

## Polio In The Family? You May Have It!

When one member of a family has polio, recent studies indicate that others in the family may also be infected with polio virus, either with or without clinical symptoms of the disease.

### The Main Street

Not on Main Street but still on M-11 west of town a milk truck skidded off the snowy pavement last Saturday, plunging over an embankment and overturned. The driver, John H. Jenkins of Chelsea, was not injured.

And test we give more publicity to one direction than another we better tell our readers that on Monday a small plane was forced down in a field on the Clyde Gieske farm on Pleasant Lake-Road north-east of here. The pilot, whose name could not be learned by this office, left the small plane in the field and luckily managed to get a ride into Detroit. According to reports he was en route from Pontiac to St. Louis when the plane apparently developed ice in the gas line. The pilot told farmers he would be back on Sunday for it. Being going he neglected to anchor the small craft and the heavy wind on Tuesday caught the small plane and tipped it over. Without a doubt the pilot will be surprised when he returns on Sunday.

Most of us have put our Christmas cards away for this year—certainly we are not still receiving them. But not so with Carl Wuerthner—just this week he received another one from Germany—making a total of 176 which he has scotch-taped to and around his buffet. The unique part is that out of the entire number of cards there are no two cards alike.

Kind of cold weather to be left without an overcoat that fits—but somehow someone made a mistake and took the wrong one down at the Emanuel Church Hall on John Deere Day and the one they left for Clayton Gieske although black in color and very similar in appearance features sleeves made for a man much shorter. Seems too that Mr. Gieske had some gloves in the pocket of his coat. For more detail check our classified section.

Walt Scheible attended a 3-day apparel market of the Michigan Retail Clothiers at the Sheraton-Cadillac Hotel at Detroit on Sunday through Tuesday and while there attended a board meeting and election of officers of which he is a member.

Virginia Parker is now working at the office of Dr. J. R. Jones. For the next couple of weeks the Joneses will be vacationing in the south.

William K. Schaffer is not vacationing in the south but he did receive a telegram from Fort Meyers, Fla., which made him very happy. The message was from his grandchildren, Cheryl and Douglas Schaffer, congratulating him on his 78th birthday.

# Mobile unit grades apples in the orchard, boosts profits

Field tests have shown that mobile orchard graders increase the net income from apple crops, especially where fruit is stored orchard run or marketed in unfaced crates. Michigan State College Agricultural Experiment Station, in cooperation with the U. S. Department of Agriculture, tested a grader that weighed about 450 pounds and was powered by a 1-hp. gasoline motor. With it, 6 or 7 pickers and a sorting crew of 4 picked and sorted 7,852 bushels of apples in 135 1/4 hours. Results of using the mobile grader were: less handling and bruising, no unnecessary handling of undergrade fruit, increased picker output, less packing-house space needed and longer storage life of apples. For more information, telephone, write or visit your County Agricultural Agent.

### Rural telephone service steadily improves

In 1951 Michigan Bell added 9,000 more telephones in rural areas. It made service better for 4,000 others with new equipment that put fewer parties on their line or gave them better ringing. Nearly three of every four establishments in Michigan Bell rural territory have telephones now; most are on lines with eight telephones or less. Money for extending and improving service must come from people who invest their savings in the telephone business. Naturally they expect the business to earn a fair profit, to pay them a fair return for the use of their money.

If God be for us, who can be against us? (Romans 8:31.)  
Read Romans 8:28-34.

During a European trip before World War II, a traveler was taken on an officially conducted tour of Soviet Russia. A beautiful church building was among the places visited. The building was no longer used as a place of worship. It was a government office building.

The guide took the tourist up to the chancel steps to point out on the ceiling a painting showing the figure of Christ seated upon a throne.

"He seems to have been smeared with paint," the traveler remarked.

"Yes," said the guide, "we covered Him with gold paint, but He still shines through the gilding."

"We can take courage and be of good cheer, for we know that 'all things work together for good to them that love God.' Though people as individuals, and nations of people, often reject Him and try to hide from His searching love and demands for truth and justice and purity. He yet shines through the gilt to give us hope, courage, confidence and peace for the living of these days.

O God, quiet our fears and anxieties with courage and confidence. Give us the assurance that in our joys and in our sorrows we are not alone, for Thou art with us. In our Redeemer's name. Amen.

From where I sit... by Joe Marsh

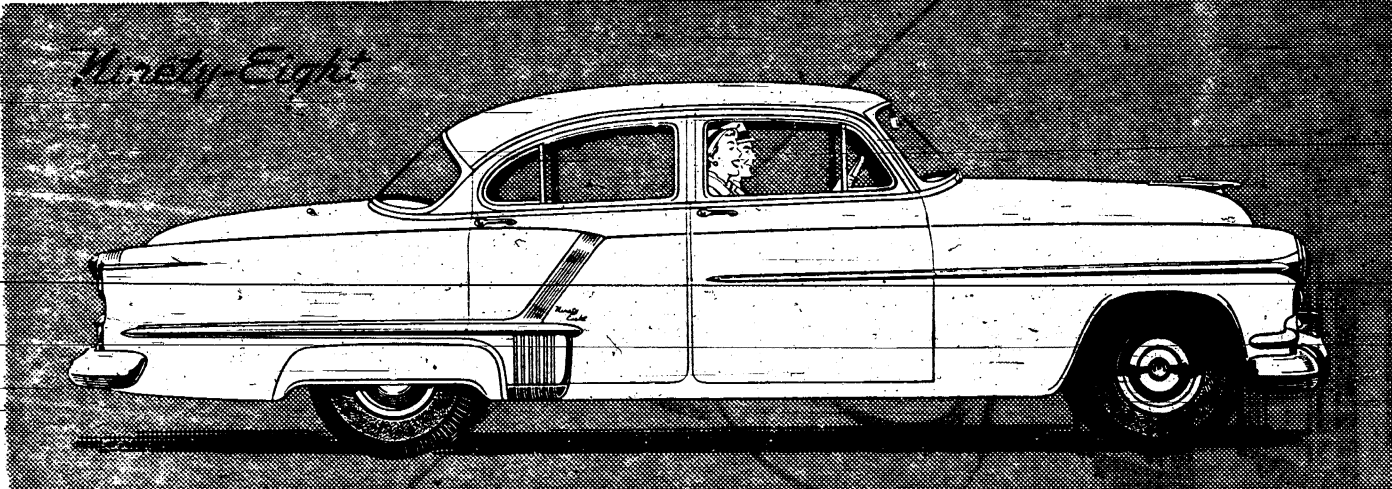

Ed Got Red In His Own "Hot Water"

Big Ed started a "Pay-Your-Bill" campaign last week and ended up with a slightly red face. Ed's been our Water Commissioner for ten years, and for ten years now he's been getting riled up over slow payments of bills. So, he finally decided to do something drastic about it. Last week he sent notices that if the slackers didn't pay up by Friday, he'd shut off their water. Naturally, some still didn't square accounts. Ed ordered their water turned off, and 14 homes went without all week end—the Commissioner's among them. Seems Ed forgot to pay his bill. From where I sit, Ed's mistake is one we all make at times. We are too quick to accuse others while forgetting our own faults. Lots of us do it, for instance, over a difference in taste for a soft drink or a friendly glass of beer. Let's respect each other's preferences and we'll all stay out of "hot water."

## LIVEWEIGHT TRACTION

### gives farming a real boost!

When your field work calls for more real pull, live-weight traction will see you through.

The hydraulic TRACTION BOOSTER in the CA and WD Tractors changes deadweight to liveweight. Weight of both tractor and implement is automatically shifted to bear down on drive wheels when soil is stubborn and tillage is tough.

The hydraulic TRACTION BOOSTER reduces wheel slippage—enables the CA and WD to do draw-bar jobs that normally would require heavier tractors. Stop in and let us show you how it works.
