

SCHOOL DAYS ARE HERE AGAIN

DRIVE WITH CAUTION!

● Since the time is drawing near when children will again be upon our streets in great numbers, going to and from their daily studies, we take this opportunity to remind motorists that care in driving may save the life of a child—IT MAY BE YOUR CHILD!

THE WORLD'S MOST WIDELY USED DEVOTIONAL GUIDE

Thursday, August 28
Praying Hearts and Hands
God is our refuge and strength; a very present help in trouble. (Psalm 46:1). Road Philippians 2:5-11.

Years ago a party of travelers, ascending the icy slopes of the Matterhorn, found themselves suddenly imperiled by a great gust of wind, as they rounded a shoulder

of the mountain. Their guide quickly shouted back, "Get down on your knees! You're safe only when on your knees!" His was the voice of experience, for he had traveled these steep and slippery mountain paths during many a year. He knew the only way of safety.

This is like-life. Storms sweep down upon us unexpectedly and threaten us with spiritual disaster. Temptations, sorrows, misfortunes, fears, defeats; find us unable to meet them successfully. The stresses and strains of life often overwhelm us, for in our own strength we are unable to overcome. It is at such times that the guide's words, "Get down on your knees," have special meaning for us. We need God's help and guidance. The centuries have proved that we travel life's pathway most safely on our knees.

Prayer

We pray Thee, O God, that in the hour of emergency Thou wilt keep us safe. Through all life's experiences, whether of joy or sorrow, may we consciously seek Thy divine guidance. Be Thou daily our Companion. We pray in the name of Christ, our Savior, who went about doing good. Amen.

Thought for the Day
I have made Christ the Guide of my life.
Harold Garnet Black (Calif.)

Aviation Exposition To Be Held At Wayne Major Airport

The fifth annual International Aviation Exposition will be held at Detroit Wayne Major Airport Thursday, August 28 through Monday September 1.

The U.S. Air Force will have the largest air-power exhibit ever to be presented to the American public. Psychological warfare, aircraft fuselages, warplants, and remote guidance techniques employed in guided missiles will be but a few of the exhibits.

A Republic F-84 jet fighter-bomber will be available for close internal inspection. A 40-ft. animated display will tell the story of the "war of minds" employed in Korea by the Psy-war Division. A comparison display of modern jet engines and conventional piston engines may be seen.

A North American F-86 Sabre jet will sound off the exposition each day. This blast will be caused by the jet power being funneled into a tunnel above 700 miles per hour and pulling out at 10,000 ft. The shock waves created by such speed will be produced at the main building in a manner explosive and loud. This will be followed by a demonstration of the unusual and powerful F-89 twin-jets.

In addition to the military display will be a midget plane race around a 2 1/2 mile course. New placement of pylons course markers will make each of the six pylons visible to all spectators. Many leading pilots will compete for the \$20,000 in prizes.

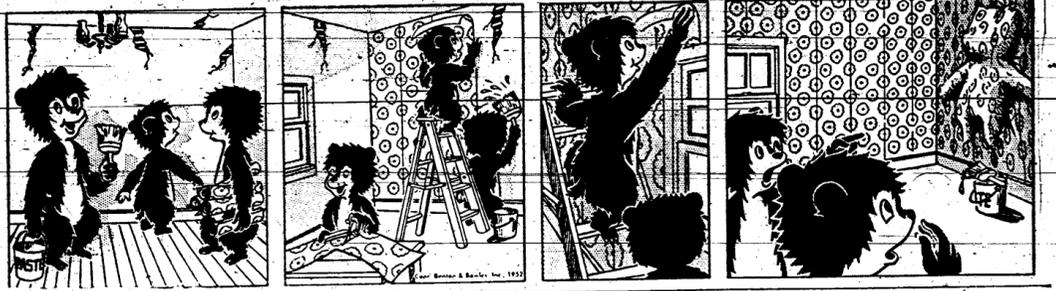

All reserved seat tickets for the exposition will be available at the airport.

Home Agent Offers Canning Hints

Brownish discoloration of fruits is the bane of many women doing their canning this summer. Hints on preventing this discoloration of apples, peaches, pears and pineapples are offered by Edna McDermott, county home demonstration agent.

As with all home food preservation—handle the fruit quickly and you will have a more wholesome, naturally colorful product. Allow peeled slices to re-

DANDY, HANDY 'N CANDY

By Winsor

main in a solution of two table- spoons vinegar and two table- spoons of salt per gallon of cold water until packed in jars.

suggests Roberta Hershey of the foods and nutrition department, Michigan State College. The brownish discoloration can be prevented, in part at least, by using the hot pack method; that is, heat fruit clear

through in hot sirup before packing them in the jars. Miss McDermott recommended.

And finally, help prevent the fruit discoloration by processing the boiling water bath for the correct length of time. Both over-processing and under-pro- cessing cause darkening. Miss Hershey warned.

The same brown discoloration

in fruit is sometimes seen in corn. For preventive measure

Miss McDermott suggests using corn that is not too young and pack the corn while it is boiling hot and be sure there is half as much water as there is corn— by actual measure.

Again, in the case of corn, process it for the correct length

of time and then cool the jars quickly.

A bushel of corn in husks will yield between eight and nine quarts. It takes six to 16 ears of corn to make a quart of canned corn.

HINTS FOR HOMEMAKERS

NEW FIBERS NEED CARE ON WASHDAY

by the General Electric Consumers Institute

The new synthetic fibers, such as orlon, nylon, dacron and fiberglass, are finding ever-increased acceptance with homemakers, especially in the form of marquisette-weave materials for curtains.

It's good to know that, according to the General Electric Consumers Institute, you can launder curtains of the new materials successfully in an automatic washer. Just follow these simple directions:

Shake the curtains well to remove dust, and then put two or three curtains in a loosely woven mesh bag or large pillow slip, loosely basting the opening to prevent curtains from slipping out. About four bags of curtains can be placed in the washer at one time.

Distribute Bags Evenly

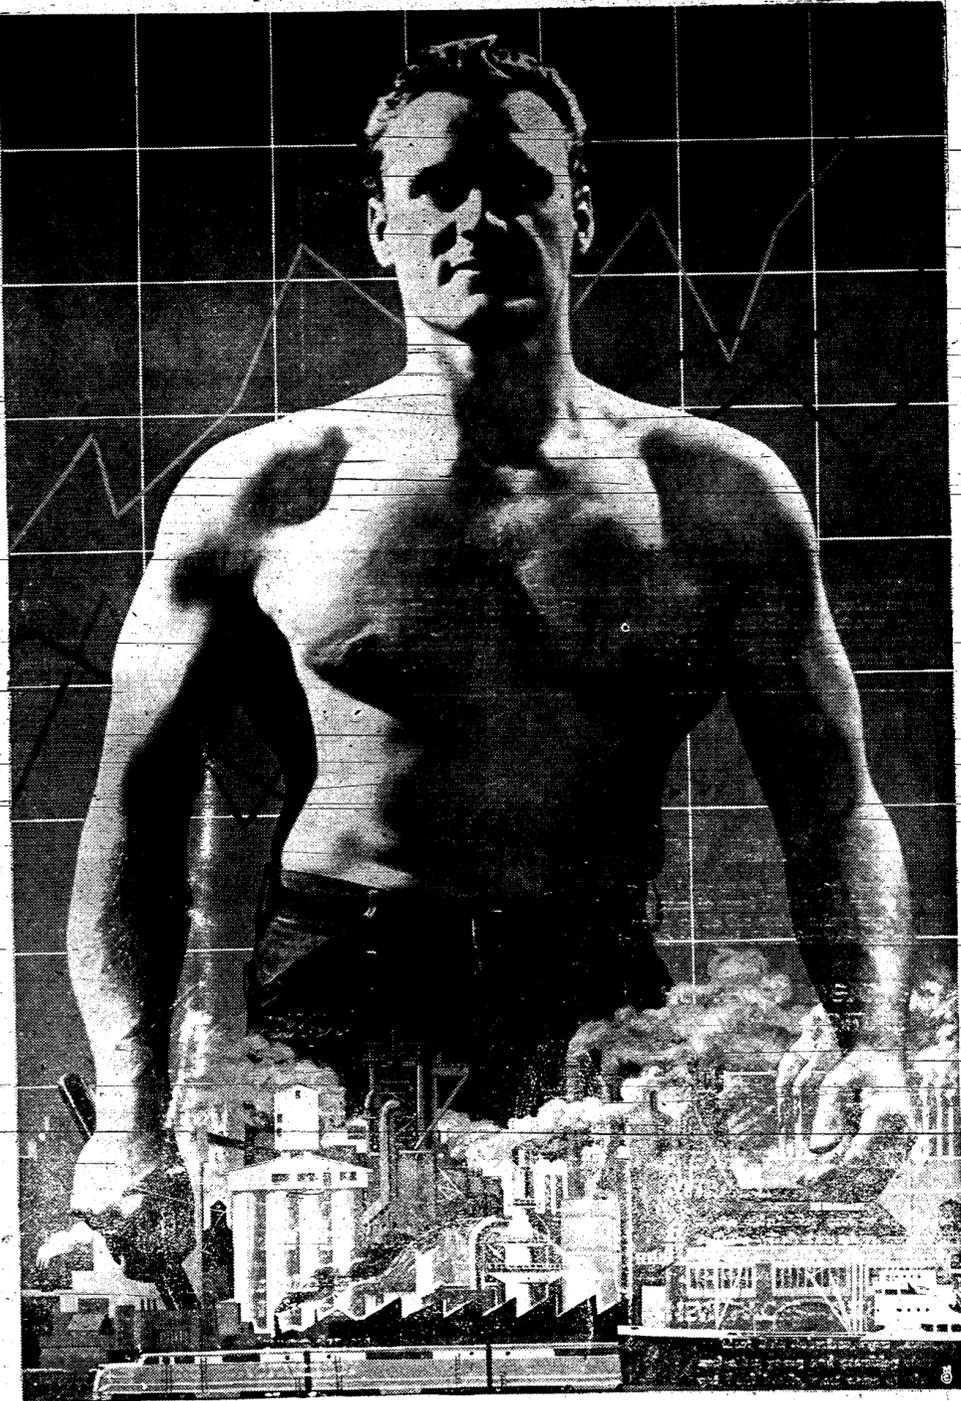

Distribute the bags evenly in the washbasket, set the washwater temperature dial at warm and the wash time dial for three minutes. Pull out the switch and allow the washbasket to fill, adding a measured amount of mild soap or detergent when activation begins.

When wash activation stops, let the washer go through a spin cycle for 3 minutes. Allow no more than 3 minutes activation in the rinse period; then push in the switch to stop the washer.

Let Curtains Dry on Rods

Remove the bags of curtains, squeeze them gently to get rid of excess moisture, and hang them right on their rust-proof curtain rods. When allowed to dry in this way, the new synthetic materials usually need no ironing—or, at the most, a light touch-up pressing with a warm iron after they are thoroughly dry.

LABOR DAY - - - 1952

This newspaper joins in saluting America's free workers on this 1952 Labor Day. May we always be appreciative for their contribution to our Way of Life.

Encouragement for the Future Farmers

CHICAGO, Ill.—Good progress is being made to increase the operating budget of the Future Farmers of America, largest farm boy organization in the world.

Two feature automobile races will be held. The fourth annual 100 mile big car race will be held Aug. 30th at the State Fair grounds and on Sept. 7 the 150 mile midsize race will be staged.

Short Subjects About Michigan State Fair. August 29 through September 7 at the Michigan State Fairgrounds near Detroit.

With the reopening of schools and nearly one and one-half million Michigan children crossing streets and highways on their way to and from classrooms, State Police are urging all persons to take part in the current statewide child safety campaign.

The State Fair will open with a parade starting in downtown Detroit at 11:00 a.m. Friday, Aug. 29. Clowns, floats and beautiful girls will be featured in the parade.

The American Dairy Association will exhibit a "but sculpture" done with 2500 pounds of butter.

A special exhibit of casting streets and highways on their way to and from classrooms, State Police are urging all persons to take part in the current statewide child safety campaign.

To Close Fireplace—
MANY old homes have old-fashioned fireplaces which no longer are serviceable. They are a problem, being expensive to remove or put into working condition, and being drafty, dirty, and wasteful of room heat.

There are several ways to close the opening to shut off the draft, but making the closure both functional and attractive is a bit of a trick. The ideal solution is a panel which tightly closes the opening and which may be pleasingly decorated to heighten the interest in an otherwise dull location. Many leading artists use Tempered Reswood instead of canvas. Its qualities as a painting medium—permanence, absence of grain, durability,

merry that people figure it's bound to be short.—Washington Post.
The fatality of good resolutions is that they are always too late.

Fishermen are coming home with the usual stories—about the big ones that got away. It's too bad that the future generations can't be here to help us spend their money.

A man is rich in proportion to the number of things which he can afford to let alone.—H. D. Thoreau.

Life is just an everlasting struggle to keep money coming in and teeth and hair and vital organs from coming out. Brooklyn Field Bay Breeze.

There is an agreement on one point in this argument. The price of what we buy should be fixed, but the price of what we sell should not. Brattleboro (Vt.) Reformer.

The world's most baffled scholar is the one who has looked through all the books on economics trying to find a practical solution to the problem of wages and prices.

Farm Publication Features Michigan State 4-H Show

Michigan's unique State 4-H Show was spotlighted in a national farm publication recently. In the August issue of Capper's Farmer an article and cover picture feature the Michigan State College 4-H Fair. Entitled "State 4-H Fair Goes to College," the article praises the Michigan event that has "No midway, no side-shows, no carnival rides but plenty of entertainment and excitement just the same."

The State Show has been held on the MSC campus since 1942, when the state fair in Detroit was abandoned during the war. Since then, the boys and girls have wanted to return to the campus to hold their final state-wide competition each year. This Michigan State Show is the only one in the nation held on a land grant college campus. Activities ranging from archery and softball to livestock judging to food preparation will engage more than 2,000 youngsters from August 26 to 29. About 500 different

non-splintering or cracking—are the same which make it widely used in home remodeling and new construction in residential, commercial, and industrial fields.

A Preswood panel, then, used as a fireplace closure and painted or otherwise decorated combines function and beauty. Instead of a painting by some talented member of the family or friend, the panel may be covered with a blowup of a favorite snapshot. Decalcomanias are another alternative, or the smooth surfaced material may be painted or enameled.

Since the artistic motif is involved, it's wise to have the panel easily removable so that the scene may be changed from time to time. The simplest way to install the quarter-inch panel for its dual purpose is to fasten a framework of 1x2 lumber in the opening and then attach the hardboard with roundheaded screws inserted through drilled holes at the corners and intermediate points.

As Others See It
Almost one-third of America's farm families have gross incomes from all sources of less than \$2,000.—Walter Dellhorn, Professor of Economics.
One of the hardest secrets for a man to keep is his opinion of himself.—R. B. Strauch, Elgin (Iowa) Echo.
Marked increases in purchases of life insurance have been noted during the last few months. Life has become so

Switches to Dodge... lowers hauling costs
Whatever you haul, there's a Dodge truck—1/2-ton through 4-ton—that's "Job-Rated" to fit your job and save you money.
Full crankcase ventilation saves oil, lengthens engine life, and lowers upkeep costs.
Two fuel filters—instead of only one—keep fuel clean to help prevent carburetor clogging and fouled cylinders.
For smooth power that saves wear and tear, gyrol Fluid Drive—a Dodge "exclusive"—is available on 1/2-, 3/4-, 1-ton, and Route-Van models.
Come in today for a demonstration and a real good deal.
Enjoy over-all economy. Dodge "Job-Rated" trucks are easy on gas and oil, thanks to compression ratios as high as 7.0 to 1. Other cost-cutting advantages include lightweight aluminum-alloy pistons and gas-saving carburetor with economizer valve.
Cut down upkeep. With a Dodge "Job-Rated" truck you get such, proved money-saving features as 4-ring pistons with chrome-plated top rings, exhaust valve seat inserts, pre-fitted connecting rod bearings, positive-pressure lubrication, and other features.
Dodge "Job-Rated" truck gives you shot-peened axle shafts. Life advantages include oil-resistant valve and oil intake.
"My Dodge has proved to be a real saver on gas!"
"We are getting several more miles per gallon with our Dodge 'Job-Rated' truck—and in a small business like mine, economy is important."
"My Dodge has not only proved to be a real saver on gas—but we are real pleased with Dodge dependability. Hauling pipes, fixtures, plumbing tools and other heavy equipment has broken down several trucks for us. But our Dodge has taken heavy-duty use over bumpy roads for a long time now and we haven't had to have a single mechanical repair."
says **LEWIS ENGEL**, Reliable Supply Company, Chicago, Ill.

DODGE "Job-Rated" TRUCKS
J. STEEB - 117 W. Michigan Ave., Saline

Here's A Good Fish Story

This time of year, when fresh fish are plentiful and economical, is a good time to get acquainted with the many varieties available not only near ocean and lakes but in inland towns, thanks to modern refrigeration. Secret of success in cooking fish is not to overcook it, and to season it properly. Fish is bland, and takes well to simple sauces, such as the Tabasco sauce below. A high quality protein food, there are some 160 varieties of fish sold in the United States. Here are pictured, reading top to bottom, three salt water varieties, sea bass, mackerel and porgie, and three fresh water species, white fish, yellow pike and brook trout. An easy and appetizing way of preparing fish for the table is by simple broiling. To serve four, plan on 1 pound of fillets or steaks or four small fish, and 3 to 4 tablespoons of fat. Preheat broiler. Place fillets or steaks in serving pieces. Grease the broiler rack lightly. Place fish on rack, skin side up; brush with melted fat. Place rack 2 to 3 inches from heat. Broil fish 5 to 8 minutes or until brown, and serve with this tangy sauce.

Tabasco Butter Sauce
 4 tablespoons butter or margarine 1/4 teaspoon Tabasco
 4 1/2 teaspoons lime juice 1 tablespoon minced parsley
 Melt butter in saucepan. Add lime juice and Tabasco; heat. Add parsley. YIELD: Approximately 1 1/2 cups.

Encouragement for the Future Farmers

CHICAGO, ILL.—Good progress is being made to increase the operating budget of the Future Farmers of America, largest farm boy organization in the world. Here, Roger M. Kyes (right), Chairman of the Sponsoring Committee of the FFA Foundation and vice president of General Motors, presents checks totaling \$25,350 to Dr. W. T. Spanton, national FFA advisor, as a starter for the 1953 FFA budget. Companies in business and industry donate the money, which will go into cash awards for the farm boys in various FFA contests throughout the U. S., Hawaii and Puerto Rico.

had been more alert and expecting the unexpected.

Drivers should take special precautions, not only in school and playground areas, but in all areas where children are likely to be. They also should always remember that thousands of pre-school age children will be outdoors during all hours of the day. In other words, children may be anywhere, any time.

Likewise, adult pedestrians, parents especially, can help prevent accidents involving children by practicing safe walking habits. Adults should realize that their own actions are examples boys and girls observe and follow. Too often these are examples of carelessness. Help protect children. For their sake—as well as your own—walk and drive carefully.

The slogan of the campaign, which is sponsored by the State Safety Commission, is "Watch Out For Kids."

LOCAL BRIEFS

Mr. and Mrs. Vance Cole and son of Charlotte and her mother Mrs. Hartley Wheaton also of Charlotte were Sunday dinner

guests of Mr. and Mrs. Lowell Parr.

Mr. and Mrs. Fred Meyerhuber and Miss Annetta Moehn of Adrian were callers at the Lowell Parr home on Sunday evening.

Mrs. C. F. Knight of Grosse Pointe arrived Wednesday to visit Mrs. Mame Farrell for several days.

Mr. and Mrs. Homer Conley and family of Chelsea spent Saturday evening visiting Mr. and Mrs. Frank Riedel.

Mr. and Mrs. Al Humphries of Jackson spent Friday afternoon with Mr. and Mrs. Walter Frey.

Mrs. Chris Nobles of Litchfield spent Tuesday with Miss Agnes Kent.

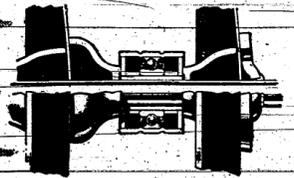

NEW MOUNTED DISC HARROWS

for WD and CA Power

PLUS

Sealed "never grease" BAL-PAK bearings.

Now for WD and CA Tractors — new mounted disc harrows — the answer for those who demand the most in speed, ease of handling and maneuverability — plus sealed-in ball bearings that never need greasing.

By taking full advantage of the WD or CA hydraulic system, low forward hitch point, and new bearings, these harrows save power and provide good penetration with minimum weight.

Let us show you how good a mounted disc harrow can be.

Sizes:
 6 ft. for WD
 7 ft. for CA

Short Subjects About Michigan State Fair

Two feature automobile races will be held. The fourth annual 100 mile big car race will be held Aug. 30th at the State Fair Grounds and on Sept. 7 the 150 mile midjet race will be staged, also, at the Fair Grounds. The big race is AAA sanctioned and among the drivers will be Troy Ruttman, winner of the 1952 Indianapolis classic.

On Veteran's Day, Sept. 6, captured Korean war equipment will be demonstrated by Marine combat troops. A demonstration of hand-to-hand combat methods will also be shown.

The State Fair will open with a parade starting in downtown Detroit at 11:00 a.m. Friday, Aug. 29. Clowns, floats and beautiful girls will be featured in the parade.

The American Dairy Association will exhibit a "butter sculpture" done with 250 pounds of real butter. The scene will be of a mother spreading butter on a slice of bread held by her little boy. This sculpture will be done on opening day by J. E. Wallace of Deland, Florida.

A free sportsman's show will be featured each day of the fair. The public is invited and there will be bleachers erected to seat all interested. Daily demonstrations will be offered by nationally known experts of casting and archery along with firearms and other sports equipment.

A special exhibit of certified seed with samples of certified grain will be shown during the fair. Several varieties of Michigan wheat and oats will be shown in sheaf and grain forms showing various characteristics. A cleaning mill will also demonstrate the process of cleaning certified seed. A map will indicate areas of certified seed production.

Another feature of the fair will be a state-wide amateur photography contest. This will be the first time for an attraction of this nature. The contest will be open to all Michigan residents for a \$1.00 entry fee. This will go to the prize fund. Prizes will go to the persons who best capture the spirit and feeling of the fair. Anyone except a professional can enter, no matter how elaborate or how old fashioned your equipment may be. Deadline for entries is Friday, September 5. Rules are:

- (1) Best of four photographs of at least 3 1/2 x 4 1/2.
- (2) Photos must be taken during the fair and on the fairgrounds.
- (3) Pictures become the property of the fair and none will be returned.

Deadline: Fri. State Fair

August 29 through September 7 at the Michigan State Fairgrounds near Detroit.

And don't forget that Saline has a super-dandy community Fair coming up at the end of September from the 24 through the 27.

School Time Brings Child Safety Plea

With the reopening of schools and nearly one and one-half million Michigan children crossing streets and highways on their way to and from classrooms, State Police are urging all persons to take part in the current statewide child safety campaign.

Last year 8,247 children under 15 years of age were killed or injured in Michigan traffic, an average of about 160 casualties each week.

More often than not the children were victims of their own carelessness, but many of the tragedies could have been avoided if drivers

The SNAPSHOT GUILD

The simplest flash camera can be used to picture the valuables in your house for insurance record purposes.

Do You Know What's in Your Home?

IF YOUR home and all your possessions were suddenly destroyed, could you make a list of everything you'd lost? Most of us couldn't according to the insurance companies.

But here's another instance in which you can put your camera to a very useful purpose. Make a photographic record of the contents of your house and file the negatives away with your insurance policy. Then you'll have definite proof of the nature of the articles should they be stolen or destroyed.

Photographically speaking, there's nothing difficult about taking such record shots. You don't need special skill or equipment. The camera with which you take family snapshots will do the job. If it is equipped for synchronized flash, that will make it all the easier; but if it isn't you can always make time exposures since there won't be any risk of subject movement. Your photo dealer can tell you the easiest and most sat-

isfactory way to do it with your particular camera.

In addition to making general views of the rooms, and close ups of particularly valuable pieces of furniture and art objects, it might be well to open up some of the cabinets and drawers and spread their contents out on the table for photographing and listing. You'll probably find things that have been thought lost for years!

Negatives of the record shots should be kept in a safety deposit box or other safe place. Then, if you ever need to use the pictures in making insurance claims it will be a simple matter to have enlargements of all or part of the negative made in order to facilitate study of the picture.

Shoot the pictures any way you wish—as black-and-white or color snapshots, as color transparencies, or even on movie film—but it will still add up to a photographic record that can protect you from loss in case of an emergency.

To Close Fireplace
MANY old homes have old-fashioned fireplaces which no longer are serviceable. They are a problem, being expensive to remove or put into working condition, and being drafty, dirty, and wasteful of room heat.
There are several ways to close the opening to shut off the draft, but making the closure both functional and attractive is a bit of a trick. The ideal solution is a panel which tightly closes the opening and which may be pleasingly decorated to heighten the interest in an otherwise dull location.
Many leading artists use Tempered Preswood instead of canvas. Its qualities as a painting medium—permanence, absence of grain, durability,

non-splintering or cracking—are the same which make it widely used in home remodeling and new construction in residential, commercial, and industrial fields.
A Preswood panel, then, used as a fireplace closure and painted or otherwise decorated combines function and beauty. Instead of a painting by some talented member of the family or friend, the panel may be covered with a blowup of a favorite snapshot. Decalcomanias are another alternative, or the smooth-surfaced material may be painted or enameled.
Since the artistic motif is involved, it's wise to have the panel easily removable so that the scene may be changed from time to time. The simplest way to install the quarter-inch panel for its dual purpose is to fasten a framework of 1x2 lumber in the opening and then attach the hardboard with roundheaded screws inserted through drilled holes at the corners and intermediate points.

merry—that people figure it's bound to be short.—Washington Post.
The fatality of good resolutions is that they are always too late.

Fishermen are coming home with the usual stories—about the big ones that got away. It's too bad that the future generations can't be here to help us spend their money.

A man is rich in proportion to the number of things which he can afford to let alone.—H. D. Thoreau.

Life is just an everlasting struggle to keep money coming in and teeth and hair and vital organs from coming out. Brooklyn Field Day Breeze.

There is an agreement on one point in this coiling argument. The price of that we buy should be fixed; but the price of what we sell should not. Brattleboro (Vt.) Reformer.

The world's most baffled scholar is the one who has looked through all the books on economics trying to find a practical solution to the problem of wages and prices.

Farm Publication Features Michigan State 4-H Show

Michigan's unique State 4-H Show was spotlighted in a national farm publication recently.

In the August issue of Capper's Farmer an article and cover picture feature the Michigan State College 4-H Fair. Entitled "State 4-H Fair Goes to College," the article praises the Michigan event that has "No midway, no side-shows, no carnival rides but plenty of entertainment and excitement just the same."

The State Show has been held on the MSC campus since 1942, when the state fair in Detroit was abandoned during the war. Since then, the boys and girls have wanted to return to the campus to hold their final state-wide competition each year. This Michigan State Show is the only one in the nation held on a land grant college campus.

Activities ranging from archery and softball to livestock judging to food preparation will engage more than 2,000 youngsters from August 26 to 29. About 500 different

classifications and divisions will be exhibited, demonstrated, judged during the four days. Evening programs have been arranged, also.

The Ford Manchester Management and Union Picnic was held Saturday with over 300 attending. The following door prizes were won by: Coffee maker, Mrs. Eugene Johnson; train case, Mrs. Betty Bunney; toaster, William Ter-vo; blanket, Charles Miller; bathroom scales, Mrs. Joe Schwab.

Largest family, Clarence Fielder, \$15.00 credit slip; Harley Gilbert, \$15.00 credit slip; Roy Randall, \$15.00 credit slip. Youngest child, Roy Randall, \$5.00 credit slip; girl under 16, Jean Warner, \$5.00 credit slip; boy under 16, Stephen Bentschneider, \$5.00 credit slip; girl under three, Jackie Miller, tricycle; boy under three, Bobbie Brooks, tricycle. Adult Sports, Games

Women: Husband calling, Margaret Baxter; thread winding, Mrs. Charles Emdin; nail pounding, Edith Golaz; horse shoe throw, Virginia Schwab, Edith Wheeler. Men: Wife calling, William Shade; shot put, Jim Cannon, Jr.; horse shoe throw, Ted Roberts, Bud Knerpp.

Men's low gross, Ted Roberts; trophy; women's low gross, Marie Knorpp; trophy; men's low handicap, Russell Hosmer; trophy; women's low handicap, Phyllis Baker; trophy.

Children's Games Peanut scramble: 1st, Jackie Wheeler, Ford model car; 2nd, David Feldkamp, sand pail; 3rd, Rhoda Lapham, sand pail; 4th, Fred Randall, small ball; 5th, Donna Gilbert, small ball; 6th, Nancy Ellis, small ball.

Penny scramble: 1st, David Feldkamp, model car; 2nd, Fred Randall, sand pail; egg race, girls: 1st, Patsy Blumenauer, box candy; 2nd, Margaret Ann Steele, wallet; egg race, boys: 1st, Terry Timm, gun in holster; 2nd, Eric Robinson, Ford model car; sack race, 1st, Ronny Sukokeus, football; 2nd, Bobby Sellers, Ford model car.

Three legged race, girls, girl's team, wallet for each girl; three legged race, boys, boys team, ball and bat for each boy; biggest smile, boy: J. R. Bunney, tractor; biggest smile, girl: Mary Ann Leedy, wallet; biggest smile, tot, Tonya Hanewald, sand pail.

Button race, girl: Vickie Ball, wallet; button race, boy: Norman McLeod, tractor, Scott Randall, tractor; softball throw, girls: 1st, Patsy Blumenauer, compact; 2nd, Roberta Hunt, box candy; soft ball throw, boy: 1st, Richard Cox, football; 2nd, Bobby Sellers, box candy; toothless derby race, girl: Theresa Roberts, sand pail; toothless derby race, boy: Michael Lowery, tractor.

PTA To Launch Membership Drive

Local PTA executive committee met at the home of PTA President James Pratt Thursday evening to draw up plans for the current school year. Apparently the main concern of the new president is the low membership of the Parent-Teacher Association which boasts of only fifty members. Mr. Pratt made it clear that he and his officers will do all in their power to increase—at least double the present enrollment.

With this thought in mind it was decided that the PTA should sponsor a booth at the Community Fair at which people of the community can enroll as members. This is not limited to parents and teachers only but includes all persons interested in the school and its activities. Working on this membership drive will be the special membership committee headed by Mrs. E. M. Ruck, working with Mrs. Dorothy Brown, Mrs. Harold Burch and Lucy Soiden. It might be interesting to note that membership in the PTA amounts to fifty cents a year.

Mrs. Henry Eames, chairman of the membership committee, said the goal that parents and teachers will be to double the membership in this year. Working on this project will be Mrs. Eames, Mrs. M. L. V. Ketter, Mrs. E. M. Ruck, Mrs. Dorothy Brown, Mrs. Harold Burch and Lucy Soiden. It might be interesting to note that membership in the PTA amounts to fifty cents a year.

Officers of the Manchester PTA working with PTA officers, PTA Vice President, Mrs. Roger Handelman, secretary, Mrs. Eugene Johnson, treasurer, Mrs. Earl J. Ketter, Mrs. Kenneth Ketter, chairman of the ways and means committee and is assisted by Mrs. Roland Grossman, Mrs. William Mann and Mrs. Rose La. On the hospitality committee Mrs. Marvin Oates will work with Mrs. Earl Ketter and Mrs. Frank Lowery, Jr. On publicity Marie Schneider will be assisted by Mrs. Jean Wheeler and Miss Nellie Ackerson and Charles Mills are on the book committee. Mrs. Millard Uphaus is chairman of the room mothers and a complete list of the room mothers and the programs planned for the PPTA will appear at a later date in the Enterprise.

Michigan Library Association Meets At Lansing

Mrs. Franklin M. Reck, trustee at large for the Michigan Library Association and Miss Francis Burnside, vice-president of the Association of Jackson were in Lansing where they attended the program planning committee meeting at the YMCA District meeting to be held in various cities in Michigan through September and October were arranged at that time. September 4th has been set for a special meeting for training of district chairman. The state is divided into seven districts. Manchester is on district 3 with the next meeting to be held in Highland Park for this district.

Mary A. Schill

Mrs. Mary A. Schill, 79, of Manchester died early Wednesday at the Tecumseh hospital following a one month illness. Mrs. Schill was born in Manchester township on April 10, 1873, a daughter of Mr. and Mrs. William B. Kern. She was married to John A. Schill on June 4th, 1893, in Manchester. The couple celebrated their 63rd wedding anniversary this year. He survives.

Mr. and Mrs. Schill lived on a farm in Manchester township until 1927 when they moved to Manchester. She was a member of the Emanuel Evangelical and Reformed church and the Ladies Arbiter Society.

Surviving besides her husband are two sons, Webster of Manchester and Arthur of Adrian; three daughters, Mrs. Emma Kimble of Grass Lake and Mrs. Edna Kline and Mrs. Alice McGuire, both of Manchester; twelve grandchildren; sixteen great grandchildren and one great great grandchild. Funeral services will be held at the Emanuel Evangelical and Reformed church at 2 p. m. Friday. Rev. Karl H. A. Rest will officiate and burial will be in Oak Grove cemetery. Friends may call at the Jenter Funeral Home until Friday noon.

NORVELL

The Cassidy Lake Choir under the direction of Forrest E. Cook will present a program at the Norvell church on Sunday evening August 31 at 8 p.m.

Mrs. Carrie Weldrick of Adrian has been spending several days with Mrs. Mildred Bosom.

Mrs. Ed Hill of Hudson visited Mr. and Mrs. Earle King last week.

Williams Kicks Off Tuesday

Governor G. Mennen Williams, Senator Blair Moody and other candidates on the State Democratic ticket will be in Ypsilanti on Tuesday, September 2, to open their campaign for election at a 7:00 dinner to be held in the ballroom of the Charles McKenny Hall.

Proceeding the dinner there will be a reception honoring the candidates from 6:00 to 7:00 p. m. in the Formal Lounge of the Charles McKenny Hall.

Farm Bureau Picnic

The Sharon Farm Bureau had their annual picnic at the Oklahoma Ranch for fifty members and families with a potluck dinner. Mrs. Anton Feldkamp in charge of the entertainment.

Origin-Of Labor Day

Labor Day had its origin in the aggressive leadership of Peter J. McGuire, who first proposed a national labor holiday in 1882, and fought for it unremittently until it was legalized by Act of Congress in 1894.

Meet Your Michigan

Illustrated article about Michigan's copper industry, national forests, and historical events like the Ann Arbor race. Includes photos of a copper mine, a forest, and a race scene.
