Dumping Rubbish Te
Be Halted

Dumping rubbish along country roads—particularly the Manchester-Chelsea road—has added another problem to Sheriff John L. Osborn and County Road Commissioner Manager Howard G. Minier.

The dumping has been general throughout the country but they point out the Manchester-Chelsea road side seems to be collecting more than a little.

Osborn promised that anyone found dumping rubbish and caught will be arrested and prosecuted for this is a crime and will be punished. He asked county residents who witness acts of dumping to take the license numbers of the offending cars and report them to the Washtenaw County Sheriff's Department.

Apparently no one is quite certain just when the custom started but many old-timers cannot remember when it was any different. The Home celebrates its 75th anniversary this year and the ingathering of eggs for the Home is an old custom according to Rev. Take the ingation of the Bethel Church according to Rev. Ford Co. Announces
New Safety Record
Ford Moter Company anounced that its Ford Division assembly plant in Norfolk, Va., has established a new company-wide safety record of 7,500,000 consecution that is best to wait in other man-hours worked without a serious accident.

The plant, which employs more than 1,600 persons, has operated since October 2, 1851, without a "lost-time" accident—one in which an employee is injured seriously enough to lose a day's work.

Every year, while some early bird is getting the worm by plant in garden early, some oather other and make the plant in garden early, some other early bird is getting cut down by a late spring frost.

Sofuly falls the rain of Spring (And then sgain it pours!)
While the poers thyme and sing About the coming flowers.
Though I try to join their song and not unduly fret, Seems to me it lasts too long and mot unduly fret, Seems to me it lasts too long and gets me awful wet!

## These facts about the New Chevrolet can help you make an important decision

Don't you agree that buying a new car calls for careful consideration? Regardless of make, it involves a substantial amount of money and a lot of future satisfaction. This information can give you a better idea of companion to the constant of the constan tion. This information can give you a better idea of comparative value and help you decide which make to buy.

But, actually, the influence in the serious product of design changes made for other reasons. Chevrolet engineers

Actually, what he does is to ask about seven basic questions. The answers give a pretty complete pic-ture of the car and its comparative value. Here's what he wants to know. How well do I like its looks? That's one question, of course, that only you can answer. You're the one anybody else, should be proud of its

All we can tell you is that we hear a lot of nice things about Chevrolet's new styling. People seem to like the new front-end and rear-end designs, and the way the bumpers curve even farther around the fenders. They like the new styling touches all around the car and the wide choice of bright new its field for smooth and graceful lines.

quality of the fabrics and notice the more generous use of vinyl trim In all these ways, you'll find evidence of superior quality and work-manship. And after all, isn't that what you would expect in Body by Fisher? As you know, Fisher is the largest and most famous manufac-turer of automobile bodies in the

world. Doesn't it stand to reason that Fisher can build extra quality into the Chevrolet body? It's there and What's under the hood? You hear a great deal of talk these days about engine power. The truth is that the number of horsepower isn't nearly as important as what the horsepower does for you.

economy of operation is certainly an compare Chevrolet in this respect with any car at any price. And, in the case of this new Chevrolet, you do not have to sacrifice economy for finer performance and more horsepower. That's because the Chevrolet engines are high-com-pression engines. Their compression

ratio of 7.5 to 1 is the highest in any of the leading low-priced cars. This means simply that the engine compresses, or squeezes, the fuel mix-ture to a greater degree in order to wring more work out of it. That's how Chevrolet is able to give you an important gain in performance along -and on regular gas, of course.
