSDAY, JULY 5, 1951 FIVE CENTS PER COPY \$2.50 PER YEAR IN ADVANCE

How Fast Is Fast? Poses Question

This question, Chief Charles Schebor told the Enterprise today, probably arouses more widely divergent opinion among drivers than any other traffic safety topic.

"When such a blurred difference of opinion exists," Chief Schebor said, "it is obvious why so many traffic accidents each year involve a speed violation."

A dangerous number of motorists, Chief Schebor said, refer to the National Safety Council's speed limit as "too fast" or "too slow." He said that a driver cannot be depended upon to have complete control of his car.

"Actually," Chief Schebor said, "too fast" may be any speed from 100 mph to 100 mph per hour. We can't just arbitrarily say that 80, 70, 60 or 50 miles an hour is "too fast" and let it go at that. There are times and places, for instance, when 90 miles an hour may not be an excessive speed at all—a supervised race course, for example. Even more often than that, however, there are times and places when 20 miles an hour may be literally "too fast."

Chief Schebor's interpretation of the problem was based on the theory that weather, road surface, mechanical factors and the driver's physical and mental condition are the real determining factors in the problem of what is a safe speed and what speed is dangerous.

"Posted speed limits," he said, "give only the top speed at which enforcement and engineering officials feel travel is safe under ideal weather, physical and mechanical conditions. Anything less than that calls for a proportionate reduction of speed."

Chief Schebor's discussion of speed violations with the Michigan State Safety Commission's announcement of the June-July program of traffic safety education, which has as its slogan: "Now Take It Easy!" The program is being sponsored in cooperation with the Police Department and the National Safety Council.

"Year in and year out," Chief Schebor said, "about 9,000 traffic accidents in which at least one person is killed involve a speed violation of some sort. This is the price that drivers can expect to pay if they forget, or ignore, the fact that dangerous driving is any speed—when weather or other conditions are such as to cancel out an appreciable part of the driver's skill."

Couple Wed At Sharon Church

Billie McAtee, daughter of Mr. and Mrs. William McAtee of Chelsea, and Leland Herman, son of Mr. and Mrs. Albert Herman of Manchester exchanged wedding vows at the Sharon Hollow Bible church at a double ring ceremony performed by Rev. May on Saturday, June 30 at 7:30 p. m.

Palms and summer flowers formed the background for the candlelight service. Traditional wedding music was played by Miss Linda Reck.

Given in marriage by her brother George McAtee of Grass Lake, the bride was attired in a gown of white satin with fitted bodice, a scalloped lace yoke and full skirt, cap sleeves and lace mitts. She carried a cascade bouquet of white mums carried with blue baby mums. Her fingertip veil fell from a tiara of seed pearls.

Mrs. Harold Demint of Grass Lake was her sister-in-law of honor. Her gown was of pastel blue and she carried a cascade bouquet of white mums. The bridesmaids were picture-hatted and carried bouquets of yellow roses. All attendants wore picture-hatted and carried bouquets of yellow roses.

The bridegroom was wearing a tuxedo and carried a bouquet of yellow roses. The bride and groom were accompanied by their parents and other relatives.

Children Eye Pet Show Slated For Wednesday

The Junior Playground program for next week has been lined up by Mrs. Charles Mills as follows:

Monday will include craft work with painting of pottery articles which the children have been moulding out of clay for their doll houses which the children are planning to make out of orange crates. Work on the doll house will begin on Monday.

Tuesday plans for those who do not go swimming will again include crafts. Mrs. Mills will go to the lake to assist with the group of swimmers there, but will leave competent help on the junior playground.

Wednesday a pet show will be the big event beginning at 10 a. m. on the playground. Prizes will be given for the biggest, smallest, prettiest, most unusual, noisest pets as well as the one with the longest tail, the curliest hair and the longest eared pets. Three prizes will be given in each category.

Thursday will include special games and music.

Friday there will be a hike to the Rolland Grossman home with children asked to bring their own lunches.

There are about 80 children enrolled in junior playground. Helpers last week included Mrs. Ann Boutel, Mrs. Charles Knopp, Mrs. Frank Reck, Linda Reck, Sue Higgins, Evelyn Haviland, Mrs. Earl Alber, Marilyn Hesselwerdt, Marilyn Wenert, Mrs. Willard Mann, Eunice Nichols and Geraldine Way. Substituting last week were Mrs. H. B. Allenbernt, Jo Miller and Nancy Heimerdinger.

There were 75 out for swimming the first day of the season and this was better than the all-time high last year of 72. The enrollment this year has reached over 100. Six weeks of lessons are included with Carl Krasger of the University of Michigan, the Red Cross in-

Jo Ann Koernke Falls Into 9-Foot Ditch

Jo Ann Koernke, eight year old daughter of Mr. and Mrs. Otto Koernke is improving satisfactorily from injuries received when she fell into a nine foot ditch while playing a neighbors yard a week ago Monday. As Jo Ann fell she attempted to break the fall by grabbing a cement block.

The block was lost and fell with the girl striking her just below the knee. She was treated by a local doctor who took nine stitches in the wound. Her condition is good.

Miss Mary Ann Knopp of Birmingham is spending a two week vacation with her aunt Miss Loreta Knopp.

Webster Schill is a patient at St. Joseph Mercy hospital at Ann Arbor where he was taken for observation.

Floyd Starr Receives Honorary Degree From U. of M.

Among those who received honorary degrees from the University of Michigan at the June 16th Commencement was Floyd Starr, founder and president of the Starr Commonwealth for Boys, Albion, Michigan, who was awarded Master of Arts in recognition of the "magnificent work" which he had done for so many years successfully conducted for the benefit of underprivileged boys.

This is a well-merited tribute to the almost four decades of devoted work, much of it pioneering, by this well known authority on the reformation of 2000 teen-aged boys who as Uncle Floyd says "got out of the wrong foot" in front of the library.

DO's and Don'ts for Your Summer Vacation Automobile Trip

Automobile travel on the nation's highways is expected to reach a new peak this summer. To help travelers get the most pleasure out of touring, and to help keep their cars in the best possible condition, the Road Service Department reminds owners of the following DO's and DON'T's:

- DO be particularly careful to watch crankcase oil level on long trips. DO remember to switch tires and to watch pressure, especially on hot days. DO wash your car once a week to remove road dirt and grime. DO keep the windshield free of dust and dirt at all times. DO give your car a Lubrication treatment. DO remember that most drivers can get 10 percent more miles per gallon by observing economy rules.

"Alger For Governor" Campaign Begins

Organization of "Alger for Governor" Clubs in Washenaw County got underway this week after Secretary of State Fred M. Alger, Jr. announced that he will be a candidate for the Republican nomination for Governor in the 1952 primary election.

What of Williams? He says he likes being governor and that at the present time he expects to be in there fighting his aides state wide. "He'll run."

Most observers forecast an increase in the treasury deficit in the new fiscal year starting July 1, 1951. Thus the pressure is due to mount for additional tax revenues to finance public services of the state and local governments.

Government spanked us publicly and called in the neighbors to watch," said Rep. H. Brigham (R-Battle Creek).

ment, an amendment of the state constitution permitting a state income tax on individuals and corporations; and a federal constitutional amendment limiting federal taxation to five percent of the national income, thus permitting local and state governments to recapture part of revenues now going to Washington.

Says Auditor General Martin: "Federal encroachment on every available field of taxation threatens the very existence of our state governments."

"City of Freedom"

The featured entertainment attraction for Detroit's 25th Birthday Festival this summer is the "City of Freedom" show, which will be held on July 21 and 22 at the Motor City Stadium.

"City of Freedom" boasts a cast of more than 1,000 actors and actresses performing on a huge five-level stage. Novel lighting effects and living sets are nightly a sight of originality to an elaborate setting.

White commemorating the city's 25th anniversary, "City of Freedom" is not strictly a historical review. Rather, the show tells how great town fought for its freedom—freedom from slavery, freedom of the living wage, freedom of speech, freedom of political opinion, and freedom of time and space through the city's most famous product, the automobile.

A 100-voice chorus, 34-piece symphony, and 20 orchestras will help recapture the eras of the past; the early auto, the tandem bicycle, the early au-

to, the Twentieth, and the unforgettable days of the Depression and the great World Wars.

Two of the two original songs have been recorded and are now being heard over the air in juke boxes, and are on sale at the record shops. The opening show, "The Great Town," and a jolting waltz, "Once in a Lifetime," are the songs.

The 25th anniversary of the "City of Freedom" will precede the birthday dedication ceremonies on July 21 and the main parade on July 22. The 2 1/2-hour production will begin at 8:30 p. m. and last until midnight.

Tickets for the spectacle, at \$1.50, \$1.00 and \$2.50 are available by mail at the Motor City Stadium, 411 Veterans Memorial Building, Detroit 26, Michigan.

Take Your Pick of Berries

Take your pick of berries, for what could be better than a ripe berry jam? Why a combination of berries for jam of course.

Of course there's the old-fashioned combination of raspberries with blackberries. We suggest too, the strawberry and blackberry dessert. But there are so many interesting ways for the imaginative homemaker to combine summer berries. These are just a few.

So what are we in the midst of the season—make the most of all these delicious berries. Use them singly and match them for unusual and new recipes.

But Williams made his point. Some Republican legislative leaders have estimated that only \$20 million was needed for the current fiscal year. These spokesmen are in disagreement with Auditor General John E. Martin of Grand Rapids, avowed candidate for the United States Senate, who recently predicted a substantial treasury deficit of upwards to \$60 million by June 30, 1952.

Michigan's 1951 sour cherry crop is expected to go 88,000 tons. If this estimate is realized it will be 10,000 tons below 1950's record yield.

As summer begins in earnest, Michigan conservation officials again open their endless campaign to halt forest fires. But on the practical side of it, eight more tractor-tankers are under construction.

A Wayne county farmer sold a load of hay he represented as weighing 18,920 pounds. The load was 11,643 pounds short, costing a riding academy \$110.

Says Miles A. Nelson, of the State Agriculture Department, "And \$119 ain't hay."

A survey of northern breeding areas shows a decrease of 10 to 30 percent in sharpshin grouse and prairie chickens.

Disgruntled Michigan motorists and tourists will be happy to know that 200,000 more state maps are being distributed.

Already 300,000 have been given out.

Commissioner Donald S. Leonard of the Michigan State Police has gone on record as favoring legislation to permit wire tapping by law enforcement agencies. "Properly used," he said, "it would be a detriment to gamblers and racketeers."

Insobordination seems to be a bigger reason for dismissal than inefficiency.

This prototype new structure now being planned and several more to be constructed throughout the state could mean the difference between small brush or weed fires and many-acre forest fires.

The towering shaft is a conservation department 15-foot-tall radio tower looking post, district headquarters, and with law enforcement and forest fire mobile units. Before in mind spot areas, forest towers were dependent on a radio relay system. Other radio towers are slated for Caro, Detroit and Potosi areas. At an address, a radio tower in southwest Michigan. A total of 21 radio towers now help link up 149 fire lookout towers throughout Michigan.

Two of the two original songs have been recorded and are now being heard over the air in juke boxes, and are on sale at the record shops. The opening show, "The Great Town," and a jolting waltz, "Once in a Lifetime," are the songs.

The 25th anniversary of the "City of Freedom" will precede the birthday dedication ceremonies on July 21 and the main parade on July 22. The 2 1/2-hour production will begin at 8:30 p. m. and last until midnight.

Tickets for the spectacle, at \$1.50, \$1.00 and \$2.50 are available by mail at the Motor City Stadium, 411 Veterans Memorial Building, Detroit 26, Michigan.

Farming has moved up from fourth to third place as the most dangerous way of making a living. About 55 of every 100,000 agricultural workers are killed each year. Only the construction industry, mining and quarrying had higher occupational death rates.
