NOW...dig a hole a minute

This combination of WD power and the Danuser Digger takes the work out of hole digging — whether for fence posts, poles, seedlings or construction work. This well-proved digger now mounts directly on the WD Tractor ... is driven through the power takeoff, and controlled by the tractor's hydraulic system It's a one-man, easy-to-operate tool, adapted especially for use with the WD Tractor. Ball-joint mountings prevent damage when passing

over rocks and stumps with the digger in the operating position. Shear-bolt on auger drive will release before digger is damaged. The Danuser Digger adds another to the long list of jobs the versatile Allis-Chalmers WD Tractor can do.
